HOLSTEIN LEADER

LOCAL AND PERSONAL

Mr E. Ross is spending his holidays in Holstein and Arthur.

Mr Cass of Toronto, visited his sister here last week.

Mr John Saell of Durham, occupied the pulpit in the Presbyterian church Sunday.

Mrs Geddes is visiting friends in Toronto this week.

Miss Lena Allan, Stratford, is visiting her brother David and other friends.

Mr and Mrs Fenton and Clarence, visited in Allanford the first of the week.

Miss Blanche Matthews, Durham, visited Miss E. M. Dingswall and other friends one day recently.

Mr and Mrs H. Keith and children left on Saturday p. m. for Toronto, leaving there Monday evening for Regina.

Mrs Fenton, after spending a few days in Detroit, returned home Monday.

Master Alex Sim while playing around others where some work was being done at the school, cut his foot by running against a cross cut saw on Monday afternoon.

The fence is being built around the monument which is going to look good when finished.

Mr Reid after spending three weeks at Ottawa with his mother, resumed his position in the Bank Monday.

Rev and Mrs Marshall and family of Milton, formerly of Holstein, paid a flying visit to a few friends this week.

Mr and Mrs Mortimer Tupling and children of Orillia, accompanied by her sister, Mrs Schofield, California, visited their cousin, Mr J. D. Roberts last week.

Miss Snyder, teacher for our Continuation class has arrived and will commence her duties on Thursday.

Mr Colin McKinnon has returned after spending a month in Guelph, comforting his sister, Miss Margaret, who passed away on Aug. 22nd, after a lingering illness of several months' duration. Mr McKinnon's many friends express sincere sympathy to him in his bereavement.

BORN

Nelson-In Egremont, on Aug. 25, to Mr and Mrs. W. J. Nelson, a daughter.

Crop Report

The Bank of Montreal issues from time to time a valuable report of crop conditions throughout the Dominion. The following is the report for the Province of Ontario issued 25 August.

Harvesting is about complete. Reports are conflicting as to yield of grains. While some Districts report good returns, in most cases grain is reported to be threshing out much lighter than had been expected, and quality also is below anticipations. Corn is doing well and promises to be the most satisfactory average of the season. Root crops and pastures have improved where rain has fallen. Potatoes generally are disappointing. Peaches are light, pears good, apples a poor crop on the whole. Second growth of hay is showing to advantage.

In Quebec cereal crop is light about 65 per cent of average. Potatoes light. In Maritime provinces cereals below average. Potatoes and apples a fair yield. In British Columbia grain is a good average crop, apples and pears above the average. In Alberta returns after threshing are disappointing; Saskatchewan wheat yield 20 to 30 bushels; Manitoba 15 bushels. Plenty of feed in Southern districts, others short. Oat crop promises a good yield in all the west. Threshing half done in most places.

NORTH EGREMONT

There visited at the home of Mr. and Mrs W. W. Ramage at the week end, Mr Chas Thompson, an old Niagara friend and one of the County Capital's capable Aldermen, together with his amiable wife and daughter Jean. The latter recently passed with first class honors the examination at the musical Academy and now possesses a degree each for vocal and instrumental music. There was much pleasure derived in listening and also in congratulating our young friend upon her success. Mr and Mrs Geo. Thompson and niece, Miss Lornea Thompson, were also of the party. A pleasant time was had and were honored and delighted by their visit.

Mr Roy Lawrence's new threshing engine is giving grand satisfaction—more power with less water and wood required than the old one. A saw is also mounted on the engine with which to cut poles or old rails for its own use. The self feeder is also a new departure, light, and with many improvements over old makes.

Mrs Acheson and Mrs Houston left on Tuesday for their homes in Ottawa and Toronto respectively, after spending several weeks' holidays at the old homestead with the Messrs Samuel Patterson Senior and Junior and Mrs. Patterson.

While regretting the severance of the pleasant ties existing between Amos and Knox, Normandy, and not wishing at the same time to do anything to impair their financial or any other situation, the people of Amos concurred in the scheme of an operation with other churches as promulgated by the Presbytery, though not unanimously.

Misses Agnes Petty and Janet E. Livingstone, old time teachers of No. 18, visited over the week end a week ago at the home of Mr and Mrs Jas. M. Allan.

Formed Shorthorn Breeders Association. Grey Co. has over 300 Breeders of this Famous Breed. Grey County Shorthorn Breeders recently formed a Grey County Shorthorn Breeders Association. The following are the officers:

President, F. J. Curry, Markdale; 1st Vice Pres., Geo. Milson, Chatsworth; 2nd Vice Pres., O. Batty, Meaford; 3rd Vice Pres., W. J. Bowes, Markdale; Sec'y Treas., T. Stewart Cooper, Markdale; Directors: Thos Mercer, Markdale; Nelson Perdue, Chatsworth; J. J. Buchanan, Clarksburg; Mr Blythe, Holstein; J. J. Patterson, Blantyre; R. J. Doyle, O. Sound.

Professor Geo. E. Day, Sec'y of the Dominion Shorthorn Breeders Ass'n, held a series of meetings in the County. The Breeders were very much delighted and under the Secretary's direction formed the Grey County Shorthorn Breeders Association. Over 300 farmers of this famous breed, farm in Grey. A sale of forty top-notch, fashionably bred Scotch and Scotch-topped Heifers will be held Oct. 13th at Markdale. This is the day following Markdale Agricultural Society's Fall Fair.

For Sale—Carload of salt. Beggs' store

Those wishing to buy monuments, or have inscriptions cut on monuments now erected, should see me at once, as I have a cutter coming in the near future.

Hemstitching and Picoting Attachment fits any sewing machine, price \$2.50. Personal checks 10 cts extra. Bridgman Sales Agency, Box 42, St. Catharines, Ontario.

THE POOL SEASON—The Pool Season lasts for 12 months of every year. In the fall the fool who "didn't know it was loaded" occupies the spotlight. In the winter the one who starts the fire with the coal oil can, is not yet extinct, even if the person who looks for a gas leak with a lighted match runs him a close race for a place in the obituary column. But in the summer time the fool who experiments with a canoe leads all the rest. His season is just past. Of course the man who rocks the boat is a full brother. You'll find both of them in the news column and in the morgue almost daily. Moral: don't be a fool.

The Western Fair

Sept. 10th to 17th

The Exhibition grounds at London is becoming a busy place in preparation for the Exhibition in September. A large amount of work is to be done to be in readiness for the big event. A portion of the cattle barn will be moved to the new grounds purchased last year. The sheep and swine pens will also be moved and the storage building will be placed out of the way. This will allow very much more room for outside exhibits, such as tractors, threshing machines and other farm implements. If space is required application should be made at once as there is very little left. All information given on application to the Secretary, A. M. Hunt, General Offices, London, Ont.

Ontario Old and New

Under the above caption in the New Liskeard Speaker, Mr Angus McKelvie, an old Egremont boy, and well known in Durham pours hotshot into governments past, and present with an especial bomb for the profiteer. The article will be found readable for Angus knows what he is talking about—none better.

"In every epoch of the world's history changes have been going on continually. There has been no such thing as standing still. But at no time and in no place have changes, more in number, of a more startling character, and having more serious results occurred than what we have seen in our own Province of Ontario. Very many of these changes are not for the better. The parents have lost much of their authority in the home. The Church has lost much of its power in the community. Law and Order is not obeyed nor respected as formerly. Crime is on the increase. The City Daily Journals are regarded with utter contempt. Our educational institutions are deteriorating and our rural population is declining. "Princes and Lords may flourish or may fade, A breath can make them as a breath hath made, But a bold peasantry their country's pride, Whed once destroyed can never be supplied."

The changes which we have experienced are the result of many causes, so many that I have neither the space nor the inclination to go into here. I mention only one (our Provincial government). Some people think our Government is about as good as another. They say it is only a matter of one party being out and another in. I am far from accepting that view. On the contrary I believe that many of our troubles can be properly laid at the door of our various administrations.

During the first years of the century we were governed by a Party that had been in power far too long. It certainly was time for a change. But with the change came a new and unforeseen calamity from which to-day we are suffering. The City of Toronto with its extraordinary selfishness and cupidity, found for the first time a Government within her boundaries with which she was all powerful. From that time there went on a centralization and concentration of all our institutions and a building up of City sentiment. As a result the history of the smaller Cities and Towns and the rural life of the Province has been one unbroken tragedy.

Even a new district like Temiskaming, has reflected the life and sentiment of Old Ontario. Fifteen years ago all the Government required to do was to have a surveyor put in a few pegs in a piece of land, then give it a name and call it a Township. ZIP! One hundred, two hundred, four, five hundred a lot—fifty, one hundred, two hundred thousand for a fraction of a Toronto dollar.

But Ontario, not satisfied with this went further. It passed an edict that no man could survey a piece of his own land into town lots—at least he could not register such until he had first made a present to the Crown of one quarter of all the lots surveyed. Not even content with that, the Province passed another law forbidding any person settling on the lot or the lot adjacent to that which he could not get a map to accept as a present, any townsite in Northern Ontario. The Province was absolutely merciless, and as a result one of our great resources is now of no value at all as a revenue getter.

Let us look at another of our resources (the lumber industry). Have you ever seen a load of lumber in New Ontario? If you have you may be fairly sure that the Government of Ontario has been paid twice for that lumber. The Province sold the timber, Ontario got the money and spent it. After some time the Province got hard up. There was a come back. A tax of one dollar a thousand, called "Stumpage Tax," was put on the lumbermen. After another lapse of time the Province got harder up than ever. Then the Government came back again and put on another additional tax of one dollar upon every thousand feet manufactured by the lumbermen. Surely the industry that has paid already twice for the raw material should be left alone. If any one has short changed the Province let him be made to pay the uttermost farthing, but to talk of more taxes on lumber, an industry that can hardly now compete with the imported product, seems to be sheer folly. Ontario must prepare for a steady decline in revenue from forest products.

Next let us look at the Mining industry. This stands alone owing to the fact that the market price of its products cannot be increased. The market values are universal. Everything that increases the cost hurts the industry and decreases the output. Bigger wages, shorter hours, lack of efficiency, taxes, all have the effect of curtailing and destroying the industry. There is probably no other avocation on God's green earth—not even lumbering—that is so heavily taxed to-day as mining. During last session of the Legislature, in answer to a question, the information was given out that from Temiskaming alone over eleven millions were paid into the Ontario Treasury for mining lands, rents and royalties. This did not include licenses, registration fees, tremendous amount for Company organization and Federal taxes. As a matter of fact about fourteen millions have been paid in fifteen years. The industry has employed on an average about three thousand men. Doesn't that mean that one dollar of a man's earnings goes every day to pay the burdens imposed upon them by our Governments in mining taxes alone? Will the Province kill the goose that laid the fourteen million dollar egg? We are alarmed when we hear people in high authority in the Farmers' Party not only advocating a commutation of the folly practised by the other parties, with regards to mines and forests, but to actually increase the burdens. Sure it is time for thoughtful people to ask "Where do we go from here?"

Now that the revenues from lands has gone, the revenues from horses has followed in its wake. Northern Ontario is no longer so easily exploited. The revenue from timber and minerals must decrease. Where, oh where, shall we look to meet the demand of a depleted Treasury? Expenditure has been running amok. One sole institution comes demanding of us four and one-half millions per year for maintenance. What can we do? Must the Province go broke and go into liquidation? Looking over the whole field there is but one great resource left. We are informed that some favored people have made in profits some fifty millions from Ontario's waterpowers. As yet the Province has not received one cent. But what say the big interests of Toronto? They say—we have nearly all the money.—We have practically all the loyalty.—We have cornered education.—We are leaders in morals.—The Lord likes us.—We will do our duty in everything.—But by all that is good and holy—WE WILL NOT PAY TAXES.—Leave that for the miner and the lumberman. As one evening paper puts it: Let those who have paid no taxes continue to do so. To pay made fifty millions. It might make us compare unfavorably with "private" owned powers in Quebec, but the undeveloped powers (Northern Ontario, of course) SOAK THEM.—A. A. McKelvie

Everybody Enjoys a fine cup of Tea.

"SALADA" TEA

IF YOU DRINK JAPANS TRY "SALADA" GREEN TEA. Infinitely Superior to the Best of Japans.

is truly delicious at all times. 30 years' reputation for fine teas.

It's Too Much Money

The Hydro lawyers charged \$36,000 and \$32,000 for their services. Some day a law will be passed in this country regulating the fees of lawyers, doctors and other professional men. Why should a lawyer be allowed to send in a bill for \$32,000 and \$36,000 for "services rendered"? They should be made to itemize every part of their account and to justify their bills.—Farmers' Sun.
