It is a national hunger that the world has to deal with in Russia. All Russia has for years been on the verge

of the starvation that has come in the Volga regions, that has reached down into the Ukraine, over toward Asia and threatens even the heart of Great. Russia. Winter is now creeping down upon

Russia from the wastes of the Arctic. It will envelop a nation, enfeebled by years of hunger, stoically facing a famine, the like of which has never been known in famine annals. The Russian peasant is dying on the march, his fields unplowed, forgotten and unseeded behind him. If the winter of 1921-22 is to be the worst winter in Russia, then what will the winter of 1922-23 be like?

Waste from coal mines will utilized in power production, briquet and concrete manufacture and the distribution of by-products by a com-pany formed at Nottingham, England.
