MAY CHANGE GREY RIDINGS

At present there are two ridings in Grey County for Federal purposes. They are North Grey with a population of 30,667 and South East Grey with a population of 28,334. North Grey consists of the townships of Collingwood, Euphrasia, Derby, Keppel, St. Vincent, Sarawak, Sydenham and the urban municipalities of Owen Sound, Meaford, Thornbury and Shallow Lake. South East Grey consists of the Townships of Artemesia, Bentinck, Egremont, Glenelg, Holland, Normanby, Osprey, Proton, Sullivan, the towns of Durham and Hanover and the villages of Chatsworth, Dundalk, Flesherton, Markdale and Neustadt. Many of the electorates in Normanby, Bentinck, Sullivan and Hanover maintain that for Convention purposes they would prefer being associated with the North Grey Riding. As a matter of fact Sullivan is in the North Riding for Provincial purposes. It is proposed to have the electoral districts made East and West when the Redistribution Bill comes up at the next session of Dominion Parliament. This is how the two Ridings would be composed under the proposed change:

West Grey	
Normanby	2038
Bentinck	2501
Sullivan	2356
Derby	1551
Keppel	2401
Sarawak	600
Sydenham	2610
Owen Sound	12190
Shallow Lake	362
Hanover	2781
Chatsworth	332
Neustadt	422
Total	31150

East Grey	
Collingwood	2507
Euphrasia	2433
Artemesia	2439
Egremont	2505
Glenelg	1713
Holland	2213
Osprey	2295
Proton	2852
St. Vincent	2210
Meaford	2650
Thornbury	820
Durham	1494
Dundalk	675
Flesherton	422
Markdale	852
Total	27901

According to the present arrangement of the Ridings there is a popu-

lation more of 2,283 more in the north than in the South East Ridings. By the proposed re-arrangement the disparity between the East and West Ridings would be 3,249 or about 1000 more than along the present lines. No objection could be taken against such a slight difference by the change if the Hanover end of the Riding would prefer meeting in convention with the Owen Sound instead of the far east representatives. If Durham, which is near the boundary of four townships, be included in the West Riding, it would make a still greater difference in population. The difference in distance south and north and east and west in Grey County is only some 12 miles. However if there is strenuous opposition in the Redistribution Committee to this re-arrangement going on the ground that it has the appearance of a gerrymander, the ridings will be left as they were constituted by the Act of 1914.—Chesley Enterprise.

LOYD GEORGE

All Canadians have their eyes turned on one of Britain's greatest statesmen this week, David Lloyd George, who is making a speaking tour to a few Canadian cities and a larger number in the United States. His speeches reported in the daily press show virility, that reminds one of the time when he guided the Empire and the Allies to victory during the war. It is now universally conceded that Britain's line up in that struggle, was due to this man's energy, foresight and skill in dealing with men and institutions.

In his speeches he gives unstinted praise to Canada for the part she took and the praise is sincere. He has had extraordinary receptions and if he was not made of stern stuff, his head would be turned. His wife and daughter accompany him.

BIG MONEY FOR NONSENSE

Recently much has been said about the New York man who has become independently rich, receiving a royalty of over \$60,000, by the writing of the silly song, the refrain of which is "Yes, we have no bananas today."

But this is just a striking instance of how much the public is willing to pay for light amusement.

Next to business men of the highest rank, who, besides possessing rare ability, have been favored by fortune, the clowns of to-day are receiving the biggest financial rewards. The man who supplies the world with trifling amusement is showered with gold and may live in a palace; the man who supplies bread and clothing gets a respectable living; the man who gives the highest wisdom is allowed to starve.

History does not record that a clown ever was killed for his nonsense, but many a man, now regarded as having been the wisest of his time was crucified or burned at the stake.

The more successful movie stars of which Charlie Chaplin is an example, are but clowns; and although Sir Harry Lauder belongs to a higher type, it was for his power to entertain and amuse that he got his princely fortune and indirectly, his title.

Only a recent years has this been possible—since the crowd began to make considerable money and to spend it. Easy and quick means of travel facilitates the gathering of great crowds. One can now travel comfortably in an hour, a distance which a few years ago constituted a laborious journey. So men cross a continent to witness a prize fight; young folk can go 25 miles in an evening to a dance, and great halls are crowded to hear a Harry Lauder or see a Chaplin.

But, perhaps after all, the clowns are not getting so much out of life as would appear. Wealth is a great thing when joined with wisdom, and there is no evidence that clowns are a happy lot. They cannot and do not possess that solid self respect which moderate wealth and a well-spent life brings and which is essential to enduring happiness.

CANADA AS THE STATES SEE HER

By Bert E. Gollyer in his newspaper "The Referee."

While we realize that the people of Canada would not regard exaggerated flattery in the light of a compliment, we believe we remain in the confines of the simple truth when we remark that no nation in history has met the financial demands of war with greater good spirit and carried the financial burdens with greater intelligence than the vast Dominion which tops the North American continent. Ten years ago Canada's debt was less \$350,000,000. On Jan. 1st, 1923 it was \$2,516,929,000—over two billion dollars added by the war. Were it not for the fact that the bulk of the colossal debt is owed within the Dominion—Canadians themselves owning bonds to the extent of \$1,969,995,000—the interest payments would doubtless drain the country dry reduce the exchange value of the Canadian dollar to a ruinous figure and plunge Canadian finance and business into a chaotic condition. As it is the semi annual interest payments go into hundreds of thousands of Canadian homes and provide money for the payment of the Federal taxes from which the interest payments are drawn.

At the time Canada might have met the enormous demands of the war by borrowing from New York, but the wisdom, as well as the patriotism, in resisting the temptation and instead placing the burden immediately upon the shoulders of her own people is

now apparent. Within a few weeks \$172,000,000 of Dominion Government bonds will fall due. With the same spirit and intelligence the Government is again co-operating with bankers and brokers to keep the debt in Canada. The prospect that practically the entire amount will be replaced by money advanced by Canadian investors is pleasing to the friends of plucky Canada the world over.

Bruce Co. Invading New Ont.

Bruce County is invading New Ontario. At least some 35 families from its borders are proposing to settle at mileage 18, on the James Bay extension from Cochrane. They are going in on a community settlement plan arranged by Premier Ferguson. Each family has taken up 160 acres of land, most of it is timbered and when the whole colony has arrived a village will be formed with the likelihood of the government providing a community hall and possibly other community institutions.

The village is to be named Moffat, in honor of Major Moffat of Bruce County who is head of the party and has been prominent in making arrangements. The experiment is sure to be the subject of Dominion-wide interest and it is believed if successful will lead to a colonization policy for Northern Ontario based on the community settlement plan.
