Made Public India's Demand That Turkey be Raised to Status of World Power.

A despatch from London says:-Publication of the Indian Government's demand that Turkey be raised to the status of a world power to ap-, pease Moslems in India led to the resignation of E. S. Montagu, Secretary of State for India. He had given his consent to the publication of the Indian Government's telegram without consulting the Cabinet, Austen Chamberlain, Coalition Leader in the House of Commons, announced.

Mr. Chamberlain explained, in answer to a question about the Indian situation from a member, that the Government feit it could not accept responsibility for the unauthorized

Just what effect this will have on pices of the Arts and Crafts Guild of the position of the Viceroy of India, that city. Earl Reading, is not yet clear. There were reports that he might resign, but this idea was scouted in the best informed quarters, as the Government is not now desirous of changing.

The effect in India itself of the Indian Government's far-reaching concessions to the Turks, and their repudiation by the British Government, number of the alumni and friends of will, it is stated, serve to intensify the Moslem agitation,

In high quarters here the correspondent was informed the Indian Government is really asking the country to to organizations throughout the provider at the palace entrances before approve a policy which would transform Turkey from a defeated enemy into a sort of preferential ally. It has no intention of adopting a policy to
topics of literary, historical, and second to regulate the impatient the status of a world power.

#### **Auxiliary Starting Engine** for Airplanes.

Anyone who has seen a large airplane engine started by turning the propeller by hand knows what a strenuous and dangerous task this is. To make this dangerous practice unnecessary, the auxiliary starting engine has been developed. It consists of a single-cylinder air-cooled engine mounted on the same shaft with a pump. The pump draws a rich mixture from the auxiliary carburetor and forces it under pressure to the proper cylinder of the main engine, through a distributor which is geared to the main-engine shaft.

#### Historic Sites Marked by Memorial Stones

A despatch from Three Rivers, Que., says:-Next summer, at a date not yet mentioned, the Historic Sites' Committee will erect a memorial stone on the St. Louis Hill to commemorate the battle of 1775 between the English soldiers and the American invaders, who were defeated here.

Another memorial stone will be erected at Les Visilles Forges, the oldest village in the St. Maurice Valley district.
