The Germans may have perfectly good reasons for not being over-enthusiastic about the peace treaty, nevertheless the end of the war has "Now remember, I'm sending you left them in one respect at least better off than any of the Allied and associated nations. Germany is the only "And in talking this portable gar- country to-day where prices have gone down considerably in the last few months. There was no reduction in "Always pronounce garage the way the cost of living in England after the the prospective customer pronounces armistice; no reduction to speak of in the United States-in many instances. indeed, prices have advanced; in France everything is as expensive today as it was a year ago, if not more so, and in Italy it took a near-Bolshevistic revolt of the population to effect a fall in the price of necessaries. In Holland and Switzerland, as well as in the Scandinavian countries, the effect of the cessation of the restrictions on imports was counteracted by the increase in exports to the Central powers. Alone in Germany was the signing of peace followed by a general decrease in prices; the decrease is noticeable in almost all instances, considerable in some.

> The "Vossische Zeitung," of Berlin, has, in the course of July, published a survey of the cost of necessaries in Germany as compared with prices prevailing in other countries.

Prices in Other Lands.

A summary of the rise of living costs in Allied countries, as compiled by the Statistical Society of Berne, was printed, showing that the general level of prices has advanced since July, 1914:-

In Italy, 481 per cent. In France, 368 per cent.

In England, 240 per cent. In Canada, 215 per cent.

In the United States, 209 per cent. The report adds that in the first two years of the war the rise was comparatively small (in France 188 per cent., in Italy 210 per cent.) But the submarine warfare soon caused a skyward move of all prices. In England the rise of prices advanced from 160 per cent. in June, 1916, to 220 per cent in June, 1917.

Turning to the after-war tendency of price movement in neutral countries, the Berlin newspaper publishes the accounts of its correspondents in Rotterdam and Copenhagen. According to the testimony of the Rotterdam report, not only did the signing of peace fail to produce a general fall of prices in Holland, but in many instances it actually caused a rise. This was especially so in the case of vegetables and fruits, owing to the increased export to Germany. In regard to other articles the trend was generally downward and the illicit traffic in foodstuffs, which in Holland had flourished no less than in the belligerent countries and supplied a considerable portion of the needs of the more well-to-do classes, has disappeared from the scene. The only article still sold surreptitiously in Holland is sugar.

In Denmark, the Copenhagen correspondent of the Berlin newspaper says, prices are still high above peace level, but they are constantly going back, as far, at least, as foodstuffs are concerned. Thus non-rationed butter cost in Copenhagen about July 10 something like 10.40 marks (\$2.60) per pound, whereas in Berlin smuggled butter was bought at the rate of 20 marks a pound (\$5 pre-war exchange). The prices of textiles, clothing and shoes are still high above the pre-war level in Denmark

#### Remarkable Reductions.

In Germany the fall of prices in the last few months has been, in some instances, remarkable. In May linen goods in colored patterns cost in Berlin about \$3 a yard; in July it was about \$1.20. On July 2 a pound of coffee was \$5; the same on July 9 cost only \$3.25.

In Eisenach the price of American lard fell in a few days from \$6.25 to \$3.25 a pound; of ham and bacon, from \$7.50 to \$4.50 and \$3.75. As late as May it was almost im-

possible to buy leather shoes at any price, even though one possessed shoe tickets issued by the government. In the beginning of July the "Vossische-Zeitung" says shoes were displayed in abundance in the store windows. In Frankfort-on-Main soap (English

and French), which sold the first week of July for about \$5 a pound, was only \$3.75 on July 10 and abundant quantities were offered. English covert coat cloth, which in-June cost about \$20 a yard, was on July 10 reduced to \$7.

Friendship.

There's a sunset somewhere, gold and If I go on climbing, just ahead,

Past that boulder maybe, round the bend.

may find the sunset. What's a friend But a sunset seeker by your side? Just a happy comrade, true and tried. Finding sunsets isn't fun

When you do it one by one; But it's joy and sunny weather When you set out two together.

--- Mary Carolyn Davies.
