The was a windower with one daughter, a mortar in which report of the ghost to the Kommando. The gypsies of the royal calendar. ventional silk hat. Society's tollettes are more elaborate than at any other function in England. The dressmakers of London make more fuss about Ascot than they do for the East. er promenade, and Ascot is a name. when applied to dress, which means chiffon, georgette, charmeuse, organ-

as was his father, King Edward. Remodelling the liner Aquitania, af- seldom bets, not because he thinks it ter her war service, employed 136 is morally wrong, but because he bejoiners, 30 painters, and 30 polishers. lieves it injures the sport. His Majesty When Caruso, the famous tenor, is believes in sport for sport's sake. He on the stage, his medical attendant is has brought up his children on that theory. In horseracing he believes During a thunderstorm the least the great sport is in breeding horses dangerous trees are birch, alder and that will be fast. It is more of an incherry. But all trees should be avoid- terest, so far as he is personally concerned, to improve the breed of horses Fair-haired people require more oxy- for which England is famous. To that gen and nourishment than do those end he takes a practical interest. He The chopping bowl and some of the the top of the handle so that they may with dark hair, and therefore are to owns a fair stable himself, and has a few horses of tolerable hoof, among

In this connection the King must be mentioned as probably the biggest farmer in England. His shorthorn cattle are famous, and he loves to spend hours looking about his farms at Windsor and Sandringham.

The King's devotion to things undertakes personally is a characteristic. For instance, as mon fisher he is excelled by few. goes stimon fishing in Scotland year and is rated with Lord Grey as an angler. The King as a pistol shot has only three peers in England, Englishmen say he is probably one of the best pistol shots in the world, Grouse and pheasant shooting is his favorite sport. He goes to Sandringham soon after the season opens in August and spends many days on his ranges there. He takes great care of the birds on his

Lens Produces Coal Again.

For the first time since the occupation of Lens by the Germans coal has been brought up to the surface from one of the mines, tays a ferent patch. Many of the mines are still flooded, but the pumping out contin ues. Engineers in chargesef the work express the opinion the tahe exploita tion of the upper workings of the mines will be recumed about the mid
