BLYTH'S CORNERS

It seems odd and certainly very unusual to see farmers putting away their tools in May. Since the last decade of rain, the land is working up delightfully and everything is lovely and hopeful.

Come to Sunday School Sunday was observed in Knox Ch. Sunday last, a large number of old and young boys present. A feature of the service was a choir, all composed of young girls, who led in the service through out and rendered an anthem very creditably. The little brown church in the dale. Pastor Burnett gave a very interesting and inspiring sermon on the training of the young as the most valuable asset in national building.

One of the chief difficulties confronting the nations in this 20th century was the great tendency toward moral decline and claimed the great industrial age we are living in as one of the chief causes.

What is the church doing to check this great evil? and by way of answering, viewed the results by what the church has done and accomplished. Evangelism and periods of spiritual awakening now and then, here and there, have succeeded in rescuing one here and another there out of the great crowds, but what of the masses and claimed it to be utterly impossible to reclaim or accomplish much with the present generation and proved conclusively that the successful building of the nations to-day lay in the bringing up of the young in truth and righteousness.

Mr Donald Barrett and sister Annie, formerly of New Ontario, but now residing east of Toronto, are in the neighborhood, preparatory to taking their aunt, Miss Mary MacNamara to Toronto to reside. Mary has been almost a life long resident of this neighborhood, coming when only a little girl and she and her brother Tom are about the only two of the early pioneers now residents in this neighborhood. Mary was a woman of noble christian character surpassed by few and highly respected, and the entire community will regret to know that feeble health in her 78th year, compels her to leave this neighborhood to enjoy better care and more ease. She leaves for Toronto on Wednesday of this week.

Mr Henry Damm hit the trail for Durham this Tuesday morning with his big bunch of fat cattle, 37 head in all to ship to the U F O company. We wish Henry success as he sure is a hard working man.

The decision of the Liberal Convention in not putting a man in the field is no surprise. It is somewhat gratifying to know that the rank and file are liberal enough to know that the record of the Drury Gov't as a clean out and out Gov't cannot be improved upon, with a record of carrying through four successful sessions with one of a majority, a record never held by any previous Gov't which proves conclusively they are no maladministration but clean the reverse.

The Liberal party has some common sense but the old Tories appears to have lost what little reason they had, and are going to the d--l. The great pluck up in the cattle market surely has given the farmers a very real lesson that it pays to have a Gov't of their own calling to look after their interests. 2 months ago or less, a few hundred cattle were sufficient to block the market and subject the prices to fluctuate up and down. To-day with exceptionally heavy receipts going forward the prices have advanced nearly 2c per lb. since facilities have improved for shipment to England. It will be remembered the severe criticism Doherty was subjected to when he undertook to go direct to England to try his luck at lifting the embargo and his action was even looked upon as a piece of impertinence. His nervous, daunted, the wide awake and energetic Doherty went right ahead and accomplished what other Ministers of agriculture utterly failed to do in 20 previous years. With the U. S. market closed to our cattle where would our farmers be to-day? Not a few of them would be on the verge of bankruptcy, particularly those who purchase cattle last fall at from 4c to 7c per lb. The one above the many admirable things about the Drury Gov't is the exceptional ability possessed by each cabinet minister in his own department.

Mr and Mrs Wm. Honess of Crawford spent the week end with their daughter, Mrs Hugh McDonald. Mr Duncan McLean has recently purchased a new Ford coupe.

GREY AND BRUCE COUNTIES

While in Owen Sound a few days ago, Mr C. W. Knowles of the British & Colonial Press, Ltd., of Toronto and Montreal, was warm in his praise of the newspapers of Grey and Bruce Counties, says the Owen Sound Sun-Times. Mr Knowles has been making a general tour of Ontario and the Eastern Provinces and visiting all the newspaper plants. In speaking to "The Daily Sun-Times" he said that in his opinion the newspapers of Grey and Bruce Counties were superior to those of any other district in Ontario, or in fact in any other part of Canada. He spoke very highly of the way in which many of the newspapers are serving their localities. He contended that the newspapers here show more enterprise, are better from a typographical standpoint and cover the news of their field better than any other group of newspapers in the country.

accepted dictation from a commercial organization, did not push through redistribution, had not legislated wisely for the farmer, but have added to his tax bills, a list of shortcomings sufficient, if correct, to pull them from the seats of the mighty.

However Mr. Drury enters dispute. "this government is not dictated to by any commercial organization," he declares with unusual vigor, is no under the thumb of any occupational group; they had accepted gladly support during the session from other parties in the House, but it would be unworthy of public life to have bargaining between two parties. As to being poor administrators, he asked for particulars and not simply a blanket charge, and that if they had been guilty of patronage it had been being too generous with their opponents. He countered to Mr Hay as to adding to tax bills by reminding him that not one cent collected in Provincial funds, is contributed in taxes by farmers or others, and declares that in this and other respects Mr Hay is talking "bunkum." He charged that Mr. Hay never sat out a night session and his followers also were often absent from their places.

The electorate of the Province will have to decide between these men. The Premier is putting up a vigorous campaign and Mr Hay is showing equal vigor, but is handicapped in trying to explain why during the Session he did not point out or oppose the faulty legislation he accuses them of.
