A Home-Made Paint. very substantial paint can be

made for the painting of barns and other buildings as follows: Slack one-half bushel of fresh lime with boiling water, covering it to keep

in the steam. Strain the liquid through a fine sieve and add seven pounds of fine salt, previously dissolved in warm water; three pounds of ground rice, boiled to a thin paste and stirred in boiling hot; one-half pound of boites gilders' whiting; one pound of white glue, which first soak in cold water until swollen up, then melt over a fire, avoiding burning it. Add five gallons of hot water to the mixture, stir well, and let stand a few days covered up, When ready to use the wash, make it boiling hot. A pint of this, minters will cover rear's a source said.
