Clark countries, certainly the first four A. McPhee, S Stevenson, Emil Schnamed, enforce rigid inspection of rieber, Geo. Pieffer, H. Braun, Henry

products for export. Why? Because grading is the basis of enlargement of markets. Consumers demand the very best of all products, their likes and dislikes are varied, and we must meet these demands. For many years we have tried to make the Englishman eat the sort of bacon we thought he should eat; but he won't. He prefers Danish bacon because the Dane sells him the sort he wants, properly graded, to meet all his requirements. Or take apples: A short time ago a certain gentleman from market for Ontario apples through consumer owned co-operative stores in Great Britain. What was the answer? "Just as soon as you get an organization from which we No. 2's, graded and packed in such a manner that we can depend upon the quality year in and year out, we will talk business, but until then we
