Old Theories That Have Been Killed by Modern Thought.

Ignorance often develops into a belief, and belief in turn becomes a custom. One of the best examples of this is the placing of the engagement-ring on the third finger.

Another equally curious belief is that, should a person cut himself in the space between the first finger and thumb, he is more likely to get yock-jaw.

A common belief exists that our bodies undergo complete change once in seven years. As to why seven years nobody knows, but many people have that firm conviction.

Actually the human body is undergoing change the whole time. In moving an eyelid, even some of the tissue or muscle is literally being burnt up...

In this way it will be seen that different peoples' bodies are completely renewed in different periods of time, those in hot countries, or leading a strenuous life, being completely renewed in the shortest time.

"What's the matter, Jane?" "I've just been calling on Mrs. Peters. You know her husband, Marshall?"

"Yes." "Well, I just learned to-day that Marshall is not his title at all. Marshall is his first name."

"Nothing," said Mrs. Garker, with a groan, "only I've been calling him Marshall every time I've met him for months and months!"

Rheumatism And Dyspepsia Are Soon Ended

Victims of stomach trouble and rheumatism often find that when their stomach is set in order, the rheumatism disappears.

"My digestion got so bad I would bloat all up and I suffered from constipation and biliousness, splitting headaches and dizzy spells. I had rheumatism in my joints and often just ached all over. I never have an ache or pain of any kind since taking Tanlac and never felt better in my life."

Rural Route No. 1, Mascouche, Quebec. The Minard's Liniment is doing a wrong if I neglected to write you. I have had four tumors removed by a surgeon about fifteen years ago but they grew again till about three months ago I had one as large and shaped like a lady's thumb on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me.

It kept for exactly two months, matter. It has entirely disappeared with the result that I have not had a recurrence of the tumor, and severe it not that it has been cut off fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON. Minard's Liniment on a mare for a strained tendon, and am hoping for some results. FRED C. R.

Surnames and Their Origin

FOX Variations—Sinnock, Sinnoch, Seeny, Reynard, Reynardson. Racial Origin—Irish. Source—A nickname.

MAY Variations—Maye, Meith. Racial Origin—Irish. Source—A sobriquet.

FOX This is not the same family name as the Fox which comes from the Anglo-Norman source in the given name of "Fulke" or "Fulque."

MAY If your name is May, and you are fat, it is quite appropriate in the historical sense, for if your name traces back to Ireland it is likely that you inherit a tendency toward corpulence.

FOX This article is not written to disparage the work of the singer. Rather is it a plea for a higher appreciation of the art of accompanying. And good news knows, with a dearth of accompanists as there is to-day, we need to encourage the art in every possible way.

MAY "Now, Willie," said the teacher of the juvenile history class, "you remember who won the Battle of Waterloo?"

Gum of Sudan.

From far off Sudan comes one of our most useful commodities. The adhesive gum that sticks our stamps to our letters and which is used for so many other purposes, can be traced from our desk straight back to the bank of the crocodile infested Nile, with its overhanging palm trees and its myriad herds of chattering monkeys.
