After a short honeymoon Mr and Mrs Sharpin will reside at Pricerville, Ont.

Municipal Notice

Notice is hereby given that a Court will be held, pursuant to The Ontario Voters' Lists Act, by His Honor the Judge of the County Court of the County of Grey, at Council Room, Lot 11, Con. 5 on the 29th day of September, 1919, at 9:30 o'clock forenoon to hear and determine complaints of errors and omissions in the Voters' List of the Municipality of the Township of Glenelg for 1919.

Dated the 18th day of September, 1919.

J. S. Black,
Clerk of the Municipality of the Township of Glenelg

East Grey U. F. O.

The Hon. I. B. Lucas, sitting member for East Grey in the Provincial Parliament and Attorney General for the Province, is to have opposition, Lt.-Col. Carmichael of Collingwood township having been nominated by the United Farmers at a big convention in Rocklyn on Wednesday. Lt.-Col. Carmichael is one of the most prominent members of the Canadian Army in France and for conspicuous bravery not only won his commission and promotions, but is also the possessor of the D. S. O. with bar, and the Military Cross. He was twice wounded. The convention was a most enthusiastic one and the prospects for the candidate chosen defeating the present Attorney General appear to be bright. Lt.-Col. Carmichael was the unanimous choice of the convention, the others who were considered having withdrawn. These included such well known residents of the district as Geo H. Jolley, St Vincent; Robert Shaw, Ravenna; E. A. Shore, Collingwood; A. E. Cameron, Osprey; W. C. McComb, Holland, and E. Parkison, Ravenna, J. J. Morrison, Sec. for the U. F. O. was present, as was also Miss Grieg, secretary of the W. F. W. O., both of whom delivered addresses. The men nominated and Mrs Webster, Creemore, also delivered addresses. There was a very great deal of real enthusiasm over the prospect of electing the candidate and in spite of this being a long standing party constituency Mr Lucas had better get his ear to the ground. There are rumblings of revolt among the rural voters against the old order of things and as the constituency is very largely rural, a big change might very easily take place.—Ex.

Pricerville Presbyterians Hold Successful Re-opening

All roads led to Pricerville on Sunday and Monday last. The days were set apart as days of gratulation over the re-decorating of the church and this was the re-opening after several weeks shut out while work was in progress. Pastor Jones and people are proud of their new surroundings, and with reason, proud also of the loyal spirit shown by everyone in procuring and meeting the obligation.

Large congregations on Sunday listened with delight to Major (Rev.) Birch, of Toronto, whose staid form is still enclosed in khaki. He was originally a Western man from British Columbia, got into the war in its early stages, and spent two or three years in trench life, with its mud, and filth and danger, justifying his description "two or three years in hell."

His evening sermon was especially powerful and suggestive. He impressed the necessity of being an all round Christian. The ancient Greek, he said, developed along intellectual lines, the Romans on physical, the Jew on religious ideals. A blending of all three was necessary for the perfect man and the fourfold development of the great Saviour of mankind was pointed out. "Jesus grew in wisdom (intellectual) and stature (physical) and in favor with God (religious) and man (social)."

MONDAY EVENING

The church was again filled. As usual the basement tables were loaded with good things for the inner man and a delightful couple of hours were spent socially before entering on intellectual feast of the program. Rev. Mr Jones acted as chairman, and there was nothing lacking in his welcoming remarks at the opening nor in his thankful remarks at the close. He had a varied program blanked at opening and closing by the National Anthem. There were musical numbers by the Misses Walker who captured the audience and at each of their appearances were recalled, a solo by Mr Peter Ramage, who also was encored and a duet by Miss Burritt and Rev. Mr Conn, who were also brought back. A recitation by the chairman in the broken English of the French habitant, held the breathless attention of the audience by its humor and pathos.

Rev. Mr McCarten brought the greetings of the Methodist body and had congratulations for the Presbyterians on their new beautiful surroundings. Rev. Mr Conn, Markdale, also gave a brief address in a delightful free and easy platform manner. After some pleasantries, of which he is an adept, he spoke on "The contribution of the Christian church to the war." Not France, nor Britain, nor Canada, nor even the United States had won the war, but it was the staying power imparted by the church to her young and her best who had by great sacrifices kept the home fires burning. The victory could be traced back to the prayers and influence of the church. He had an earnest word as to the duty before all voters on 20th of October next, of marking their ballots for a continuance of the blessings under prohibition by putting a cross in the "No" column to all four questions.

Rev. Mr Jones gave a eulogy of Major Birch in introducing him, had known him ten years and what he did knew of him was all excellent. The Major had warm thanks for the opportunity given him of enjoying Pricerville hospitality and climate. He has a strong sense of humor, and got off some rich jokes in his opening remarks at the expense of Rev. Mr Conn's long hair. His topic dealt with the reconstruction period after the war, and he began by giving pictures of the forms of Camouflage he had seen in his "two years in hell," yet where he had met some of the best men he ever knew. He paid eloquent tribute to the heroes who considered not their own interests, nor the comforts of home, nor possibilities of wealth, but answered the call of duty. In most graphic language he pictured forms of camouflage: moving lights at night, great structures at night, mounds thrown up over night, great structures erected to look like guns, a battered and ruined home, apparently in ruins, yet was actually a bomb proof fortress, a few acres of green grass surrounded by a made-up hedge proved an underground hiding place for deadly cannon.

Referring to pre-war conditions he exclaimed "God forbid that Canada should ever be as it was before the war." Then everything was measured by money; an honest contractor who did a splendid job, but lost money on it because he would not slink his materials, was reckoned a failure. Even in church life we measured men by their money power, what they had rather than by what they did and he gave solemn warning that "The values upon life are being calculated anew." "It is blood and purpose that counted and men would not now be judged by their wealth or family connection.

The first to be decorated by the King was not a millionaire nor a University graduate, but a lumber jack from Parry Sound. He told with great pathos of a camp here, who was rough in language and appearance but who in the great test was true to the core.

The cause of war he declared had been the purpose of every class to accumulate. If gold was the standard of success the United States won the war, but the war stood for something higher and it is up to the churches to foster this new system of

measuring life. In the past we invited immigrants to Canada to share our wealth, &c. all camouflage, what we wanted from them was profit. We will not ask what are you worth, what stocks have you, what land you own, &c., but what kind of boys and girls are you raising for future citizens? and again he urged "Don't measure success by gold."

It was a fine address, illuminated here and there by personal allusions, and those who heard him will not soon forget this personality nor his theme.

Address to Mr. J. A. Graham

Following is the address (crowded out last week) presented to Mr. John A. Graham at the function of Sept. 10th. The gifts included an electric study lamp with artistic shade, a Swan self-filling fountain pen and a purse of money:

To Mr. John A. Graham:

Dear Friend,—

It was with very sincere regret we learned of your decision to sever your connection with this section, where for six years you have given us faithful service as teacher of our school. In these years we have learned to look upon you as a friend indeed, and associations have been formed in the minds of both pupils and parents, that will long be cherished. The school when you took charge was at a low ebb, but under your painstaking care and ability as a teacher its growth has been remarkable. While your examination successes were greatly to your credit, we value equally as much the impress of your character on the minds of all who came under your influence.

Kindly accept these gifts as a small token of our appreciation. While regretting to lose you, we are glad you are entering on a sphere of larger usefulness, and your many friends here will always be pleased to hear of your future successes. Besides you are still near by, and we hope there will be many occasions when we can have you with us again.

Again expressing appreciation and with best wishes to yourself, Mrs Graham and family for health and prosperity in the future, we close.

Signed on behalf of the Section,
Violet I. Noble,
Ada Middleton,
L. A. McLean.

Alcohol is Poison

Doctors Say It Is a Menace in Any and All Forms

FIVE ounces of alcohol will kill a full-grown healthy man within ten hours. Taken in smaller but repeated doses alcohol lets him live longer but gets him in the end. All alcoholic beverages are poison, slow or swift.

Medical science has established that alcohol is a poison and a narcotic chemically related to ether and chloroform, and not a stimulant. A man was once brought out of ether who had taken eight ounces, and a man was once brought out of chloroform who had taken 22½ ounces, but no man ever revived who swallowed five ounces of alcohol at a single dose. The unconsciousness or coma produced by alcohol if not broken within ten or twelve hours is followed by practically certain death.

Alcohol as medicine has been expelled from the American Pharmacopoeia by the American Medical Association.

2.51% Alcohol in Beer Makes it Poison

THE beer of the ballot contains 2.51% alcohol by weight—over twice as strong as the beer of the Ontario Temperance Act (2.50 Proof Spirits). The Beer of the Ballot is intoxicating. Three glasses of the Beer of the Ballot contains as much alcohol as a glass of whiskey.

When you are asked are you in favor of beer containing 2.51% alcohol by weight—in shops, bars, or anywhere else, vote

"No!"—Four Times—"No!"

Save yourself, save your family, save your country for the destiny God intended unhandicapped by "booze."

Be careful—mark your ballot after each question with an X under the column headed "No," or your vote will be lost to Temperance.
