REALLY GOOD ARTICLE

Just think for a moment of the really good things you have ever bought—a motor car, a hat, a suit of clothes, a ring, a necktie. It is not one of the good ones you tire, but the poor ones, the "make-believe" kind. That is especially true of Victrolas. The Victrola always means quality, value and permanent satisfaction.

If You Have High Blood Pressure You Must Be Careful

HACKING'S HEART AND NERVE REMEDY

to dissolve the Uric Acid deposits that form in the Veins and Arteries, making them hard and brittle. This remedy is a wonder; it builds up the entire system by Purifying the Blood, Strengthening the Heart and by producing a normal and healthy condition of the Nerves. Mrs. Wm. Morley, of Palmerston, used quite a number of boxes of Hacking's Heart and Nerve Remedy and they benefited her so much and she was so pleased with them that she recommends them to all her friends who have this trouble or who are all run down and Nervous. She says "you must be sure to get Hacking's." Constipation is one of the aggravating causes of High Blood Pressure and it is advisable to use Hacking's Kidney and Liver Pills to drive out the Poisons that generate in the system. These two preparations go well together and you should buy a few boxes from your dealer to-day. Hacking's Limited, Listowel, Ont.

You will like Lantic fine!

FINE in granulation—finer than all other sweeteners in actual use—finest in results obtained. "Fine" has many meanings to the Lantic user! In snowy glistening crystals of pure cane sugar—all sugar and nothing else—Lantic brings you concentrated sweetening. And because each crystal is fine and even, Lantic dissolves at once—it instantly delivers its great sweetening power without hesitation. Of course it goes farther. Of course it costs less. Of course you will like it fine. In PRESERVING late fruits such as pears, plums and peaches, it eliminates the danger of over-cooking, which robs fruit of its natural color and shape, and some of its flavor. In BAKING, Lantic creams quickly with the butter—which makes the cake light and dainty. Creaming need not be tedious. In CANDY-MAKING fine granulation gives candy a soft velvety quality. Most of the highest grade chocolates and finer candies are made with Lantic. The exquisite "velours" of the best chocolate creams comes from Lantic fineness. In TEA or COFFEE, in fact in all beverages (hot or cold), every Lantic crystal dissolves at once, yielding readily the full sweetening of the purest cane.
