National Fish Day A long article has reached us from the "Deputy Minister of the Naval Service," setting forth in great detail the value and importance of a fish diet. It is desired that every home, hotel, restaurant, etc., should observe the day, so as to encourage one of Canada's greatest natural resources. Fish are as nourishing as meat, cheaper, and the use of frozen fish is available at all times. Attention is also called to the excellence of canned fish. If the supplies of ocean fish could get past Toronto and other centres as at Co. Grey, it would tend to popularize the diet.

Orange Brethren Welcome Pte. Roy Lawrence To Bro. Private Roy Lawrence: From time to time it has been the solemn duty of our L. O. L. No. 1192 to bid a solemn farewell to some of its members who have gone forth to the call of King and Country to repel the attack of Tyranny on Liberty and Justice. About two years ago we were called upon to bid this farewell, praying for God's protection to be around you and wishing you a speedy and safe return to home and friends which we hoped rather than expected, which prayer he has graciously answered.

At that time we all realized the dangers and difficulties which confronted us, yet you were there to lay down your life if need be on the field of battle where so many had given their life blood for the protection of Home and Country. We well knew what a sacrifice it meant to you and your loved ones at home not knowing what a day might bring forth but through God's mercy you have been permitted to return.

We therefore take this opportunity to welcome you back to your home and to our Lodge and now that you are home be assured that we will be as loyal to you as you have been to us. If at any time we can be of service to you, we shall consider it our greatest privilege to serve you.

Signed on behalf of L. O. L. No. 1192, Robert McFadden, John McGirr.

The Remedy

Charles M. Schwab, the steel magnate, speaking in Chicago recently made the significant statement that all theoretical questions in regard to the cost of living would be set at rest when we get back to the practice of giving an honest day's work for an honest day's pay. It is unquestionably one of the great causes for high prices is just the lack of honesty that is world-wide. So long as we have strikes and lockouts and persistent demands for ever-shortened hours and ever increased wages throughout the world, there can be no real remedy found for the cost of living. It is not claimed that all these industrial disturbances are unwarranted. They are in many instances, at least, entirely justified, but there are many cases in which even these just di-

putes might easily wait. The need of production is imperative beyond anything else.
