The Sensational Sale is On

H. Allingham's Whole Stock of High-grade Merchandise bought at a Low Rate on the Dollar

This Stock consists of

Dry Goods and Gents' Furnishings, Clothing, Groceries, Crockery, Boots & Shoes, Patent Medicines and Stationery

Never before has this Store entertained more pleased customers, because never has it been able to offer such variety of selections at such remarkably low prices. The urgent command that half this stock be converted into cash quickly has led to price smashing seldom equalled.

Without regard for costs or profits we are determined to carry out our desire and hundreds of satisfied customers testify to the thorough-going honesty of our efforts. Just a few days remain, and they will be filled with rushing business. They are days that bring golden chances to you. Come.

The Pins Knocked from under High Prices.

The Bargains are Here—the Values are Here.

It will pay you to put in a year's supply

When this Sale is over, the Greatest Dollar Saving Opportunity in Years will have passed. Don't Miss it.

If Economy is the Question, Sally Forth Here For Your Share in This Big Saving.

Bold Type Never Told of Greater Saving Chances

It will pay you to travel 50 or 100 miles to this sale—Such values are not likely to be repeated.

We will Blaze a Trail through the Tangled Meshes of High Prices

Be Here With the Crowd -- Be Here Every Day

We pay Cash or Trade for Butter and Eggs at Best Market Prices

FARM BUTTER AT FAIRS

Hints for Farmers' Wives With Dairy Exhibits.

Flavor in Butter of First Importance—Firmness Also a Strong Point—How to Cure and Pack in Best Condition for Showing.

(Contributed by Ontario Department of Agriculture, Toronto.)

"To show or not to show," that is the question many a woman thinks over as the time draws near for the holding of the annual fall fair.

There are some who would not miss the event, and make entries in many classes; while others are rather timid about exhibiting, especially if they are doing it for the first time.

Let us take the exhibiting of butter. Sometimes a woman goes home from the fair feeling rather hurt because some neighbor took more and higher prizes than she did. She thought that her butter was good, but the other must have been considered better by the one who was acting as judge.

There are times when a judge has to mark very closely to place the prizes.

Score cards are not used at all of our fairs, nor do all judges use the same score card, but the one proposed by the National Dairy Council reads as follows, as regards points awarded:

| | |
|---------------------------|-----|
| Flavor | 45 |
| Texture | 15 |
| Incorporation of moisture | 10 |
| Color | 10 |
| Salting | 10 |
| Packing | 10 |
| Total | 100 |

The flavor of the butter is a very important point to consider. It should be clean and sweet without taint of any kind.

An objectionable flavor, no matter how slight, would prevent one receiving a full score. Some defects in flavor are more serious than others, but many of these could be avoided by taking a little more care.

The care in the stable and in the separator room is just as important as the churning or the holding of the butter afterwards.

If a judge should find two lots of butter with the same total score he would give the higher place to the lot with the better flavor. The texture of the butter is another point that is taken into consideration. Butter should have good body—firm and waxy.

You have cut butter that looked good and remained firm on the plate, but you have also seen just the opposite to this—butter that had a greasy appearance, the drops of moisture large and milky, and it became soft when left in the plate for a short time.

The judge comes across just as great contrasts when going through the exhibits and he scores accordingly.

To secure good texture it is necessary to make use of suitable temperatures and to work the butter in the right way. Cool the cream immediately after separating and churn it at a temperature that will bring the butter in nice firm granules in 20 to 30 minutes. (Too high temperature means soft butter and greater loss in the buttermilk.)

The temperature of the wash water should be such that it will not make the butter too hard or too soft for working. Work the butter by pressing it carefully and evenly. A sliding or cutting motion will tend to make the butter greasy. Overworking should also be avoided. Butter is worked to make it compact and to distribute the salt and moisture evenly. When butter is cut the surface should be close and the drops of moisture should be clear and very minute.

The color of the butter should be even and bright. If the butter is not worked enough the color will be uneven, although this is not noticeable at the time of working.

If the butter is too soft, the salt should be mixed through it, and the butter placed where it will come to a proper firmness before working. By doing this it will score higher for both texture and color than it would if worked in the soft state. The salt in the butter should be evenly distributed and thoroughly dissolved. It is better to have the butter salted very lightly than to have it oversalted. The popular butter at the present time has mild clean flavor, close body and light salting.

The finish or packing should also be considered. In fact, the judge will notice the appearance of the exhibit before he has had time to draw out a plug of butter on his trier. Let the prints be well made—solid, even, with clear-cut corners and the papers wrapped neatly.

Butter tubs and boxes require a lining of parchment paper, and crocks should be in good condition, free from cracks or breaks in the glazing. The top of a large package should be smoothly finished and covered neatly with parchment paper.

Butter for exhibition should be made two days or more before the fair to give it time to become set. It should be kept in a clean cool place on the farm, and be brought to the fair in the best possible condition.

Butter made and cared for in this way will score higher than it would if made the morning of the fair, as is sometimes the case.

Do not feel discouraged if you do not secure the prizes that you hoped to win. Try again, remembering the little rhyme which says,

"Good, better, best, never let it rest, Till your good is better, and your better, best."

—Miss Belle Millar, O. A. College, Guelph.

Developing Canada's Wealth Of Natural Resources

MINING, lumbering, farming, stock-raising, fisheries—the fundamental industries on which all of Canada's varied activities of business are built—have received the practical co-operation of Bank of Montreal for more than a century.

IN 1920 our desire is as it was in 1817, to be helpful in every possible way in the development of every kind of Canadian business.

This co-operation extends through and beyond the large business enterprises to the men and the women who make those enterprises possible—to the miners, lumbermen, farmers, stock raisers, fishers, merchants, clerks, workers of every kind, to whom we are rendering an intimate, understanding, personal service through our Branches in every part of the Dominion.

Whatever your banking needs, consult our nearest Branch Manager and thus be in touch with our entire organization, which is working for the upbuilding of Canada.

Direct wire service maintained between Montreal, Toronto, Winnipeg, Vancouver, New York, Chicago and San Francisco.

Constipation Cured By Christian Science

Seventy five people out of one hundred can be cured by Christian Science methods, which proves the great power of the Mind over the Digestive Apparatus and the frequency of Nervousness as a cause of Constipation.

When these methods fail Hacking's Kidney and Liver Pills are recommended. They are purely vegetable and do not Grippe or irritate; many people have found them excellent for Headache, Dizziness, Bad Breath, Coated Tongue, Loss of Appetite, Indigestion, Gas on the Stomach, and many other evils that are due to Constipation.

Where there is Extreme Nervousness and you are "all run down" and "tired easily" it would be just as well to take Hacking's Heart and Nerve Remedy along with these Pills. This combination goes well together and restores the good health of your younger days. The Heart action becomes normal, the Nerves take on new Life, Power and Vigor and the "human machine" becomes full of "pep" and vitality.

If you are tired of sickness and have lost the Power, Ability and Nerve Force to do your daily work and your Nerves are all Shattered just give these two Remedies a trial and we will positively guarantee beneficial results. Go to your dealer to-day and ask for Hacking's, and do not take any other kind for if you do you will be fooled right at the start and you will not get the results that we guarantee. Hacking's Limited, Montreal.
