Body of Richard Ellis Found in Creek

A lamentable occurrence took place in Egremont last week. One Richard Ellis disappeared and the community was shocked when his body was found a few days ago in a creek on the 16th Con. How he fell in is a mystery, it might have been suicide but indications are that it was a sudden heart collapse. Some valuable papers were found in his pockets.

A correspondent sends the following particulars ; The late Mr Ellis had been missing

from the vicinity for about a montu but this was little thought of as it is said he frequently absented himself for days at previous times. The last seen of him was when he accompanied a neighbour to Mount Forest. Before going home the latter made a diligent search for his companion but was unable to get any trace of him. His friends believed he was visiting relatives near Guelph but as he did not show up they became alarmed. The mystery of his disappearance was found on Saturday when Mr Alex Aitken, with whom Recleaned Screenings \$22.00 per ton; Corn No 2 Kellow \$31.00 per ton. Holstein Mill,
