Insobriety in Toronto Great

In the issue of Christian Guardian, dated Nov 14th, the declaration is made that for some months past there has been a noticeable increase of drunkeness in the city of Toronto.

We ourselves," says the Guardian, have seen more persons under the influence of drink on the streets of this city within the last three months than in the previous two or three years, and we have heard a similar testimony from other observers. We can hardly believe that this is merely acidental: but how far it may be symptomatic of a growing laxity of temperance law enforcement throughout the Province we have no means of knowing."

After stating there would be grounds for the suspicion that there was a "concerted plot first of all to bring discredit upon the Ontario Tempercure its repeal." The Guardian says v shape on face and a few spots provide a place for holding nomina-"The action of B. Columbia, Quebec, about flank and back legs. Pigs should be given free access

Mix all the dry material together

Farm Bookkeeping. Two dairy farms were selected for a study of the cost of producing milk. weight of milk; on the other farm the cost was \$6 per hundredweight. If both these farms were selling nilk at \$2.50 per hundredweight,

what would you say about the comparative prosperity of the two farms? It is quite usual to see two farms side by side, one of which appears prosperous while the other seems to be slowl, going down. It doesn't mean that one farmer is a worker while the other is lazy, not at all. We have all seen hard-working farmers We explain it by saying he had poor

educated. It is a matter of money among a dozen and yet keeping it all price received are more than mere items of curiosity to be remembered ed with serial stories, short stories. Really there is no excuse for a

roadside or the tumbling of fences. Roughage-Bave It Good.

costs. And it should be considered

as much of a sign of poor farming

as the growth of weeds along the

A good cow must be capable of handling large amounts of roughage, Provided with plenty of high quality forage she will produce much more economically than when fed grain to balance poor hay and stover. Silage added to a ration has been found to reduce the cost of producing

to seventy-five cents. In an American

experiment, twelve cows were divided

into two groups. One group received con. 22, Egremont. Apply to Mrs. same roughage allowance with grain in addition. The second group produced more milk but the first one did very well and easily excelled the first from the standpoint of economical production. These facts are not meant to indicate that it does not pay to feed

grain but to show the importance of

plenty of good roughage.

The World's Biggest Hog. New Zealand has produced the biggest hog on record. "Billy, the World's Wonder Pig," as the animal is advertized, is a two-year-old Tamworth-Berkshire cross, weight, 1,058 pounds; height, 3 feet 9 inches; length, 8 feet 9 inches; girth, 6 feet, and he is still growing.

Keep those lambs a-coming. Feed the ewes something to make milk.
