Laziness and Poverty.

If there were a hundred times as much wealth in the world as there is at present, and a hundred times as much foodstuffs, there would be poverty and hunger somewhere. People would still be starving somewhere because of the selfish, hoarding instinct of the so-called successful on the one hand and the thriftless methods of the lazy, indolent, ambitionless people on the other hand. In other words. greater production would not solve the poverty problem.

Someone has estimated that the farmers could raise wheat enough to supply to every family about ten barrels of flour. Each man also would have so many bushels of corn and potatoes, to say nothing of the amount of rice, buckwheat, and other things .- There is no need of anybody going hungry. The lack of thrift the habits of laziness and indolence, the unwillingness to work or to pay the price for attainment, are the causes of most of the poverty
