### PRICEVILLE AND VICINITY

#### PRICEVILLE AND LIMITS

The first item in our last week's budget was mislaid by a misunderstanding on our part in stating that the Rev. Mr. Conn of Markdale, was to be the preacher last Sunday. It was a lady, Miss Manary, of Markdale, who gave an address on missionary work in foreign countries. However a crowded house was in attendance, whether with the expectation of hearing Mr. Conn or not they were not disappointed. We hope to hear Mr. Conn on some future occasion and will be more careful in our assurance that he is to be there.

Mr. John L. McDonald gave the preliminary services ably at Miss Manary's service last Sunday.

Mr. and Mrs. Mino of O. Sound, are visiting Mrs. Mino's brother's here, Messrs David and Arch B. McDonald. Mr. Mino left on the evening train, Monday, Aug 1, while Mrs. Mino will wait for another week seeing old friends and acquaintances of her youthful days.

Another heavy thunderstorm on Saturday night, the worst of the season and hail in some parts. Sunday was cooler and instead of puffing with the heat, overcasts were not too uncomfortable for motorists.

Arch. D. McKinnon, S. Glenelg, had his barn struck by lightning during the severe thunder storms of last week and escaped with the tearing down of some rafters and a corner post partly into slivers. Duncan and Geo Moore had two cows killed the same night by lightning and others report to have small damages done to their dwellings.

Mr. and Mrs. Hugh McPhail motored in Alex McEachern's car to see friends in Bruce Friday and Saturday of last week.

Haying done and harvesting is on this week. Hay was a good crop with many of the farmers. Mr. Dan Campbell, N. Line, has about 60 loads and others less than that number.

Mrs. McPherson, Toronto, is spending some of her holidays with friends on the

South Line, Glenelg, at present.  
We are pleased to hear that those having diphtheria down the Durham Road, Glenelg, are getting better.

Mrs. Graham of Priceville, spent a couple of days visiting with friends. Mr. and Mrs. Wm. McLeod of Top Cliff, during the past week.

Miss Flora McDougall and Miss McGill of Hamilton, are spending their holidays at Mr. D. J. McDougall's at present.

#### Old Boys and Girls Reunion

The Walkerton "old boys and girls reunion" held last week was a great success, a "monster" one says the Times. There were about 10000 present on their biggest day. From Saturday to Saturday they were full of varied functions. The churches on Sunday were filled with old timers, a private benefaction to the town of Cemetery Memorial gates by daughter and granddaughters of pioneers of Brant was formally presented to the Mayor. Another day a Soldier's Monument was unveiled containing 47 names of Walkerton boys who fell in the war. There were parades, ball games, fire works, a jazz band and a beautifully decorated town done by a Peterborough firm. The final show of the old timers in for much admiration, and much else that betokened a harmonious working town. Wonder could Durham not invite its old boys and girls for such a week and make preparations to show off the old time at its best? It has been on the map longer than Walkerton and many old timers would be glad of such an occasion to draw them all together.

#### Radical Changes in High School Courses

School Boards to Make Selection of Optional Subjects

The changes that have been made in the high school courses of study as a result of the study given the matters here by special committee on high school education have been announced by Hon. R. H. Grant, and are being communicated to school boards, principals and others affected. The changes are so important as to affect a revolution in high school education and to give the high and continuation schools an entirely new status in the educational system of the province. Briefly, the aim of the department has been to provide a five year course of training that will end in itself instead of a step either to university or Normal school work. Hitherto the training given in the schools has had either or both of these as an objective and the student who wished to round off his education by a high school course was obliged to take all the subjects required for university or Normal school matriculation. Under the new system matriculation is still provided for, but by the adoption of the optional system, applied to all but a few subjects the student can take the instruction he wants.

A feature of the plan is that the option lies with school boards to decide which of the optional courses will be provided, and this will permit the boards to arrange the courses in a way to meet the particular needs of the school or district.

Such a radical change necessarily involved a radical change in the examination system, and hereafter the student will be permitted to write on an examination in one or more subjects at the year end when he completes that subject. On obtaining 50 per cent of the marks assigned to that paper the student will be given a certificate of standing. It will not be necessary to get an aggregate percentage as in the past. The value of this change is that the student will not have to carry on in all the subjects in order to be ready for final examinations.

The courses of study have been divided into three sections: a lower school course of two years, a middle school course of two years, and an upper school course of a year.
