RURAL TELEPHONES IN SASKATCHEWAN

Rural telephone construction this year in the Province of Saskatchewan is stated by Mr. D. C. McNab to be slightly above normal, with conditions healthy and prospects bright. "While there have been years," said Mr. McNab, "in which more rapid development has been made, it is estimated that from 7,500 to 8,000 new telephone mileage will be completed this year."

The statement has frequently been heard that it is impossible to forecast the development in a city or town, and therefore not practical to plan comprehensively for its future growth. Unfortunately, places in this country have been unplanned from the beginning, and by treating additions and developments in piecemeal fashion, a chaotic growth has occurred, resulting in the above erroneous deduction. The leading cities in the United States have recognized the dangers and harmful consequences of unregulated expansion, and have been adopting regulations as to use, districts and building restrictions."—Saskatchewan Municipal Department.

JEWISH PALESTINE ASSURED UNDER A BRITISH MANDATE

Full Accord Reached Between Britain and France With Regard to the Disposition of Turkish Territory in Asia Minor.

Full accord has been reached between Great Britain and France with regard to the disposition of Turkish territory in Asia Minor. As a result of negotiations between General Allenby and the French mission, the status of a Jewish Palestine under a British mandate is assured, while France will have charge of Syria. This arrangement is by no means based on ethnical grounds, for the Turks form the majority of the population. But to leave the country in their control after peace is finally concluded would be to abandon the large minorities of Christians, Jews, Orthodox Greeks and Armenians to pillage and massacre. The powers have therefore decided to protect these minorities by the creation of new states. This is only a fitting punishment not only for the hideous outrages committed by the Turks during the war but for their centuries of misrule, cruelty and torture. Under the new dispensation Turkey will lose even more territory than the Austro-Hungarian empire.

That partition of Turkey was inevitable was fore-shadowed in the terms of the armistice, which demanded the surrender of all garrisons in Arabia and Mesopotamia to England. Northern Asia Minor and Armenia were allotted to Russia. But this was superseded by a declaration published in the Palestine News, the official journal of General Allenby's expedition, just before the armistice last November. In it the statement was made that France and Great Britain have in view the complete and final emancipation of peoples so long oppressed by the Turks and to establish national governments and administrations based on the free will of the people themselves.

MANY AMERICANS MOVING TO CANADA

38,222 Settlers Crossed the Border in the Last Eight Months.

A despatch from Ottawa says:—Immigration from the United States to Canada for the first eight months of 1919 shows an increase of 7,079, as compared with the figures for the same period last year.
From January 31st to August 31st this year 38,222 persons entered Canada as settlers from the States, of whom 17,818 were of the farming class, 11,009 being adult males, 3,308 adult females and 3,773 children under 14 years of age. During the same period in 1918, 12,663 persons of the farming class entered Canada, of whom 7,739 were adult males, 2,254 adult females, and 3,400 children under 14 years of age. The other 20,404, which added to the 17,818 persons of the farming class, make a total of 38,222 for the first eight months of this year, were made up of laborers, mechanics, miners, clerks, etc., with their families et al.
