PRICEVILLE AND SOUTH LINE

Another month is added to the roll of the past. July has terminated its existence and is now numbered with the thousands of its predecessors. With the closing of July how many of our fellow beings have ended their time is more than we can tell. July has been a busy month. The last two or three weeks hay makers were out late and early taking advantage of the suitable weather conditions. Consequently a fine quantity of that palatable animal food was garnered in splendid order.

And here comes the month of August. It comes with a warning as if saying "Be ye also ready to attend to the duties that are necessary to be performed during my short stay with you. It is up to everyone to be prepared to meet the great demand for laborers by securing the help required to save the golden grain in good condition.

Sunday we attended the Oddfellow's gathering at the Society's Cemetery, and a large crowd had assembled for the occasion. The cemetery is one of the best and well kept in this part of Ontario. We had a walk all through, taking a view of the many monuments especially in the view of the late Mrs. Donald McDonald, a sister-in-law, (nee Sara McKinnon) who died on March 18, 1888, at the age of 26 years, also her little daughter Sara, aged 7 years and 3 mos. Mrs. McDonald's personality and manner were hard to excel. She was the third one buried in the cemetery, a son of the late Dr. Gun the first, and a Miss Abbott the second. Now the large acreage for the dead is well dotted with monuments, Bill Sunday's will be the last one engraved on some monuments sometimes, but we hardly think this would be applicable to Saugeen cemetery monuments. As we passed from one fine monument to another, the callousness of the resting place of the dead, might lead us to say "Peaceful is the silent slumber; peaceful in the grave so low."

After listening to fine addresses from the different Rev. gentlemen, we retired to our home after spending a profitable afternoon on this occasion.

In last week's Review we saw the obituary of an old schoolmate in the person of Alex. Butters who was raised on lot 40 con 2, N.D.R. Glenora, where he came with his father and mother's family in 1832. The thought went back to our boyhood days when we sat side by side in the old school-house in section No. 2, D.R. Glenora.

This was in the year 1853 and a few years after his brother, John Butters was the first teacher in 1853 and part of 1854. In those days the qualifications for teachers was not so hard to obtain, but Mr Butters was one of the best men in the county and we strove hard to follow his copy but failed to imitate it to perfection. However when we and the subject of our sketch were through with school, we often worked together at logging bees and though we were both away back in our teens yet we could face two strong young men at the other end of the heap who sometimes picked up a good sized log and landed on the heap. Although heavy on us we did the same.

A few days ago we visited the old home to see a brother who is deprived of his activity for the present by losing his natural sight and otherwise not feeling well. We sat a while in the old school grounds and took an observation glance at where the old school house stood and whose roof now is the canopy of the heavens. We thought to ourselves if Tom Nichol was in existence some 65 or 70 years ago he would make an entrance to the old school door which is now some 4 feet deep at the entrance. However Tom didn't land in Ontario for many years after the usefulness of the old school, and it is only as a tale to him. But we would remind him that we carried water from the well at the sideroad when down the grade from the school was all stumps and stones and we enjoyed it too.

We paid a short visit to the South

Line and was highly entertained by the obliging residents while there.

Mr. Wm. McLeod met with an accident while cranking his car by the handle striking him at the wrist. The Dr. thinks however no bones are broken, though as a precautionary measure carries his arm in a sling.

The harvest is coming in fast around Edge Hill. Fall wheat is all cut and ready to cut. Some oats are beginning to color but the grain will be light. Quite a lot of hay to be done yet in the vicinity of Priceville.

Mrs. McPherson of Toronto, paid a short visit to her relatives, the McDonald's at Edge Hill lately.

Rev. Mr. Jones of Priceville leaves for his holidays this week. His pulpit will be supplied during his absence.

We are sorry to hear of the illness of Dr. Hutton of Durham. The Dr. was 12 years in Priceville and was always successful in his treatment and lenient in his charge. His many friends in Priceville and surrounding country wish him a speedy recovery from his ailments.

Mrs. McMillan, South Line, is sometimes better than others and on the whole is holding her own fairly well.

The garden party at Wm. Weir's last Friday evening was well attended. Mr. Weir is hauling in his fall wheat this Monday, the 20th July, and it is a fine crop.

We had a long talk with Mr John Lawrence of Durham recently. He says he is 91 years of age and he calls a man of 80 years a young man. He said he saw Durham when it was all bush; will Durham be a city 51 years from now?

SAUGEN VALLEY

Mr. T. H. Binnie was in Toronto last week attending an executive meeting of the U. F. O.

Mr. and Mrs. Kinsella and children of Toronto, are spending a couple of weeks with her mother, Mrs. John Fallaise.

Mr. Eddie McQueen of town and his sister, Mrs. Herb. Love, of Egremont, visited the McFarlane family recently.

Mr. Don. McFarlane is enjoying a visit with his son Alex. also his daughter, Mrs. Wm. Seth in the West.

Mrs. Ed. Lee, of East Linton, is spending a month with her father here.

Mr. and Mrs. Bert Brant and little Jean, spent a couple of weeks with her parents, Mr and Mrs. Thos. Davis.

Mr. and Mrs. Welfer of Elmwood, spent the first of the week with her parents, Mr. and Mrs. Henry Weppler.

Mr. Robt. Moffat of Toronto, visited with Mr. T. Davis recently.

Misses Jean and Beth McGillivray, spent last week with their aunt, Mrs. Jno. Stevenson, at Holstein.

Mr. and Mrs. Will Beaton of Ceylon, visited Mr and Mrs. Robt McGillivray this week.

NOTICE TO FARMERS

NOTICE TO CREDITORS

In the matter of the Estate of Malcolm McIntyre, late of the Village of Priceville, in the County of Grey, Veterinary Surgeon, Deceased.

NOTICE is hereby given pursuant to the Trustee Act and amendments thereto, that all creditors and others having claims against the estate of the said Malcolm McIntyre, who died on or about the twenty fourth day of May A. D. 1922, are required on or before the twenty fifth day of August, A. D. 1923, to send by post prepaid or deliver to Herman B. McLean, Priceville, Ont., or Archibald B. McDonald, Priceville, Ont., the Executors of the last Will and Testament of the said deceased, their christian and surnames, addresses and descriptions, the full particulars of their claims, the statement of their accounts and the nature of the securities, if any, held by them.

AND further take notice that after such last mentioned date, the said Executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said Executors will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by them at the time of such distribution. Dated the 18th day of July, A.D. 1923.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought-out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "boarder" milkers, scrub hives, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by many shrewd, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speculate with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skillful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations including clover and ensilage crops (corn, sunflower, peas and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interested in fruit? We can give you information that will help you. Do you breed livestock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have more that will help you.

We have published and have for free distribution, 700 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Have Faith in Canada
