Wasn't it Pope who said that the proper study of mankind is man? The automobile manufacturers are great students. -Wiarton Canadian-Echo.

EXPORTS AND IMPORTS

What Canada Can Do

The Agricultural Gazette of Canada, has some interesting figures of the wheat production of the world in which Canada easily takes third place. United States in 1923, was first with an acreage of 58 million acres while Canada had 22 millions, India 30 millions. In the same order million bushels produced were 793, 382, 369, so that Canada with 8 million fewer acres produced more bushels than Indna. This figures out approximately Canada 18 bushels per acre, U. S. 14,

India 12. The United States is fast becoming consuming nation producing in 1923. 22,000,000 bushels fewer than in 1921, while Canada increased by 82,000,000. A curious table is that showing the ing 100 as the average price of 1913: Velvy Reay.

depreciation of the mark. Cheese exports: Value in 1911 were hear of a speedy recovery.

back to 20 million dollars again. Not so is it with butter: In 1911 Sound friends recently. exports were a little over ¼ million

dollars, in 1923 had risen to about 5 purpose holding a Halloween social in times that amount.
