Edge Hill Lawa Party

The picnic of the Edge Hill U. F. O. club on Friday evening last was a decided success. The weather was ideal and the picnic was a most enjoyable one. The long array of parked cars, about 80 of them bearing this estimate out. The gate receipts were over \$90.00 at a 25c and 15c admission and the booth must have made as much more. The committee in charge deserve credit for the fine seating arrangements.

Mr. M. E. Murray of Ayton was the chairman of the meeting and was the right man in the right place. He made a pleasing opening address and at intervals in the evening had a word or two to say. Mr. Leeson M. P. P. had been called to Toronto and Miss McPhail who was announced was also unable to be present having been in Hamilton addressing the Wentworth Co. picnic with a crowd of over 5000. But Mr. A. A. Powers, President of the Co-operative Co. was there and made an exhaustive speech. He assailed Howard Ferguson for charging collusion between the Judges to ruin his character, asserted the lobbyist was on cause of corruption of legislation and legislators.

The point he stressed most was that farmers had neglected the economical side of their business, outlined vividly the working of the tariff and showed that the \$50000 spent in one day at one of the race tracks was not simply men with loose money, but if merchants, manufacturers, agents, etc., etc., paid for their goods, they must reimburse themselves by putting extra on the products that must be paid by the consumer, and the same thing could be said of the wealthy citizens in Toronto with liquor stored in their cellars.

It was an insult to farmers to be told they should advance political questions and study stock and farm. It was done to "stave us off from thinking that we the more easily might be exploited".

He stated his belief that a Farmer's government would be in charge of the Dominion's destinies after the next election, and proceeded at some length to illustrate the recently amended platform of the U. F. O. They were not free traders but wanted an all-round reduction in the tariff, 70 per cent of the creation of wealth comes from the soil so it is important that the industry that stirs the soil, should have legislative favors. Victory loan money, he charged, was not used to buy agricultural products, but manufactured articles. Durham had defeated the countries "to keep a line of credit with them," and until these nations, (some of whom cannot pay interest) repay the credit given them, the Canadian dollar will not be restored to its full value.

Mr. T. H. Binnie with great fluency claimed the U. F. O. was an industrial association pure and simple, every farmer though not U. F. O., benefited by its operations. He pointed out the injustice of Hydro prices for power in cities and rural districts and the only hope for equalization lay in strengthening the hands of Farmer governments.

Chairman Murray wanted it made clear that the U. F. O. was not merely an industrial organization but political and related at length the steps that had been taken to charter the party, making it a South Grey political unit. He announced that a Convention arranged for 26th October would elect permanent officials for this unit.

Duets were given by Misses Alox and Edith Edge, a trio by Mrs. T. Glenross and Misses Kate McPhail and Maggie Ritchie, a violin duet by Mrs. C. Howell and Miss Mary Smellie, a male quartette by the four Bell brothers, and all received generous applause. There was also an amusing recitation by Victor Williams, some band music by a weird set of performers, also a local choir, and last but not least a hoop drill by 12 young ladies.

God save the King closed the program and the large platform was soon occupied by the hosts of the crowd, the "light fantastic toe" till past the midnight hour.

Durham 16, Owen Sound 7

By winning from Owen Sound here last Thursday, Durham Intermediates fishermen's grip on the District leadership and they look good to finish without a loss. At the worst should they lose both games yet to be played—at Owen Sound Thursday and with Hanover here on Aug. 15th, they would still be on top but tied with Hanover. The team is already looking up their semi-final opponents and they will first meet Southampton, who are now district winners.

To the Sounders must be given credit for putting up a strong argument in the first half. They started right in, at fast strenuous lacrosse, netted the first goal and kept the home team fully occupied to secure any lead. At both quarter and half time the score was tied 2-2 and 6-6. It was not until the last half that the Durhams made their well-known team play effective, when the defence settled down and held the visitors to one lone goal, while the home was piling up ten more. The opposing defence made the mistake of paying too much attention to the visitors, while hard checks, gave the locals a good clean game. Waghorne of Toronto, refereed.

Won Snappy Game From Neustadt

Though the attendance was poor Durham and Neustadt ball team staged an interesting game here on Monday, Durham winning 5 to 1. The pitcher, weber, was the main work with Smith for Durham having the edge on his opponent only for an over throw, Neustadt would have been shut out. Weber after the first innings, tightened up and allowed only two runs. He had 12 strike-outs to Smith's 8.

Score by innings
Durham 2 0 0 1 1 0 0 5 5 9 4
Neustadt 0 0 0 1 0 0 0 1 4 7
Time 1 hour, 15 min.
Durham team lined up: Gloin, r. field; Nat Grierson, 2nd b.; H. Huggill, 1st b.; Jack Petty centre f.; Jack Hilt, c.; Smith D.; A. Lockie, left f.; L. Mountain, 3rd b.; D. C. Town, s.s. Umpire, F. Dennis.

Mt. Forest took Third Game

By a score of 11-7, Mt Forest Juniors captured the third ball game of the double scheduled series, at home on Civic Holiday. Durham had defeated them in the first two games by 6-5 and 9-4, and will endeavor to make it certain by taking the last game here on Thursday, as a Mt Forest victory would tie the teams.

The Fire Ranger and His Job

DOTTED over 100,000,000 acres of forest, 1,000 men, organized in the employ of the Government of Ontario, are, this summer, passing back and forth over the canoe routes and along the railways, watching out for the tell-tale smoke which is the sign of fire. Regardless of hot weather, black flies, mosquitoes, discomfort, loneliness or monotony, the Fire Ranger makes his rounds, preventing, quenching or fighting fires in Ontario's forests, paying his own living and traveling expenses, and receiving \$3.00 per day for his services.

Save Ontario's Forests They're Yours

The Ontario Fire Ranger, during the danger period of the dry summer, is constantly on patrol to catch fires while they are small. He cannot prevent them starting, as a rule. He is at the mercy of all types of carelessness. Thanks to his vigilance, however, two-thirds of the forest fires in the last four years did not spread beyond five acres and of these, half did not exceed one-quarter acre. Most of Ontario's Fire Rangers are northern woodsmen. Contrary to common belief, only five per cent. of them are students, and these are experienced Fire Rangers or returned soldiers. Rangers travel chiefly by canoe and in pairs over a definite "beat", the length of which varies according to the degree of danger from fires. Others travel up and down the forested railway sections on hand velocipedes, following trains to put out fires set by steam locomotives. In all, 2,100 miles of railroad are patrolled steadily all summer. Two men devote their whole time to examining locomotives to see that screens and ashpans will not permit the escape of sparks and live coals. In the clay belt, a large force of Rangers supervise settlers' fires in land-clearing operations. Don't blame the Fire Ranger if he asks you to be careful. Don't think he is too particular. He knows the risk. Ontario is poorer by untold millions of dollars through forest fires in the past. Help the Fire Ranger save the increasingly valuable forests that remain.
