

Pioneer Days Recalled

W. J. Sharpe Continues His Interesting Story of Pioneer Days

This week we will endeavor to give a descriptive account of "Pioneer Days" in the village of Holstein. We are indebted to Miss Maggie Swanson, who came to this vicinity in 1847. She informs us that the late Wm. Romains was the founder of Holstein. Being a carpenter and wagon maker by trade, he built a shop about where W. P. Ellis' residence now stands.

Settlers were beginning to come in rapidly, hence it became necessary to erect a school house. About the year 1849 a log school house was erected about the place where the Misses Brown's residence now stands. Desks were arranged around the walls and benches in the front, followed by Robt. Legate who served at township clerk for several years.

In 1865 a stone school house was erected on the present school grounds. Matters of religion were not neglected, hence a log meeting house was erected on lot 49 con 2. We are informed that Methodists and Presbyterians attended this place of worship. The Rev. Mr. Ward being the first preacher. This church was under the supervision of the Methodists and was afterwards replaced by what is known as the brick church erected on lot 26 con. 2.

Presbyterian church now stands. Later he built quite a large building where the store now occupied by Geo. Fenton & Son now stands. After about 2 years of service, he retired from mercantile life to the residence now occupied by his daughter, Mrs. J. D. Roberts. The late Peter Dickson was his successor.

The first Presbyterian church was erected on the rear of lot 37 con 3. Rev. Mr. McLean being its first pastor. Rev. Mr. Crozier, still alive, was his successor, followed by the late Rev. P. Straith.

The first saw mill was built by one Jake Rawn, about the site of the present mill and was later operated by Mr. J. S. Shields.

Mr. W. T. Petrie erected the first mill down stream about half a mile west of the village. In 1876 he removed the mill to where the present mill now stands.

Michael Stonehouse ran the first hotel, where Mrs. Tanner now resides. A man named Boakes built the building where Mrs. Tanner resides now and ran an hotel for several years—the former building having been burned.

Wm. Seaman, now of Mt. Forest, operated the first tin shop about where Elijah Smith's residence now stands, afterwards removing to the opposite side of the road, adding a hardware business.

In the early days small shoe and repair shops were conducted by M. Stonehouse and A. Doupe. Mr. Smith Seaman Sr. was the first cooper here. Now last but not least we must refer to the establishment of the Post Office. The residents of the vicinity received their mail at Egremont Post Office. This proved to be quite inconvenient, hence Messrs N. D. McKenzie and Andrew Swanston set to work and succeeded in having a post office opened in Holstein.

During 1864-66 there was trouble in Europe about the provinces, Holstein-Schleswig. The P. O. Inspector chose the name Holstein for the new Post Office, and it has remained so ever since.

HOLSTEIN LEADER

LOCAL AND PERSONAL

Messrs Arthur Brown and Howard Pinder left Saturday for a trip to Toronto and Oshawa.

Misses Jacques of Winnipeg motored from Chesley and spent a day visiting Mr and Mrs John Manary recently.

Mrs Andrew Murdoch of Seattle, is visiting her parents, Mr and Mrs. Hiscoc.

Mrs Hartley Allingham of Georgetown, is spending a week with her mother, Mrs Jno. Brown.

Mr Ed. Rae, who went West in the Harvest Excursions, has returned and has opened up his barber shop again at the old stand.

Don't forget the Shooting Match to be held at Geo. Seaman's Thanksgiving day.

After Thanksgiving Day, our popular dentist, Dr. Ross, will have his regular day changed from Monday to Thursdays.

The regular meeting of the Women's Institute will be held Thursday, Nov. 15th, at the home of Mrs Thos. McMillan. Dr. McLellan will take up the topic of Mal-nutrition. Come and enjoy an instructive talk from our doctor.

The four patrons sending the highest number pounds butter fat to the Egremont Creamery between the dates Oct. 22 and Nov. 3rd, are as follows:

- Arthur Irwin ..... 63.50
Geo. Alexander (Conn) ..... 67.18
Nichol McDougall ..... 65.18
R. T. Dodds ..... 59.56
W. A. Abbs, Buttermaker

Methodist Ladies will Hold Concert

The ladies of the Methodist church have arranged for a first class concert in the Town Hall on Monday, Nov. 19, to be given by Miss Pearl Newton and Mrs Grainger of Toronto. Those who heard these talented ladies before, will know what an excellent treat it is in store. Watch for further particulars next week.

Plan to attend both Sunday and Monday, Nov. 11th and 12th, at Amos Church, Bromore, anniversary services. Rev. J. A. Matheson, B. A. B. D., of Orangeville, the new Moderator, will preach at 11 and 7.30 Sunday. On the following Monday, a fowl supper and program of speech, song and story will be held. E. D. McClocklin, Durham, the Bell quartette and other good entertainers will assist.

Mr Merton Reid had his Chevrolet coupe badly damaged Halloween night when returning from Mt. Forest. He had stopped his car, owing to the blinding snow storm when he was about to meet another car and Mr V. Eurig, the owner of the other car, in trying to pass collided with Mr Reid. The axle was broken, fender bent and a front wheel severed. Mr Eurig's car was less damaged being minus a fender.

Will all those who are interested and wish to pay a token of respect to our heroes, assemble at the memorial monument on Monday, Nov. 12th, at 10.45 a.m., when the following program will be carried on our returned heroes. 1. Three cheers for our returned heroes. 2. Reading of Col. McCrae's lines to the fallen brave. 3. Two minutes silence. 4. America's answer to Flanders' Fields.

The Holstein branch of the Women's Institute gave a concert last week end on behalf of the Durham Hospital. Rev. L. E. West filled the chair and gave some interesting remarks when most needed. The program was chiefly furnished by Miss Miriam and Master Eben Cameron, with the help of two other Durham ladies, and was greatly enjoyed, being clean, amusing and patriotic. Those who were absent missed a good hearty laugh over the imprisoned noise. Dr. McLellan gave a short address on the origin and progress of hospitals and by request some of the mechanical devices used in hospitals and their cost. The managing board of the Agricultural Society contributed the use of the Hall to this worthy cause. The ladies of the Women's Institute wish to thank all those who contributed in any way to the success of the concert and the cause.

The Halloween Social held in the Presbyterian church under the auspices of the young people, was a decided success. The night was very disagreeable as we were having a taste of coming winter in a heavy fall of snow. Notwithstanding this drawback, a large number turned out and a splendid time was enjoyed by all. The program started with community singing under the leadership of Rev. Scott, followed by a duet by Miss Brown and Mr. Scott. The next on the program was a well rendered violin solo by Miss Edwards, accompanied by Mr. Koeh, which was followed by an encore. Miss Thorne closed the program by a reading "Just as good as a Girl." Miss Davidson now took charge and quickly divided the audience into eight groups which in turn enjoyed the eight games which were numbered and under Misses Edwards, Agnes Evans, Emma Aitken, Dena Thorne, Miss Floyd, Dr. McLellan, Geo. Brown and Robbie Haas, after which a lunch of sandwich, pumpkin pie and coffee was enjoyed and the evening closed with God Save the King.

ALLAN'S CORNERS

Mr and Mrs R. O'Brien of Varney, were recent guests of Mr and Mrs J. C. Queen.

The play which has for some time been under preparation, will be given in Allan's School on Friday evening, Nov. 16th. It is being given in regard to the closing of the Sunday School. An entertaining time is expected to come early and avoid the rush. Our teacher, Miss McBride is training the children for a Christmas entertainment. This will be held later in December.

Owing to the Orangenem of the district holding a special Orange service in Durham on the 11th of November, there will be no service in St Paul's Church on Sunday of Orchard street the week end with her parents, Mr and Mrs Jas. Eldon.

Rev. and Mrs Wiesel of Durham, visited this week among the parishioners of St Paul's church.

SOUTH BEND

Mrs Kelly returned home last week after spending a couple of weeks with friends near Wingham.

Mr and Mrs B. F. Sharp returned home last Thursday after a two month's visit with relatives in the West and United States. They had a pleasant trip and enjoyed every minute of the time.

We are glad to know that Miss Ruth Eurig after much delay, has been transferred from Stratford to Toronto Normal. We hope she may continue her studies without any further interruption.

Miss Marie Cowan entertained the Letter Breen choir last Friday evening and a most enjoyable time was spent, chiefly musical.

Cutie a number from around here are suffering from a severe cold. We hope the flu doesn't start up again. The recent snow and fine rains have made the ground good for plowing.

The W. M. S. of Letter Breen met at Miss Rawns this week and a goodly number turned out and a fine meeting was the result. Part of the program was "Missionary Pioneers" and the "Poetry of the Psalms." Miss Cameron gave the first chapter of the new study book for this year, "The Pioneers of Canada." It is going to be fine and very interesting.

Mr Murray Lamont of town, is calling on old friends around here this week.

Dr. Marsh Busy in Bermuda

Plans an Extended Trip

Rev. Dr. Marsh, former pastor of Holstein and Fairbairn congregations, has recently written his cousin, Mrs. G. Martindale in Owen Sound, telling of his work in connection with the building of an observatory in Bermuda and also mentions a trip he proposes to take in the early part of 1924.

Dr. Marsh who has spent 3 years in that far-off island of the Atlantic ocean, a thousand miles from the shores of the United States, has been pushing one project very hard—the construction of an observatory on the Island. The proposal was considered by the Bermuda Parliament and Dr. Marsh was made spokesman of an unofficial committee which waited on the Governor and explained the advantages to be derived from such a project. The value of an observatory in Bermuda lay in the fact that it would ensure the daily broadcast of weather conditions. Dr. Marsh has carried on a great deal of scientific research work in the past.

Dr. Marsh expects to sail from Hamilton, Bermuda, on Jan. 8th, 1924 for Trinidad, British Guiana, and other points in South America. He will go up the great river Amazon and also the Orinoco and visit the Canadian Missions down there. Dr. Marsh is preaching for a month at San Fernando, the Eastern Island Mission. The friends of Dr. Marsh in this district will be glad to hear that he is well and is making a success of his chosen vocation.—SunTimes.

NOTICE

The Holstein Livestock Shipping Association has been re-organized and will commence shipping on Tuesday, Oct. 23rd, and on following Tuesdays, as can be arranged. Any one having stock, hogs or lambs especially please notify

ANDREW HUNTER, Shipper

NOTICE

NOTICE: Came to my premises last week in August, a red steered, horned, ring two, with a white spot on face and a few spots about flank and back legs. Owner can have same by proving property and paying expenses.

A BEAUTIFUL PICTURE
It is announced by the Family Herald and Weekly Star of Montreal that each subscriber, new and renewal, who acts quickly, may obtain a beautiful picture of a wonderful woman whose life story reveals character after chapter of amazing heroism, extraordinary fortitude and almost miraculous achievements. The story of "The Wonderful Heroine" can also be obtained cost free by sending a post card to the Family Herald and Weekly star of Montreal.

BUMPS AT RAIL CROSSINGS

Here is a simple and cheap way to reduce, if not prevent, collisions between trains and motor cars. In the road at every grade crossing place a series of bumps of "thank you mam" so severe as to compel a vehicle to stop before it reaches the track, and milder warning bumps, a sufficient distance away. All drivers who know that such a device is ahead of them will slow down, unless drunk or crazy. For those there is no remedy but to disable the car.

FARM FOR SALE

200 acres good clay loam, lots 7 and 8, con. 13, Egremont, 2 1/2 miles from Holstein, near school. Bank Barn 50 x 60, cement stables, frame house, drilled well, well fenced. Apply to Mrs. John Reid, or Fleming Reid R. R. No. 1, Holstein

Local Merchants Act in the Open

The Review has been advising its readers at frequent intervals to Buy at Home and this applies to every nearby village which the Review respects. We are especially pleased at some of the letters we have received on this subject, and as we firmly believe there is still a great deal to be done, we are so enthusiastic about this subject of buying-at-home, that we do not intend to stop advising our readers to do so, until the amount of money sent every week to the mail-ordered houses has been reduced considerably from what it still is.

One of the stock excuses of the man who orders goods from a mail order house is that there are many local merchants who he wants to get stock, and that it does not carry stock, and that it is necessary for him to send away from town to get them.

This explanation may be all right on the theory that a poor excuse is better than none, but it fails to take into account the fact that a little mustering when it is subjected to a little scrutiny.

Ask the man who offers this as an excuse for his dealings with the mail ordered man, why he does not go to the local merchant and ask him to put the articles desired if they are not to be found in the merchant's stock. The merchant will very gladly do this, and the merchant will very gladly do this, whatever you desire at as low a price as the mail order house can make you on goods the same quality and he can make a small profit.

The customer will profit by the transaction, because he will be dealing with a merchant who stands back of the goods that he sells and who is easily accessible in case the articles purchased do not prove to be all that the customer has expected.

Why not try this plan the next time you need something which you cannot find in any of the average sized town all over the country? The merchant in stock everything that all of the people in his town may want at all times. It would require a capital many times larger than the average merchant can carry to do this, but he does the best he can. He ordinarily does carry in stock at all times the greatest possible degree, but there is a limit to his purchasing ability. He is always ready to do his best to meet the demands of the community. Why not then, give him the preference over the far distant mail order man if you must have something which is not to be found in the local stock? The merchant, give you a quick, if not quicker service and more satisfactory treatment, and the chances are that he will give you better values for the money. Finally whatever profit is to be made off the transaction will stay at home and do his bit toward making the merchant and his town and incidentally yourself, more prosperous.

The man who sells goods over the counter, on the other hand, does business in the open. He cannot hide behind a corporate name of talk to a displaced customer from his office. He locked doors of a private office. He knows that he must face the music in case he is a party to any transaction that will not stand the light of day. He knows that he must satisfy every customer with whom he may be dealing, or he will lose not only that customer but probably others who will soon know all the facts if he does not do the square thing by any one of his patrons.

Car Overturned near Palmerston. Durham Ladies Injured

(Upon request of Mr. Arthur Ritchie, the Review refrained last week from mentioning the car accident, in which his wife was driver. Other papers however gave it publicity, and Mrs. Ritchie this week handed us the following authentic account of the mishap.—Ed.)
Mrs. Arthur Ritchie accompanied by five other Durham ladies, motored to St. Marys on Saturday, Oct. 27th, spending Sunday with relatives there. Mrs. Andrew Ritchie who accompanied them, remained with her daughter there Mrs. J. Vessie. The other ladies made their return trip Sunday afternoon and all went well until within 1 1/2 miles of Palmerston, when the car upset into a ditch when turning a sharp corner, pinning all underneath the car. In the back seat were Mrs. Wm. Vessie, broken ribs and badly shaken up. Orna Burnett, daughter of Mrs. Geo. Burnett, being in the centre, escaped without even a scratch. Mrs. Arthur Ritchie and Mrs. Geo. Burnett occupying the front seat, received several cuts about the arms and limbs and were badly shaken up. Mrs. Ritchie, by blowing the horn, brought Mr. Hamilton of Palmerston to their assistance and he quickly rendered aid and soon had Mrs. Burnett and Mrs. Ritchie out from the car. With the help of others arriving, the car was raised and the other ladies released, after which they were taken to Dr. Collins' of Palmerston for attention. Mrs. Ritchie on receiving aid, had the car brought to Palmerston and the ladies home that night. At time of writing all are getting along nicely. Smith Bros. took the car in charge and now have it in running order. Mrs. Ritchie and Mrs. Burnett wish to thank the Palmerston citizens who showed kindness in assisting them, especially Dr. and Mrs. Collins, also Mr. Geo. Moorhead who accompanied them home.

How the local News paper Functions

A very wise and successful public man once remarked in tendering advice to a young aspirant for public favor, "Don't get in wrong with the newspapers. You may think you can fight them, but it is surprisingly effective coming back that the newspapers have made and broken many public men." The important question is, "What is meant by getting in wrong with the newspapers?" No editor worthy of the name will attack a man because of personal animosity or on trivial pretext. The public man must have done something to get in wrong with the newspaper, and when he does he probably deserves all that is coming to him. Newspapers have brought many worthy men into prominence who otherwise would never have been heard of, and when they are for sale, and when boosting articles appear, they are usually placed alongside with advertising matter.

A good and worthy man has been frequently helped by an unwarranted attack of a partisan newspaper, but generally speaking the advantage is with the newspaper. The better way for a man who wants the help of a newspaper is for him to go to the editor and have a heart-to-heart talk with him. If a newspaper attacks a man unjustly, and that man will lay his case before the editor, the chances are that the newspaper will be fair enough and manly to retract its unjustified attack. There are many, however who think they can successfully overcome the fair criticism of a newspaper, but they find out in the end that a well conducted and generally fair newspaper has an influence on the public mind that is not easy to overcome and should not be trifled with.—Winchester Press.

BETTER TIMES ON THE FARMS

Farmers in many sections still complain of low prices for their products, while everything else they have to buy sells high. But people who sell farm property now are likely to be working around more favorably. The politicians have been taught by recent events that they must provide a reasonable opportunity for rural industry. The farmer is as entitled to good pay as the city worker earns, plus interest on his investment. Anyone who manages a farm skillfully should earn more, since such operation calls for more planning, more intelligence and more sustained industry than the ordinary city worker has to show. Tremendous gains have been made in scientific farm production. When equal efficiency is attained in marketing and distribution of crops, the farmer will have a position like that enjoyed by other business men.

FOR SALE

Outcome of a Midway Day. A very nice young giant, son of Albert Meakin, an employed on a farm, got next to a jar of the Wallington Time-biting more poisonous than a viper, visited a dame in Midway day night week, and she closed up on the country, swagging their lady, like a garden gate. A mid-shop couldn't have more worse, and while women slapped their partners, and made them in some, than a merry-go-round, ting from the surprise and with the dancing pumps for battle, and attacking in a phloxia, the fur flew thick and fast. Although in a scrap seemed about home as a squirrel in a yet as time wore on it was he had taken two big Borne down by the sun. He was sent to the floor walkers who had they could now have crushed a steam roller going on cheese. The village arrived, and with the aid of the stout men, carried into a car and placed in the town lock. The following morning stable blood secreted, presence of Magistrate, he pleaded guilty to be public place and was in costs for the jug, while the cheerfulness of a or a Sunny Jim.
