FOR SALE

Two buggies, cutter, harness, sanitary toilet, large coal heater and other things. Apply to T. W. SCARF

Losses Barn and Crop

Mr Donald McDonald, of the 8th con of Artemesia, met with a heavy loss on Monday, when his fine barn and season's crop, newly threshed, was destroyed by fire. The threshers had gone only a short time with their machine when the fire broke out in the straw stack and spread rapidly.

FRANK WEAVER, Mus. Bach.

Organist and Choirmaster Presbyterian Church, Walkerton. Concert Organist and Pianist, Vocal Specialist. First class instruction in the famous Italian method of voice culture and piano and organ playing. 20 years practical experience. For terms apply at school room of Durham Presbyterian Church on Saturday, from 4 to 9 p. m.

PRICEVILLE AND VICINITY

Here and There

The beautiful weather which we have been having has been ideal for the harvesting of the root crops and everybody seems to have taken advantage of it.

What might easily have been a very serious accident happened on the "Highland Hills" just west of the village one night last week. An automobile driven by Mr. J. McGrath, collided head on with Mr. Roy McDevlin's horse and buggy, injuring the horse so badly that it had to be shot, and smashing both auto and buggy very badly. Fortunately none of the occupants of either vehicle were hurt. We do not know whether the accident was due to fast driving or not, but we do know that too many car drivers come down main street and around the curves on the hill at a very dangerous rate of speed which may bring grief to some one if steps are not taken to prohibit it.

Miss Laura McFarlane spent the week end at her home near Owen Sound.

Mrs. D. W. Muir of Port Arthur, arrived here on Thursday last to nurse her daughter, Mrs. Arch. McLean.

Rev. Mr. Harrower of Toronto, occupied the Presbyterian pulpit on Sunday.

Mr and Mrs Mephan of Hamilton, are visiting at Mr Jno. McMeekin's. A large crowd "dropped in" on Friday and Mrs John A. Nichol on Friday night and presented them with a miscellaneous shower of useful articles, after which everyone enjoyed themselves with music and dancing.

Messrs F. McKinnon and Alex B. McDonald attended Woodbridge Fair on Saturday.

Mrs John McArthur, formerly of this place, but who has been residing for some years with her daughter, Mrs Dr. Dixon in Calgary, called on friends here last week. Mrs McArthur expects to visit for a time with her son, Dr. Jack McArthur in Markdale.

Mrs R. H. McConkey and babe are in Toronto for a few days visiting friends.

HOPEVILLE

Mr and Mrs Han Allan and other friends from Durham, spent Sunday week at Mr Wm McEachnie's.

Mrs D. S. McDonald spent last week with her old neighbor, Mrs Con Schmidt, eNw England.

Mr. Watson, Toronto, Supt of the Christian and Missionary Alliance Church, made a business trip to Hopeville branch recently.

Mr and Mrs G. Snell, Melancthon, were the guests of her grandmother, Mrs Jno Dezell a couple of weeks ago.

Mr and Mrs Thos Spence were visiting her mother, Mrs McPhail.

Rev. and Mrs Snider entertained the boys between the ages of 8-15 at the Manse last Friday evening.

Miss Agnes Shand spent over the week end with her brother's at Fairbairn and attended the anniversary services.

Mr Jake Schmidt spent the beginning of the week with his family in the village.

Mr Sam McDonald, Dundalk, was visiting at Mr Robt. Webster's the first of the week.

We hear that Mr Wm. Burnet has purchased Mr Ham Allan's blacksmith business in Durham. Mr Burnet has had years of successful experience at this trade.

Mrs Geo. Gilkes came home from Fergus for a short time last week. She returned again to be with Mr Gilkes who is getting along fairly well in Fergus Hospital. It will still be a few weeks before he will be able to return home.

Hopeville Missionary Society will hold their regular monthly meeting, on Wed., Oct. 21st, at the home of Mrs John Sinclair.

FINDING EMPLOYMENT FOR BRITISH HARVESTERS

Hon J. A. Robb, Minister of Immigration, announces that up to noon, Oct. 25, 7,876 openings for winter employment have been found for British harvesters. Of this number 4,255 are for farm work, 349 for lumbering and bush work, while a limited number of places have been found in other branches of industry.

Recently it was announced by the minister that his departments were co-operating with the transportation companies, the Canada Colonization Company, the Federal and Provincial Employment Service, Boards of Trade and other representative bodies in finding employment for the thousands of temporary harvest workers from the old land who desire to remain in Canada.

The openings for employment by districts are: Toronto 3000 of which 2000 are bush and 1000 farm jobs; Winnipeg 338; Regina 593; Saskatoon 325; Prince Albert 650; Calgary 591; Edmonton 2,259; Vernon 120.

The canvass discloses a real demand for farm labor at \$15 to \$40 per month and board, according to experience, and for help in the lumbering camps at from \$40 to \$50 a month and board. Demands in other industries are limited. The canvass is continuing.

The minister desires that openings be found for every harvester who is willing to work and wishes to make his home in Canada. The result of the canvass to date indicates that his objective will be reached.

Over a thousand million fish eggs

of various species were collected by the hatcheries branch of the Department of Marine and Fisheries during 1921.

Inbound ships from the United Kingdom are averaging 4,500 tons of freight for discharge at Vancouver. Outbound they take about 4,000 tons per vessel. Last year the average outward tonnage was practically the same while the inbound was only about one tenth of what it now is.

Announcement has been made that a Government wireless station is to be erected on St. Paul's Island, which stands in the entrance to the Gulf of St. Lawrence, the most north-easterly point of Nova Scotia. Two Government wireless engineers have arrived there and are making arrangements for the erection of the station.

One hundred and forty thousand Canadian school boys have been banded into an army of guards to watch for and prevent forest fires in the Dominion this year, according to an announcement made by the Canadian Forestry Association. The new organization, which is known as the Young Canadians' Forest League, will, it is expected, save several million dollars' worth of timber from fire ravages.

That "prospects for increased immigration into Canada are excellent" was one of the most important statements made by E. W. Beatty, K.C., upon his return from an extended tour of England and European capitals. The president of the Canadian Pacific Railway believes Canada is progressing in the matter of immigration, but intensified efforts are essential, he considers, to offset erroneous impressions abroad that Canada does not require new settlers.

A record run between Winnipeg and Quebec was recently made by a special train of the C.P.S.S., according to the Bankers' Trust Company of New York, which has just completed a survey of Canadian industry and the amount of United States capital invested. Of the total sum invested, \$1,280,000,000 in bonds, and the remainder in farms, mortgages, small businesses, industrial enterprises, banking and private loans. It is computed that more than 200 branch factories were opened in Canada by United States concerns in 1919, and a great number in 1920 and 1921, and that late in 1922 the number of these came to 700.

A collie dog is reported to have saved the life of a London West girl, while accompanying the child to a nearby store. On the way she stopped on the C. P. R. railroad tracks in the path of a westbound train. Realizing the child's peril, the dog threw himself against her with sufficient impact to knock her clear of danger, and was cut to pieces by the train before he could regain safety.

The girl's mother tried to discourage the dog from going when the daughter started for the store, but she went, and was the means of saving the child's life, and died heroically as a result.

Merchants! Order your counter check books at the Review office. Ask to see a sample. Lowest prices.

FOR SALE

Good house and lot, splendid location in Priceville, owner obliged to sell owing to ill health. Position as to the Bankers' Trust Co. Ltd. keeper of Priceville. For price, terms and all particulars apply to the undersigned.

ANDREW FORD, Priceville, Ont.

The Durham U. F. O. Live Stock Association will ship stock from Durham, on Tuesdays. Shippers are requested to give three days' notice. Clifford Howell, Manager Phone 92 r 1-1

FARM FOR SALE

North part of Lot 7 and 8, con. 22, Egrement, containing 68 acres, 55 acres cleared, balance hardwood bush. In a good state of cultivation: frame barn 4 x 50, stone basement, concrete stables, drilled well and cement tank at barn.

Also lots 6 and 7, con 4, S. D. R. Glenelg, containing 110 acres, one hundred cleared, in good state of cultivation. On the premises is a brick house containing 7 rooms with frame woodshed attached, drilled well at door, never failing spring making this a good stock farm. This property will be sold at a right price to a quick purchaser. Having gone into the dairy business, this property is too far away for convenience. Apply at WATSON'S DAIRY, R. R. No. 4, Durham

About In-breeding.

Weakness in breeding stock is often laid to in-breeding, but facts prove that the greatest progress in producing fine cows has been by skilled men who have used in-breeding. But such breeders have known the blood lines of their stock, and they are thus able to mate so that strong points will be made stronger instead of weak points make weaker, as is often the case when breeding methods are careless.

THE IMPLEMENT SHED

Farm Machinery Worth Careful Caring For.

Practical Hints as to Location and Size—As to Foundation and Floor—Walls, Roofing and General Frame Work Described—About In-breeding.

(Contributed by Ontario Department of Agriculture, Toronto.)

Implement sheds should be so designed that the accessibility of the implements stored therein will always be easy. Wide implement sheds are generally not as convenient as the narrower structures unless designed with doorways on both sides, or alleyways kept clear to facilitate the movement and storage of the implements. The storage of implements in the farm barn or any other expensive building is not economical. The Location.

The implement shed should be so located that time will not be lost in travelling more steps than absolutely necessary with, or to get implements, either going to or returning from work. Where horses are used as main farm power, the implement shed should be located near the stables, at a point where the teams can conveniently pass on the way from stable to field. On many farms the implement shed can be located at a point between the house and barn, a very desirable location, especially if the building is used for the motor car and workshop.

For a 100-acre grain and live stock farm fully equipped with the necessary machinery a shed 60 feet long and 24 feet wide is generally amply large. Different types of farming call for different tools and implements, so before deciding on the size of building to erect, determine the floor space required for each tool or machine and then plan a shelter large enough to cover all.

The implement shed does not require a heavy foundation. A light cement wall six inches thick and set on firm ground is all that is required. Small pillars of cement set to support each post of the frame can be made by filling a half barrel, or nail made by small forms specially made with concrete. The posts used in the frame may be set in cement. Such practice gives strength and durability. Foundations set on the firm soil after the top vegetable mould has been removed are generally satisfactory in all parts of Ontario.

The Floor.

A dry earth or gravel floor is all that is necessary if the shed is located on well-drained ground. Cement is desirable where the cost of such is not excessive. Wood floors are not so comfortable to work on, but such are expensive and may harbor vermin. Sand floors are objectionable. If the earth floor is damp at any time of the year, iron may be used. Narrow boards placed under the wheels or runners will aid in their preservation.

The Walls.

The implement shed walls need only be heavy enough to keep out the sun, the wind and rain, and strong enough to give rigidity to the structure. Vertical boards and battens on a 2 x 4 inch frame will provide such at low cost, or matched drop siding over a ship-lap sheathing will give a more durable and better appearing wall at a higher cost. Corrugated galvanized sheeting or siding does very well, and has the additional advantage of fire-proofing the structure. Cement block and brick walls, if on good foundations, are very desirable from the durability standpoint, but much too expensive for general farms.

The Roof.

For narrow implement sheds the cheapest durable roof is the wide roof board and batten. Galvanized iron sheets if well supported on a strong pole or 2 x 4 inch roof frame make an excellent covering. The prepared paper roof coverings of tar or asphalt felts are very desirable, and are generally dust-proof. Shingles make a very acceptable covering providing that the roof is not less than one-third pitch.

The Frame of the Implement Shed.

The width and height of the structure will determine in a large measure the dimension of the structural material. Narrow buildings with gable or hip roof can be framed of 2 x 4 inch lumber. A building designed with shed roof will require heavier rafters; 2 x 6 inch for buildings over 12 feet wide, unless the building is high enough to permit the use of rafter braces. Corner posts, sills and plates may be one piece 2 x 6 inch or built open front must be well braced to stand both side and downward strain. The posts on one side may be set well in to give a wide eave or overhang. A convenient type of shed or shelter may be constructed by erecting one line of posts and constructing thereon a frame that will give sufficient width to shelter wagons or large implements and be wide open all round during the period when farm implements are in use. Provision for closing in can be made by providing doors or panels which may be put in place for winter protection of implements.—L. Stevenson, Dept. of Extension, O. A. C., Guelph.

IN DAYS OF YORE

15 YEARS AGO

From the Review file of Oct. 29, 1908. On Friday last there passed away one of the very oldest settlers of Beninck in the person of Mrs Langrill, (nee Hutton) who for years past has resided with her son Sam, on the homestead on the Durham Road. Her first husband, father of Samuel, Thos. and Chas. Lawrence, died 49 years ago and she subsequently married Mr Langrill, and to them were born one son Samuel.

With startling suddenness came the call of death to Mrs John Allan, who has been staying with her daughter, Mrs Walter Hastie, at Bromore. About a week before her death she went to her home on the 20th con and was going sound, but on Sunday morning, almost without warning the end came. To mourn her loss are her husband, her daughter, Mrs Hastie, and two sons James and John, the former on the homestead, John in Winnipeg.

25 YEARS AGO

From the Review file of Oct. 27, 1898. Owen Sound papers last week contained the result of the Battalion Shooting match. The only names from No. 4 Company are Sergt Wm. Ramage who is 5th among 28 prize winners, with 4 points, getting a \$2 prize and Pte McNab who gets a \$1 prize. The former was 1st in the extra series, (\$2.25) and the latter was 2nd (\$1.25).

Harvest Home Anniversary services were celebrated in Rev Mr Kitching's appointment at Vickers. The chief speaker was H. H. Miller, a true friend of the church and was usual, factious, eloquent and impressive. The musical part was most ably sustained by the Durham Methodist choir, Miss Large at the organ and instrumental selections by the popular entertainers, Messrs Jones and Galbraith.

Teachers and locations for 1899: In Beninck, Peter McDougall, No. 6, (Corinth); A. Galbraith, Aberdeen; D. McDonald, Allan Park; W. K. Reid, Hutton Hill; Julia Weir, Vickers; R. Wolfe, Welbeck; G. Puthurbough, U. No. 2 Bent. and Brant; Ferguson Grant, Latona; Miss Fletcher, Rocky Saugen. In Egrement—W. L. Dixon, Allan's School; W. J. Sharp, Holstein; G. Cushnie, No. 13; J. Graham, No. 14; Miss Rawn, No. 9; Jno. Greaves, No. 10. In Glenelg Miss Large, No. 9; Mr. Firth, Bunessan; T. Collinson, Edge Hill; Miss McMillan No. 10. In Artemesia: W. J. Blakeston, Priceville; Miss Derby, Priceville. Mr A. Redford, No. 1, Normanby.

Miss Maggie Bull left Saturday last to join her sister in Pincher Creek, Alta. She remained over Sunday in Toronto to the guest of Miss M. Crawford.

Scotchtown corr.: Mrs A. C. Patterson, her daughter Minnie and son at Fraser, left the old homestead of the former on the 14th inst for Flint, Mich to join the rest of the family.

Priceville corr.: On Wednesday of last week, Rev. Mr Matheson united in marriage Mr Donald Stewart of the North Line Artemesia, eldest son of the late John Stewart to Miss Mary Campbell, daughter of Mr John Campbell of the same place.

Mr Sidney Blakeston is home for the last few weeks and probably will resume farming on his old farm Old Durham Road, Artemesia next spring.

Following are the election of officers at the Teachers' Convention recently held in Durham: President, J. W. Brown, Hanover; Ex-Pres, W. D. Mills, Durham; Vice Pres., Miss Bull; Sec'y Treas., Mr. Thos. Allan; Delegate to O. E. A. W. D. Mills.

Vickers corr.: On Wednesday, the 19th inst. a very pleasant event occurred at the residence of Mrs Hill, when her eldest daughter Louise was united in marriage to Mr Geo. A. Turnbull of Dryden. This ceremony was performed by Rev Mr Craigie of Hanover and the bride was attended by her sister, Miss Clara while the groom had a supporter in Mr Jas Henderson.

Interest is attracted by the case of Miss Gertrude Callahan, who is suing the Seymour Agricultural Society for \$2,000 for impaired eyesight. She was struck by a ball while watching a ball game at the fall fair at Campbellford. The Directors are fighting the case.
