Annual U. F. O. Convention

Of great interest to the farming community is the Convention to be held in Toronto next month.

There are, says a report, no fewer than forty four resolutions to come before the body, quite a number of which are controversial and likely to furnish interesting debates.

One sent in is by Allan Lindsay of Kars Club and is "That politics be completely banished from the U. F. O. Clubs of the Province."

Another by Jas. Kane of Westport, sets forth "That the U. F. O. go out of politics and that the Central Executive of the U. F. O. take no active part in political affairs."

Mrs. D. C. McKinnon, Allanford, moves that it be "Resolved that the organizations in each riding remain as they are and that the leader of the Farmers' group in the Legislature be chosen from the elected members."

Joseph Sharp, Halleybury, has one as follows: "Whereas this Convention is fully convinced that the U. F. O. in each electoral riding should be entirely free to decide on the lines of its own political action."

And whereas it is certain that points will arise on which different ridings will follow different lines of political action:

And whereas since Head Office officials are the servants of the U. F. O. in all the Ridings, it would be unseemly for them to side with one riding against another:

Therefore be it resolved that the U. F. O. Head Office officials take no side in the discussion of political questions and that a clause to this effect be inserted in our Constitution."

Cecil L. Gott of Bolton, favors a new organization and round his presentment will no doubt cluster many hot arguments, pro and con. It is as follows:

"Whereas we, the United Farmers of Ontario have recognized the utility of the traditional political parties of our province, and have steadfastly adhered to the principle of endeavoring to elect representatives of the people free from the entanglements of partisanship:

"And whereas the extreme application of constituency autonomy tends towards isolation and its attendant ineffectiveness:

"Therefore be it resolved that we, in Convention assembled, hereby urge that steps be taken to solidify the independence of thought which our movement has fostered and secure concerted action by means of a province-wide political organization closely affiliated with the U. F. O."

Another resolution wants the question of "Broadening out settled ones and for all. Another one doesn't like Mr Drury's broadening out plan, nor does it want him to be leader in

the next House. Another one thinks there has been discrimination in Hydro distribution against the rural districts and wants very strongly Hydro extension to the rural people as rapidly as possible, and at a rate within the reach of Agriculturists."

Another protests against the immigration policy of the government, another condemns the practice of some clubs of "buying and selling outside our own Company." One wants the rural credit scheme enlarged; one thinks the County Road Commissions should be dispensed with.

These and many others will furnish material for brisk sessions and it can easily be seen that the main theme round which oratory will surge will be the different ideals of Drury and Morrison.

Rural Road Burdens Need Equalizing

The Review more than once has referred to the injustice placed on certain districts by the government in exacting full license fees for motor cars in districts where owing to weather and other conditions, they can be used for only from three to five months in the year.

It should be quite practicable to give a graded reduction at the beginning of the year. Full fees should be exacted for licenses taken out in January, an equitable reduction made for licenses taken out in February and corresponding reductions made in March, April and May.

The rural man in the northern districts, impeded for three months anyway and some times more by snow, is entitled to this consideration, and if he be a farmer, seeding operations keep him busy on the land for a month or six weeks more, the while his more southern neighbor can cavort over the roads the farmer is paying for.

We think the press in the northern parts of the Province should unite in urging this measure of justice.

The Sun, dealing with injustices to the rural taxpayer, has the following: "Short of a practicable system of basing motor taxation on weight and mileage travelled, there seems to be no satisfactory method of adjusting road taxation equitably. An attempt can and should be made, however, to make such adjustments as will give a substantial measure of fairness."

The system of distributing costs, now followed certainly does not give it. The farmer who is barred from using his car during the winter and early spring months because of the impassability of the roads and who is able to do little extended driving during the busy summer months, pays just as much for his license as the urban car owner who drives over the highways more frequently, for longer distances and over a much longer period. He pays almost as much as the heavy truck that adds so tremendously to maintenance costs. If the comparison were here it would be striking enough, but in addition to this contribution through his license fee and to the Provincial highway the farmer must also carry burdens for improvement of county and township roads as well, all of which the urban motorist uses.

With the increase in the number of motor cars in the Province, we are approaching a time when our roads will exist almost entirely for the use of motor cars, a time, when as a matter of justice, the cost of building and maintaining the roads must be placed upon those who use them. We have not reached that point yet, but we have reached the point where the use of Provincial highways by horse drawn vehicles is more than balanced by the contribution which the general rural taxpayer is making to motor car users in keeping up his local roads."

Another resolution wants the question of "Broadening out settled ones and for all. Another one doesn't like Mr Drury's broadening out plan, nor does it want him to be leader in

the next House. Another one thinks there has been discrimination in Hydro distribution against the rural districts and wants very strongly Hydro extension to the rural people as rapidly as possible, and at a rate within the reach of Agriculturists."

Another protests against the immigration policy of the government, another condemns the practice of some clubs of "buying and selling outside our own Company." One wants the rural credit scheme enlarged; one thinks the County Road Commissions should be dispensed with.

These and many others will furnish material for brisk sessions and it can easily be seen that the main theme round which oratory will surge will be the different ideals of Drury and Morrison.

China Ware Clay Available in Durham

Toronto Saturday Night, a well known Toronto weekly, stated recently no table ware was made in Canada. Mr Thompson Black of Oshawa, of the Ontario Pottery Co. writes a letter taking exception to the statement which Saturday Night publishes. It also publishes as cognate matter, a letter of Mr Gilbert McKechnie, Durham, written on Nov. 6th which is as follows:

"In your issue of 27th Oct. you state that Bush and Co. have obtained a charter for the purpose of manufacturing china tableware, of which there are none manufactured in Canada, that the clay they will use for that purpose will be clay imported from England, that the factory will be located at the town of Port Hope, a place well located for that purpose and it is certainly gratifying to the citizens of that town to be the first to embark in such an enterprise as the manufacture of china tableware. But why Bush Co. are going to import their raw material from such a long distance from their works is a conundrum to me, as their naturally will be very materially to the cost of the finished product. Canada with its legion (plurality) of clays, and they are legion, ought to be able to furnish the proper clay, thereby reducing the cost to a minimum and many Canadian clays are now manufactured into wares of various kinds and although for the present there may be no competition emanating from home Canadian clays, yet the time may not be far distant when Canada will come to the front as in other matters."

"Throughout this district considerable investigation has been for some time going on appertaining to clay, rock, sand and gravel with a view of finding out what those materials could be manufactured into but especially to find out if we have the right material suitable for the manufacture of china tableware and how convenient it might be to market. We have those different classes of minerals enumerated in abundance and the time may not be far distant when they may be utilized in the manner indicated, and made into the proper materials designed by nature in Durham."

"Gravel and rock are ground up to various degrees of fineness and marketed throughout the Province, one class of clay comprises 50 per cent lime, 25 per cent alumina and 10 per cent magnesia and the balance moisture and foreign matters."

"Another quality of clay contains no lime but 69 per cent silica, 20 per cent alumina, 3 per cent magnesia and 8 per cent moisture and loss."

"This last class of clay will be nearest the mark of what would be required for the manufacture of chinaware and would be what is required for the manufacture of all kinds of glassware."

"But in connection with chinaware there is one class of material that we have not got and in connection with the manufacture of chinaware is required. What is lacking is white clay known as Kaolin or white sand, and if those are comprised of lime, then a substitute might be found as we have numerous beds of white marl."

"And if Bush Co. require any of the minerals above cited then we will be glad to supply them with same."

Rocky Saugeen

The U. F. O. Club meets in the school on Friday night of this week. After the business part the young people will hold a debate, "Resolved that a car is of more use than the telephone."

At the close a social hour will be spent. Mr W Williams, Toronto, spent a couple of days with Mr and Mrs Jas. Lawrence recently.

Mr and Mrs Jack Caswell were recent visitors with her parents, Mr and Mrs Robt. Webber.

The Sunday School closed for this year on Sunday last.

Mr and Mrs A. Crutchley and Mr and Mrs R. Lawson, were guests of Miss McPhail, M.P. last Saturday afternoon.

Mr Jack Grady got a fine pile of wood cut with Mr Campbell Dunsmoor's outfit.

Mr and Mrs Nell McLean spent Sunday afternoon with Mr and Mrs A. McDonald of Darkies' Corners.

Mrs Nell Livingstone and son Lorne, of Glascoot, were visitors with her sister, Mrs L. McLean, the first of the week.

Mr and Mrs John McKechnie and daughter of Glenora, also Mr and Mrs Jas Ewen and family of Aberdeen, spent a day this week with Mr and Mrs Walter Clark.

Mr and Mrs D. Lamb spent Sunday with Mr and Mrs Neil McLean (Glen). Congratulations to Mr and Mrs S. Ludwick of Cleveland on the arrival of a daughter Nov. 11th. (Mrs Ludwick was formerly Miss Mabel Smith).

Messrs Alvin Caswell and J. S. Davy spent a day recently with friends in Kincardine.

Mr and Mrs Fletcher McLean of Holstein spent the week end with his parents, Mr and Mrs Hugh McLean.

Mr James Macdonald spent a few days last week with friends in Proton.

Mr Jack McDonald and his mother accompanied by Mr and Mrs Douglas Clark made a business trip to Owen Sound last Thursday.

Miss Mary McCracken returned home after spending a week with friends in Toronto.

Mr and Mrs Wm. Hennes of Crawford spent a day last week with their daughter, Mrs Hugh Macdonald.

Councillor Mather had a gang of men and teams for a few days last week filling in at the north end of the bridge.

Mr and Mrs Wm. Torry spent the Sunday before last with Mr and Mrs Chas. Reay.

Mr Thos. H. Lawrence spent a few days last week with his son Chas. at Grimsby.

Miss Reta Bailey returned to Toronto Normal School after spending a few days with her parents here.

Mr and Mrs Wm. Brown of Hanover, visited recently with their daughter, Mrs Joseph Reay.

Mr Cecil Noble, Mulock, spent Sunday with friends here.

Mr and Mrs Wm Willis and Miss Blanche Stumpston visited recently with Mr and Mrs A. H. Park.

Mr Rex and Miss Annie Lawrence spent Sunday with their sister, Mrs Newton Phillips of Park Road.

Rev. W. H. Smith made pastoral calls in this vicinity last Thursday.

Mr John W. Petty is spending a few weeks in Guelph.

Mr and Mrs John Caswell of the Rocky Saugeen visited with Mr and Mrs Robt. Webber the beginning of last week.

Miss Agnes Petty was home from Toronto over the Thanksgiving holiday.

Miss Barbara Knisley has been nursing in the vicinity of Clifford for the past two weeks.

Miss Barbara Ritchie of Wingham, spent the holiday at the parental home.

Mr. Farmer, if you are considering selling all or only part of your livestock this winter, the Review will give it that publicity that will enable you to realize larger prices. An advertisement inserted for a week or two, will dispose of your wants for you.

A Trip to the Battlegrounds

Next to taking a trip to Europe yourself, go and hear Frank Yeigh and see his pictures. A good audience greeted him in the Presbyterian church, Monday night last, and for nearly two hours there was spread on the screen a unique series of views.

Carrying out the idea of a trip, he began in Canada, showing scenes in Ottawa, Parliament Buildings, etc., then down views of St. Lawrence to Montreal, giving views of its harbor, bridges and industrial features. A particularly fine pair of views were those of Quebec Bridge, ready for the last span and completed. Leaving the ancient city we enter the Gulf, sail the Straits of Belle Isle, have a fine view of an ice berg and in due time reach Liverpool and London. Historic spots like St Paul's Cathedral, Westminster Abbey, the Tower, Hyde Park, Parliament Buildings, Trafalgar Square, the markets and much besides were passed in review, and again we take to the water and crossing the Channel, find ourselves in France.

Pictures of war devastations were shown, some of them twin pictures taken from the same spot or of the same building, before and after the destroyer had brought ruin. Moments and mementoes to the dead of the soil of France on Vimy Heights always appeal to Canadians, and these were shown and accompanied by sympathetic descriptions and observations by a Canadian, such as Mr. Yeigh, made them doubly interesting. Back to England again and after a swift run through historic castles, cathedrals, etc., an introduction to the Prince of Wales and a finale of God Save the King, the trip was over, long to be remembered.

Mr. Yeigh came under the auspices of the Young Women's Auxiliary of the Presbyterian church and they will clear as a result of this lecture nearly \$60.

Mr and Mrs Robt. Barber spent part of last week with Dr. Campbell.

Mr and Mrs John Arnott of town spent Thanksgiving Day with his brother, Mr Wes Arnott.

Mr Ranton of Stratford spent over the holiday with Mr and Mrs Arch. Park.

Mrs Wm Weir Jr and her mother, Mrs Dixon, have spent a few days with her son Mr Joe Dixon.

Mr and Mrs S. McDonald of Bromm, have moved to the Alexander farm. We welcome Mr and Mrs McDonald to this neighborhood.

Mr and Mrs John McLean and family of Shelburne, spent Wednesday last with her brother, Mr J. McGirr.

Mr and Mrs D. Hamilton and son John, spent Sunday last with their daughter, Mrs Murray Ritchie at the Rocky.

Miss Eliza Patterson has gone to Toronto where she expects to remain for the winter months. Her father, Mr Sam Patterson accompanied her and will take in the Royal Winter Fair.

On Wednesday night last a miscellaneous shower was held at the home of Mrs Robt. Bell in honor of her daughter Jessie who was recently married to Mr Lawrence Chapman. Mr Robt. McFadden, acted as chairman and with a few brief remarks, called upon Miss Mary Whitmore to read the address. At the appointed time Misses Mary Bell and Grace Lindsay came forward and presented them with useful and beautiful presents. Mr Chapman, on behalf of Mrs Chapman, thanked them for the many kindnesses received. The remainder of the evening was spent in dancing and card playing.

Mrs Arnott of Maxwell, visited with her cousin, Mr Wes Arnott recently.

L.O.L. No 1192 held their regular meeting on Monday night. After the general routine business the officers were elected for the coming year and are: W. M., Thos Whitmore; D. M., Reuben Watson; Chas. Whitmore; Rec. Sec'y, Geo Bell; Fin. Sec'y, L. McFadden; Treasurer, George Hopkins; Marshal, John Andrews; 1st Lect., N. Whitmore; 2nd Lect., Thos Bell; Tyler, W. Hewitt. The officers will be installed at the next regular meeting on Dec 17th. At the close lunch will be served and a few hours spent in amusements. A cordial invitation is extended to members of other lodges to come and spend an evening with us.

Mr Wm. Lawrence had his tonsils removed last week by Dr's Burdett Owen Osund and Smith of Durham. We are pleased to know he is able to be around again.

Mr John Lawrence's new barn is now completed and ready for his stock. Messrs Ben Sharp and A. McClocklin of town engineered the carpenter work and with the help of Mr Lawrence's friends, the barn was done in a week.

The National Sanitarium Association is to be congratulated on the handsome Christmas Seals now on sale in aid of the Muskoka Hospital for Consumptives.

To meet persistent demand for a real Christmas Seal, not merely an advertising sticker, quite a new design has been made this year, in designs, each printed in ten different assortments. The seals are all very attractive.

The Hospital is in need of funds to carry on its work. Why not buy these seals in lieu of others? Not only will you get good value in return, but your money will be made to serve a greater end, for it will go to help someone in distress.

For sale by school children, Bankers, or direct from Xmas Seal Department, Gage Institute, Toronto, Ont.

Exceptional Kills in Quebec and Ontario

1. A good bag from Northern Ontario hunting grounds. 2. The head of the bull which answers the guide's call.

Paget (for the Trout Lake Country), Lake Penage, Massey, Blind River, Thessalon, Desbarats, Mattawa, North Bay, Sturgeon Falls and Carleton are well favored. Moose are plentiful in Ontario in the country along the main line of the Canadian Pacific from Sudbury to the Manitoba boundary, especially near Meta gama, Biscotasing, Chapleau, Missanabic, Franz, Jack Fish, Schreiber, Rossport, Nipigon, Savanne, Ignace, Dinorwic, Wabigoon, and Kenora, and in Quebec, in the St. Maurice, Lake Edward, Lake Megantic, Maniwaki, Timiskaming and Kipawa districts.

WITH the coming of the frost and the "Moon of the Falling Leaf" comes also the hunting season for caribou, moose and deer. For the past ten months, thousands of sportsmen have been longing for the return of the season. And today the season in Quebec, Ontario, New Brunswick, Nova Scotia, Alberta and British Columbia is in full swing. Once more the naked woods are echoing with the crack of the hunter's rifle and the red blood of Canada and the United States is pitting itself against the monarchs of our native wilds. In Quebec, good chances for deer are reported from Lake Megantic, the Laurentians
