IN MEMORIAM
In proud and loving memory of Pte. C. Renwick son of Mr. and Mrs. Thos. Renwick, Egremont killed in France, 27th September, 1918.
"He saw not where his path should lead,
Nor sought a path to suit his will;
He saw a nation in her need,
He heard the cause of honor plead;
He heard the call, he gave it heed,
And now he sleeps in France."

A rumor is in circulation that I am not qualified to run as a Candidate in the pending election because I am an American citizen. This is petty politics. I was born and raised in Ontario, lived for a time in the United States, but never relinquished my British citizenship, and never intend to do so. Any statement to the contrary is utterly false.

Booze Costs Years of Life

Insurance Records Prove Moderate Drinking Increases Death-rate 35%

LIFE Insurance figures prove that the excess of deaths among moderate drinkers over abstainers runs from 11% to 74%. It is the business of Life Insurance Companies to know the risks a man takes when he uses liquor. These Insurance men have no theories to prove and no doctrine to preach. Their figures are as cold as ice, and they make you pay for the risks you run. To them it is simply business—a matter of dollars and cents. But to you it is a matter of life and death.

Actuarial Comparison of Death Records

Age	Total Abstainers	Moderate Drinkers	Excess Deaths Among Moderate Drinkers
20-30	4,221	4,617	11%
30-40	4,201	7,041	68%
40-50	4,246	10,861	74%
50-60	13,856	18,524	42%
60-70	29,678	34,568	19%

From tables prepared by R. H. Moore, Actuary of the United Kingdom Temperance and General Insurance Company, based on Records of over 60 years' experience.

Are You Willing to Die Before Your Time for Sake of Booze?

THE number of deaths among moderate drinkers averages 35% higher than among abstainers.

If you have habitually taken two glasses of whiskey per day or the alcoholic equivalent in beer, your chances of dying before your time are double those of total abstainers.

It has been costing total abstainers yearly millions of dollars in premiums to help to pay for excessive deaths among drinkers! Can we afford such waste of life and money in the face of the war losses of money and men?
