### Old Dobbin Steals March on Tractor.

"Tractor manufacturers and horse breeders associations may urge the relative merits of tractors and horses as sources of farm power with all the eloquence of which they are capable," declares G. A. Ford, in charge of the cost accounting section at Minnesota University Farm, "but the farmer who has both available keeps his eye steadfastly on the relative prices of kerosene and oats and adjusts his power supply accordingly."

Recently summarized data collected showed but 298 hours of use per tractor in 1921 as compared with 415 hours the year previous, a decrease of 28 per cent. The use of horse labor, on the other hand, increased an average of 410 hours per farm during the same period.

The fact that tractor fuel declined only 29 per cent. in price while horse feed decreased 55 per cent. partly explains the change.

In the Orchard. The foliage of stone fruits, as cherry, plum, and peach, is on the whole quite tender, and the arsenical sprays should be employed with caution. Arsenate of lead is least likely to do harm, though more than two applications, especially to peach, may cause shotholing, dropping of leaves and burning of fruit.

The care of the home orchard provides for spare time congenial and profitable occupation for those who enjoy seeing things grow.

### Important in Chicken Yard.

The health of our family depends largely upon the kind of feed that is given them and the way it is served. It is just as important to feed right in the chicken yard. Have the right kind of feed and see that it is not tainted in any way.

### A Deserved Diploma-- Certificate of Health

Miss M— lived in the Ottawa Valley, not far from the capital, with her mother and young sister. Work seemed the natural thing when she left school, and, accordingly, she started out to get what she could for her services. Progress was not fast, but at least she did not stand still, and her earnings were always increasing.

With such prospects it seemed that her little sister could get the chance that she had been denied—a University education. The baby of the family went to Queen's, and this year, her alma mater gives her the degree of Bachelor of Arts. Next year she is going to do better—Master of Arts. But here's where the sadness comes in. The elder sister, broken in health by overwork, is no longer able to assist. She is a patient at the Muskoka Hospital for Consumptives, but it is hoped that she too will shortly graduate—with "A Certificate of Good Health."

Seventeen thousand patients have been cared for by the National Sanitarium Association in its hospitals in Muskoka, and at Weston. Half of them have been restored to health and happy homes. You can share in this great work if you will. Contributions may be sent to Hon. W. A. Charlton, 223 College Street, Toronto.

Send a greeting card. It will be appreciated. We have a fine assortment at the Review Office and inexpensive. Ask to see them.

### NOTICE TO FARMERS.

The Durham U. F. O. Live Stock Association will ship stock from Durham, on Tuesdays. Shippers are requested to give three days' notice. Jas. Lawrence, Manager. Phone 606 r3 Durham, R.R. 1

### Burned Ontario Needs Help.

Many weeks after the big fire the people slept on boards and in a few cases mattresses were available. The picture shows the first bed to be given out at one of the Relief Committee's stations. Hundreds of families in Northern Ontario need beds, clothing and food.

### Department of Agriculture

#### Hog Grading Results

After a month's hog grading it has been found that Ontario farmers are delivering only 35 to 40 per cent of select Bacon Hogs. Hogs shipped from Quebec are only 25 to 30 per cent select but there has been a large number of approved Bacon Type Sire sent to that Province so that the future is bright for a large percentage of selects.

The low percentage produced explain the decline of popularity suffered by Canadian Bacon Products in the British markets. It behooves every farmer to waken up so that the British market will not be lost altogether.

#### Advertising Farm Products

It is regrettable that farmers' products are not more largely advertised. A recent article in one of the Farm Journals makes mention of the fact that on Butter Exports in England there did not appear the name of "Canada." The people seeing the dray loads of butter did not know where it was produced.

We find that same condition within Canada. There does not seem to be an understanding of the value of advertising our produce. It pays big manufacturing establishments and it will pay farmers.

In an endeavor to produce a distinctly Grey County product last year, the Dept. of Agriculture, Markdale, had a large cotton sign, bearing the inscription "Eat Grey County lambs: Highest Quality Obtainable." That sign was hung over the pens of the Union Stock Yards. It resulted in a large premium over top-marked price and even after a lapse of one year, that premium is still paid whenever high grade lambs are considered. It pays to advertise farm products as well as manufactured articles.

### Norway's Seas

Many fathoms under the sea, Nature provides an abundance of sustenance for the codfish that makes its liver-cells prolific in vitamin-bearing oil.

### Scott's Emulsion

serves thousands of children and grown people with cod-liver oil in a form easy to take. It is a food-tonic that helps energize and build up the body.

Scott & Borne, Toronto, Ont. 22-27

### Real Good Soap

A Big Bar of Good Soap—Bright, solid soap with fine lathering and cleansing qualities for the family wash and household use.

For use in washing machines shave or slice a portion of the "SURPRISE" bar direct to the machine—it will do fine work.
