McEachern Cup Again Won by Orchard Team

Last Monday night Orchard football team captured the McEachern cup, emblematic of the championship of Egremont township, by taking the final game from Holstein by a 2-0 score.

The former play-off between these teams resulted in a 1-1 tie, but on this occasion Orchard scored a clean-cut victory and are to be congratulated on their football progress.

They now have won the cup two years in succession and should they repeat next year, the cup is theirs permanently.

It was a fine game throughout. Norman Dickson scored both goals, one in each half, after 10 and 5 min. play in each case. The line-up was:

NORTH EGREMONT

Miss Jean Henry of Toronto is having a pleasant holiday visiting her many relatives in Egremont and therabouts.

Mrs Wm. Brown has left for Saskatchewan, to be with her daughter, Mrs Morrison, who has been quite ill in a hospital there. When she regains her strength she will accompany her mother home on a visit.

Miss Fanny Axton is at present on a visit to her uncle, Mr Austin Hann.

Mr and Mrs Thos. Tucker and sister Mrs A. Chislet, were welcome visitors at the home of Mr. and Mrs. W. Ramsay Tuesday evening.

Sorry that the name of Mr. and Mrs. W. Weir were omitted from last week's items as welcome visitors at the mansion party referred to.

Harvesting operations has become quite general, sweet clover being generally cut, well loaded. Whether there is an auto or two in it is another question.

Mrs Peter Litster, nee Jean Renwick, contributed a solo at Amos Church on Sunday last, in fine form and voice, (a pleasant reminder of earlier days) which has lost none of its old time sweetness. She leaves Wednesday this week for her home at Vegreville, Alta.

What has come over that fine staid old gentleman from Pricerville, as to so far forget himself, to think that the first of August was the first of April and to send five dozens of respectable people to church on Sunday last to hear Rev Mr Conr. It is said "son" means together but it talked on this occasion as no services were held in Pricerville. We have a few trustworthy calendars left with fine pictures on them which can be had. However we met with some of Pricerville's many fine inhabitants, and renewed old acquaintances, so all well that ends well.

Mr and Mrs Thos Harrison Jr, Mrs Gordon Geddes, Miss Sarah and Wm Hooper, journeyed to Listowel on Sunday last to see the latter's father, Mr Abraham Hooper, South Glenside, who is undergoing treatment for some hip bone trouble with an osteopath. Latest reports are improvement which we hope will still continue.

Flaunting tongues were put on the big hill at Lawrence's Thursday last. A considerable sum of money has been expended on the hard proposition.

Story of Egremont's Early Days

This township is on the southern boundary of the County and is bounded on the north by Glenside, east by Proton, west by Normanby, all in County Grey and on the south by the Tp. of Arthur, in the County of Wellington. Geographically it is located in latitude 44 degrees north, in longitude 80 degrees, 40 min. west of Greenwich. Because of its great altitude, the climate, though severe in winter, is very bracing and healthy. Holstein, its principal village, is 1286 ft. above sea level, while at Egremont, in the north east, it is about 1880 feet. The township is in the main rolling a few hilly spots being found in the north west corner. It is well supplied with streams and springs, furnishing clear, health-giving water. The streams in general flow from east to west by south.

Egremont derives its name from a town in England, Co. of Cumberland, on the Eden River, 6 miles from Whitehaven. It has ruins of a massive Norman castle and one of England's sons is called 'Lord Egremont'. Because of its unequal sides and angles, Egremont might well be called a 'Trapezium'. Its western boundary is very irregular. Its greatest width from east to west is in a line with the 11th and 12th concessions to the long swamp on the Garafraza Rd. length about 9.6 miles. From north to south the distance is approximately 11 1/2 miles. As far as we can determine from the latest map published by the Department of the Interior, Egremont's boundary has only one right angle, that of the north west corner.

According to a report published by the Ontario Gov't in 1880, Egremont was first settled in 1840 and by the same report is said to contain 71,319 acres of land, but according to our assessment roll the number of acres is 72,562. Surely a growing time in this municipality! The assessed value of the Township is nearly two million dollars.

By reference to the same Gov't report the population in 1880 was 3760. It is now given in our Assessment Roll as being in 1921, 2477, a decrease in 40 yrs of 1303, a large decrease indeed. Many of our young men went to our western provinces, since the Gov't report of 1880 was published, many more left the farms to help fill up our ever increasing city and town populations, the lure of the city drew many of our young women, and all this with a falling birth rate, accounts for the decrease. As a proof of this large decrease between 1880 and 1921, the writer has made an enumeration of the population on one and one half miles, one of our concessions and finds that it is not quite fifty per cent of what it was then. This is very much to be regretted. It is not our purpose here to assign causes for this falling off of our population which is not confined to Egremont alone, but without doubt it should occupy the attention of our wisest statesmen. There is not enough help on the farms and production is not what it should be in this favored township, nor in the province generally.

At the time it was surveyed into lots for settlement it was, with the exception of a few small lakes and some heavy meadows, covered with a very heavy growth of timber. The dry land timber consisted of maple, birch, beech, basswood and hemlock and a goodly number of ironwood trees, some butternut and cherry and a very little oak. The wet lands or swamps were mostly covered with cedar, balsam, spruce and tamarac. As there was no sale for the timber, though of grand quality, it had to be burned to get the land ready for the crop. Cutting down the trees was done in a regular way, the logs being piled in the trunk cut into lengths to be ready when a slack time came in summer to be 'logged' - i. e., drawn together by oxen, rolled and hauled by four men with handspikes into heaps, and Lane for \$1.00 per rd., also repairing railings along the ditch at a cost of \$9.00, also placing tile \$4.00.
