of it. The Lord God of Abraham, case do not try to live your life withyears. This would give say four rows one hundred feet long. These four rows one hundred feet long and taking up a rod in width will supply any family with berries and give plenty.

With regard to varieties, the beginner is likely to try too many. There are many on the market but really only a few that are standard, that is, of commercial importance. It would be to the advantage of the grower of a small patch to have one variety only. In this way plants from the bed can be used year after year without "running out." The Williams, Glen Mary, and Dunlop are all excellent varieties for the home garden and for commercial purposes as well.

The Greatest Discovery. The philosopher's stone which chen ists and phiosophers for centuries puzzled their brains to discover-and the of the world for ages, which men have sorts of things, is beginning to find the that every man carries his own para-
