sights and sounds.

"And I supposed we were poor!" deam that it was harder to send away. eagerness. to wear and a place to live. Being "What's the verdict?" ing poor in the country!"

Oh, very different! For a moment, here in the same city with him, see else, I don't believe." the tottering tenements were blotted him, perhaps, now and then, learn to out by a cool green vision of trees and tall grasses ruffling in the wind, sweet with clover tops steeping in the sun. A throb of homesickness swept

Uncle Henry was moving now through solid blocks of business streets thronged with alert, well-dressed people. Later on they rolled through wide avenues bordered with stately houses set in carefully cultivated shrubbery. Here the graceful spire of a priceless church soared above the clustered roofs, there the facade of an immense hotel. Geoffrey gleaming like many colored jewels, it is novel enough nowadays. Mirard's Liniment Cares Garget in Cows

It's Sunday morning-blazing hot, and pretty near a whole day before you for rest and recreation.

First, then—a shave. Whether you are going for a spin in the car, taking the family to church or visiting a neighbour, you cannot go with a day's growth of beard on your chin.

The thought of shaving won't be irksome if you own a Gillette Safety Razor-rather, you think of five minutes' cool comfort with the highest type of shaving edge ever developed. No man in the world can command a keener blade than the one you slip into your Gillette.

And if Gillette shaving gives you an added joy to your Sunday, why not take five minutes every morning for a clean shave as the start for a better day's work.

For \$5.00—the price of the Gillette Safety Razor—you have sets (just as perfect, but more compact), and the Bulldog Gillette with the stocky grip. Ask to see them TODAY at the 'ewellers', druggists' or hardware dealers.

# BENSON'S CORN STARCH

LIOUSEWIVES are finding new and delicious uses for Corn Starch every day-in fact, for every meal.

Not alone smooth, creamy gravies and sauces, and simple puddings -but crisp, delicate pastries: flaky rolls, bread and biscuits; rich tender cakes and pie fillings; and desserts such as you never thought it possible to make in your own kitchen.

Insist on BENSON'S-no other Corn Starch can guarantee such Purity and Delicacy. Recipes on the package.

### AROUND THE WORLD **NEXT AERIAL FEAT**

SOME INTREPID AVIATOR MAY EMULATE MAGELLAN.

Curious Means of Travel in Use Various Parts of the Globe-The Wheelbarrow of China.

"Now that the Atlantic has been crossed and there are plans afont to fly over the Pacific, the day may not be far distant when some aerial Magellan will make an aeroplane tour around the world," says a recent

"There are still many corners of the world where aeroplane, automobile and even the horse would be curiosities. And if a man set out to tour the globe and 'do as the Romans do' in respect to adopting native conveyances he would have to:

"Resort to a donkey in Spanish America and in the Holy Land. "Climb aboard a camel to traverse African deserts,

"Cross some rivers of India on the inflated skins of bullocks, and others by a bridge of one rawhide rope.

Using Elephant as Taxi. "Submit to the sea-going motion of an elephant when he continued his

journey on land, "Get into a man-borne palanquin at

Calcutta, "Jolt over Far Eastern roads in a

non-shock absorbing cart drawn by "And in China be prepared to climb into a jinrikisha, a sedan chair or a

wheelbarrow." A few of these curious means of

travel are described as follows: "In all parts of that great line of deserts, stretching from North Africa across Central Asia to Northwest China, the camel is everywhere in evidence: the total number in the world being estimated at about three mil-

"Not only is the camel a valuable freight carrier, but he serves as the travelling car of the Rockfellers, the Carnegies, the Morgans and the Harrimans of the desert. When he is chosen fo. this more pretentious seried their mechanism. Statements to vice a light framework is placed upon ious colors. In this gorgeous com partment, which may be not inaptly termed the 'palace car of the desert, the master of the camel train places his wife and children, his choicest merchandise, his cooking utensils and daily requirements, and travels in state, the observed of all observers the envy of the wandering native of the desert.

Craft on the Euphrates.

"On the Euphrates and the Tigris are still retained the curious water transports of centuries ago-the raft of skins and the circular boats. These rafts are sustained by inflated skins, prepared for this especial purpose, and after the raft floats down the river to its destination the inflated skins are removed, the air permitted to escape, and the skins carefully folded and carried back to the upper waters, where they are again inflated and used as the support of another and still another

"Even more curious to the eves of the traveller from other parts of the world are the circular boats, made of wickerwork and covered with skins Home-Cooked Baked Beans are still in daily use on the Tigris and Euphrates rivers. or made watertight with pitch, which

"The three principal methods o transportation of people in Central and Southern China are the sedan chair the jinrikisha and the wheelbarrow

"Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there used differs from that used by us in the fact that the wheel is set in the centre and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow coolie in China will transport nearly a half ton on his vehicle."

Technical Talk.

Mr. Sopwith, the well-known aeroplane manufacturer, cordially detests Once, at the Aero Club, after lis-

the conversation by remarking: "This morning I went over to see a new machine we've got at our place

at Kingston. It's wonderful how it "And how does it work?" demand-

ed one of the talkers. "Well," said Sopwith, "by means of

a pedal attachment, a fulcrumed lever converts a vertical reciprocating motion into circular movement. The principal part of the machine is a stone disc that rotates in a vertical plane. Power is applied through the avis of the disc, work is done on the periphery, and the hardest steel by mere impact may be reduced to any

"By George!" gasped his questioners in amazement, "And what do you call the bally thing?"

"A grindstone," grinned Sopwith, as he made for the door.

To keep the juice of deep pies from escaping, turn a cup upsice down in the centre, pliing the fruit around it
