

PRICEVILLE AND VICINITY

PRICEVILLE AND LIMITS

A large quantity of grain sown last week. Fine and cool for man and beast to work.

Roads are fine and dry. Automobiles more numerous than bugs. Some of the sick are better, others slowly improving.

Mrs Hepburn of Durham and Herbert Edge of Edge Hill were visitors at Wm. McLeod's lately.

Mr Gillen Boyd, Glenroaden, drove for the Top Cliff teacher, Miss Floyd last Friday. Miss Floyd's mother is a cousin of Mr Boyd.

Next Sunday is mother's day in the churches when all mothers are invited to come with their youngsters. We do not know when it will be fathers day for they are responsible for the training of their children as their mothers.

The funeral of Mrs McDougall was largely attended Tuesday last.

HOPEVILLE

Seeding operations are progressing favorably: many will finish this week. Mr Wm. Burnet and Miss Ina were in Forest and Durham last week.

Mrs Walter Thompson and babe Flesherston, spent last week at Mr. J. Schmidt's.

A number of our villagers attended the funeral of the late Goldie Robinson, Bethel, last Sunday. Our deepest sympathy is extended.

Mr E. E. Hookridge, Mr and Mrs M. Kinney, attended the funeral of the late Mrs Wm. Hookridge on Tuesday last at Cedarville.

The County Road Committee passed this way Thursday morning inspecting County Roads and other necessities.

Mr H. Love has added his name to the Gray-Dort list.

We are glad to report Miss Jessie Russell also Mr John Russell able to be out again.

Mr Thos. Speure, Jr., is sporting a new outfit, now the mud is over.

Mrs Hookridge was in the city last week, returning Thursday.

Mr and Mrs Archie Shand, Fairbairn spent Friday evening at the old home.

Rev. John Bell was called to the city two weeks ago, owing to the death of his mother-in-law.

Mr Angus Ferguson, Pense, Sask., was a welcome caller in our burg, early last week. We are glad to know his father's health is much improved.

Miss Gladys Ferguson spent the week end at Mrs Jas. Starrook's.

School Reports.

Harab-Davis FERTILIZERS

4-8-4 especially adapted for Potatoes and other Garden 5-12-0 for Corn. Truck

Read what Mr Haggood of Nottawa has to say for them: Ontario Fertilizers Limited, West Toronto, Ont.

Gentlemen: I used your 2-8-4 fertilizer on potatoes and it nearly doubled the yield and no small ones. I also used your 5-12-0 on corn and my corn was fully two feet higher than the unfertilized rows and had from two to three ears on every stalk, with twelve to eighteen rows of corn to the cob, which ripened in 90 days from the date of planting.

I would highly recommend the use of Harab-Davis fertilizer to anyone. I am using it on my grain crop this year.

Yours truly (Sgd.) H. Haggood

Nottawa, Ont. I OFFER \$5.00 for the best peck of Potatoes \$5.00 for the best stalk of Corn \$5.00 for the best Sunflower

All grown in ground fertilized with Harab-Davis Products For conditions of contest see

R. S. McGOWAN, Agent

Save the surface and you save all Paint's cost. — and this is the greatest surface saver of them all.

LOSS from paint-neglect is vastly greater than the cost of paint-protection. But it is to be noted also that the real cost of using ordinary paint—however cheap it may be—is vastly greater than that of painting with a pure and durable paint such as

B-H ENGLISH 70% Pure White Lead (Brandram's Genuine B.H.) 30% Pure White Zinc 100% Pure Paint

If you would avoid constant repainting—if you would have the paint that has maximum covering capacity, investigate the cause of the high reputation attained by B-H. You'll find that the favor in which it is held by so many experienced painters is due to a truly remarkable degree of purity—a purity attained by using such ingredients as the famous Brandram's Genuine B.H. White Lead—together with pure zinc and the purest linseed we know how to make in our own splendidly equipped mills. Your investigation will result in a trial of this brand—and that trial will make you a confirmed adherent of this paint that goes so far and that lasts so long. Its fine, smooth surface never cracks or peels—the tough, air-tight coat it gives affords the surest kind of surface-protection against time and weather.
