A Portrait.

His eyes can be quite old and stern. But I have often watched them yearn Over an animal in pain; And I have seen him through the rain Carry young lambs into the fold. If a September night turns cold He leaves his sleep, and in the gloom Covers the bushes that might bloom. I know that when his eyes grow dim The first young bud will shout to him; For in the spring I see him kneel Upon the rigid earth, and feel With gentle hand among the leaves. No glistening rim of frost deceives His instinct for arbutus flowers. He sings, during his working hours, In a young voice a rousing song. And sweeps the lagging work along. To the delighted earth he brings Abounding love of living things.
