**Happy Thought Ranges Make Happy Homes**

You—the woman with a family—know what it means to have a range that is so easy to regulate, that is a good cooker and a dependable baker. There is no single fixture in your entire house that is as important as your range.

Happy Thought Pipe Furnaces defy winter in any part of the home. Happy Thought Stoves have stood the test of years in Canadian homes.

Every woman who does her own cooking knows what it means to have even heat and plenty of room in the oven. She realizes what a large cooking surface means and the benefits of regulators and little labor-saving attachments. Three hundred thousand Canadian women know the dependability of Happy Thought ranges from actual every-day experience. They have found them consistent and satisfactory, economical in fuel and easy to operate. Ask any of these happy women about these ranges.

### Scores Hydro Apologist

The Owen Sound Sun Times publishes in full the attempted defence of J. E. Middleton of Hydro Power rates, which he tries to make out as low as the Niagara System. The attempt, says the paper, is to belittle the complaints of the Eugenia Power Association before the Gregory Commission.

The article is written by J. E. Middleton, formerly of the Toronto News but now apparently in the propaganda department of the Hydro Electric Power Commission of Ontario. Mr. Middleton starts off on a wrong hypothesis at the start. In the municipalities do not complain so much that their rates are "uncommonly high" as that they are needlessly and unnecessarily high. They complain that the capital cost of the Eugenia system was doubled at the time when the demand was slacking, that the additions made to the plant cost out of all proportion to the original plant and did not increase the 24 hour power service. They complain that the Provincial Commission spent money lavishly without even consulting with or informing the municipalities who have to pay. They complain that letters are not answered with any degree of promptness, that rates are arbitrarily set, that operating costs are high, that inspection methods are foolish and wasteful and that a better system for repairs be put into force. They complained to the Gregory commission renewal and replacement charges.

Mr. Middleton does not mention any of these in his article. He takes four municipalities on the Eugenia system and compares them with the four municipalities on the Niagara system. For instance he takes Tara, about 40 miles from its source of power at Eugenia, and compares rates with those in force at Wyoming, about 200 miles from Niagara. The power rate in Tara is two thirds that at Wyoming, and the former shows a loss of \$127 while the latter shows a surplus of \$423, with practically the same number of users. But Mr. Middleton does not state the amount of power consumed in either municipality and that is what the price is based on, not the number of services installed.

Mr. Middleton's article is interesting, not from the information it gives but from what he does not say in answer to the complaints made by the whole Eugenia Association before the Gregory Commission. Middleton must know what these complaints were or he would not be attempting to cover them over by bringing in something in the matter of comparative tables that were not discussed. There is another matter that Mr. Middleton brings in that there was no complaint made of to the Gregory Commission. That is his figures as to rates. He does not quote the price of power to the municipality from the Eugenia system. That comparison might work out a little differently to those of the municipality to the actual consumers.

Taken altogether Mr. Middleton has made out a very poor case for the Provincial Commission. He ignored the actual complaints and set up a little complaint of his own and builded even then a poor defence.

## Grateful for Car Sent to Fire Sufferers

From the Northern Ontario Relief Commission, at New Liskeard, Mr. Robt. Brigham, Allan Park, has received the following letter of thanks for the carload of supplies donated, and shipped from Allan Park station on Friday, Oct. 27th.

The Committee desire to acknowledge with thanks the receipt of your valued favor of the 28th Oct., advising the shipment of car No. 260992, containing apples, potatoes, flour, oatmeal, peas and clothing, by some of the people in the vicinity of Allan Park, whose names are given in your letter. We can assure you the need is very great. There were 1500 homes destroyed and between 8000 and 10,000 people homeless, practically all of whom lost everything, except their clothes they stood in. Will you kindly assure the people who donated the goods in this car that they will be applied to the best advantage of the sufferers and on their behalf the committee desires to thank you sincerely for your kindness and generosity.

Regarding the post script of your letter, we can only say the reports to which you refer, must originate from people who do not wish to assist in relief work.

## ABERDEEN

(From an old correspondent)  
On Friday last Mr. Alex. Morton finished work on the new barn for Mr. Hugh McDonald. Just a month from the day that the barn was taken down on the Henderson farm at Crawford, it was raised on the farm of Mr. Hugh McDonald. With willing hands and favorable weather the work was accomplished, none working harder or more willing than Mr. Jas. McDonald, our young man of seventy four years, who even did his share of shingling on the high roof. We wish them the best of luck with their new barn and hope each succeeding year will see it filled to capacity.

Mr. and Mrs. T. Wallace of Normandy, spent a Sunday recently with Mr. and Mrs. Dougald Clark.  
Mr. and Mrs. D. Smelle, their son Cameron and daughter Miss Margaret of Glenelg, spent the first of the week with Mr. and Mrs. Don Stewart.

Mr. Jack Smith of Durham, spent Thanksgiving at his home here.

## HAMPDEN

A very successful and pleasant Halloween party was held at Mr. J. Sharp's last Tuesday evening. Everything was passing off as planned, until some spoofs who had been left out in the cold, were playing pranks on the buggies and autos that had gathered earlier in the evening. We do not know that anyone was obliged to walk home, but some didn't get their buggy till later in the week. One case where the young folks couldn't manage two amusements at the one time—sharing in the pleasure inside and keeping an eye as to what was going on outside.  
Miss A. Givie of Lamash, was a week end visitor at the home of Mr. Michael Byres.

Mr. Jas. Booth and sister of Aytou, attended church here on Sunday.  
A pleasant social evening was held in the church and basement last Friday evening when the Sunday School children gave a short program and Rev. D. J. Lane gave an interesting hour or two with lime light views through Scotland.  
Mr. Jas. Anderson of London, visited with his mother over the holiday.  
Mr. and Mrs. Michael Byres spent a day recently with Mr. and Mrs. Mervyn of Ebenezer.  
Mrs. Jno. Whiteford left Saturday for Toronto, where she will visit for a few weeks.

## DORNOCH

This way for good roads. Anyone wishing a pleasant trip, just come right along. You will have something to remember the rest of the year.  
We are pleased to hear Mr. Coim McIntyre is home from the hospital, much improved. We trust he will still improve until he is able to get around.  
Sorry Mrs. C. Mortley is not improving very much. We are hoping an operation may not be necessary.  
Quite a number of our young people took in the ball at Chatsworth.  
Miss Ruth Lowe is again clerking for our general store.  
The young people of our congregation held a social on Friday night in the basement of the church, the program consisting of violin music, singing and recitations and games. All enjoyed themselves and after an over, lunch was served by the young people.

Mr. Hugh Vasey returned home on Saturday after spending a few months in the West.

## Town Fathers on Many Debates

Met in regular session on Tuesday night. All present, but Dr. Smith was called away. After reading of minutes and passing of a few accounts, considerable other business was transacted.

An account presented by Allan Bell for \$14 for expense of a child funeral in 1917, caused a lot of wrangling before a vote was reached. This had been presented years ago, and the Council of the time had thrown it out, because it had not been authorized. This was taken as a guide for the present council, and besides to pay it would establish what might be a costly precedent, and other claims might follow. Some members of council saw no danger in paying it, and said so forcibly. A motion by Coun. Catton and Saunders that it be paid, was supported by Coun. McQueen, while Adams, Calder, McDonald and Allan opposed. And thus the claim failed.

An account was presented by Police Magistrate Laidlaw and was also laid over, the Council thinking it was a County matter, though Mr. Laidlaw quoted statute and section.  
An offer of \$150 was before the Council from Mr. J. H. Harding for some finished goods in the phonograph factory, caused much discussion, most of it relevant. A motion by Catton—McQueen that the offer be accepted, was carried. The yeas and nays were called for, Coun. Saunders alone voting "nay."  
An account of \$15 was presented by bailiff Dan McLean for three sales or attempted sales of goods in connection with the factory. The yeave and others thought this excessive and after some disputing, Mr. McLean reduced it to \$10, and a check was issued in his favor for this sum and for percentage fees for collecting taxes.

A request for a light at Schenk's corner south of town, caused a lot of wrangling. Catton and McQueen moved to instal such a light but before this was carried, there was much poring over a map of the locality, opinions differing as to the exact spot, it was carried however, the Reeve alone rec-

ording a vote against it.  
Coun. Catton called attention to the unsanitary conditions surrounding the local lock-up. The mayor also thought conditions were unfavorable. Coun. Saunders, on behalf of the Property Com., said no complaints had been made, or the matter would have been looked into. It will now receive a long discussion.

A real discussion took place on the necessity of renewing insurance on Jackson property. At present there are policies of \$5000, \$4000 and \$4000 on the building and plant on which the premiums would amount to \$530.60. The reeve said insurance companies were panicky at present, and stay at taking risks, but thought the protection he had secured should be accepted. Council thought a cheaper arrangement might be secured, and Mr. Catton moved and was seconded that a check for \$305.60 be given Mr. Calder, the premium on the two \$4000 policies in the meantime, it being understood that enquiries would be made for better terms for the rest.

A tender from Mr. Hugh McDonald to make some necessary repairs to the Fire Hall for the sum of \$35 was accepted by council, on motion of Catton—McQueen.  
Mr. Calder gave a statement of the cost of travelling done in town which amounted to \$422.12, but of this a sum of \$179.87 was paid by the county. The report was accepted.  
The mayor gave the timely counsel that fire and light committee should inspect the tanks before winter sets in.
