

EXPECT HEAVIER SUMMER TRAFFIC

ATLANTIC LINERS ANTICIPATE BUSY SEASON.

British Empire Exhibition Opening in May at Wembley Will Attract Thousands of Tourists.

Atlantic steamship lines are anticipating an important increase in overseas travel during the spring and summer months as a result of the British Empire Exhibition at Wembley, near London, which will be open from the 1st of May to the end of October.

This attraction is expected to bring thousands of people of British stock from all quarters of the world to the mother country. Many will visit their friends and relations in various parts of the United Kingdom in addition to seeing the exhibition.

Bring Colonies Closer.

The British Empire Exhibition, which will represent an expenditure of almost \$50,000,000, is intended to bring the dominions into closer touch and to develop trade among the constituent countries of the empire. Every continent, important island and group of islands included in the British Empire will be represented with every aspect of life, civilized and uncivilized. All the British colonies have taken keen interest in the enterprise.

The exhibition grounds at Wembley have an area of over 216 acres. An effort has been made to embody the climatic or historic aspects of the various British colonies in their respective buildings. The exhibits from India, for instance, will be installed in a reproduction of the Taj-Mahal at Agra, a masterpiece of Oriental architecture. East Africa will be represented by a typical rajah's palace. Several acres will be devoted to West African villages, surrounded by reproductions of barbaric mud walls. Complete communities of natives will be housed in these villages. The Ceylon pavilion will be a copy of the Sacred Tooth Temple at Kandi and will adjoin a Cingalese tea garden. Hongkong will be represented by a street giving an idea of that distant colony, with native shops and a typical Chinese restaurant. Canada, Australia, New Zealand, South Africa, Bermuda, the West Indies, Malaya and other colonies will be represented by buildings of equally attractive designs.

Other features of the exhibition will include palaces of engineering, industry and art, also a stadium seating 125,000, where a number of athletic contests will take place. In the stadium will be staged the "Pageant of Empire," the libretto of which is being written by Rudyard Kipling. A large auditorium for public meetings has been erected, and here will be held the International Advertising Convention. There will also be a mammoth reproduction of a coal mine and an exact reproduction of Tutankhamen's tomb at Luxor, constructed under the direction of a distinguished Egyptologist.

Much space will be devoted to a mammoth amusement park with a thousand side shows. In a huge concert hall a series of concerts will take place with more than 10,000 voices, accompanied by an orchestra of 500 instruments. Daily concerts by the best British and colonial bands will be given.

Trees as Water Tanks.

There are many ways of storing water, but the natural cisterns of the natives of Darfur west of the Sudan seem to be the most wonderful.

But for the terebinth tree, Darfurites would perish from drought. These great trees grow in hollows, in which the rain collects during the wet season, which lasts all through July and August.

The enormous trunks are hollow. As soon as the rain begins the natives gather up the water in leather bags. An expert climber goes up the tree with a rope to which is attached the precious bag; he hangs it up with care, and empties the water into the hollow trunk. The hollowness is not the result of age or disease, and the surrounding wood is absolutely water-tight.

Each little group of "tukis" (huts) possesses its own tree. And on their contents the people live throughout the ten dry months.

The terebinth tree is a fruitful source of trouble. Many tribal fights are waged solely because a man from one village is believed to have been seen climbing the trees of another. The trees belonging to a village of group of "tukis" are not public property for the dwellers in that group. The Sheikh and his family have the first claim on the water, and their share is claimed to a decimal point. Another man may have a family claim, going back through several generations, to a certain proportion.

Get to Work.

"An' what's your job around here, young fellow?" asked the farmer of an official in a big city railroad station.

"I'm the train caller," answered that dignitary.

"Well, call me one, then. I'm in a hurry."

Shelley's "Ozymandias of Egypt."

The name of Percy Bysshe Shelley is one of the greatest in English literature. His finest works are "The Cenci" and "Prometheus Unbound," but the best known are his "Ode to a Skylark" and "Ode to the West Wind."

Shelley was drowned while yachting in the Gulf of Spezia. His body was washed ashore a fortnight later, and, in accordance with the quarantine laws of Italy, burnt on a pyre in the presence of Byron, Leigh Hunt, and Trevelyan.

The following is one of the finest sonnets in the language, and to-day has peculiar interest:

I met a traveller from an antique land
Who said: "Two vast and trunkless legs of stone
Stand in the desert. Near them on the sand,
Half sunk, a shattered visage lies,
Whose frown
And wrinkled lip and sneer of cold command
Tell that its sculptor well those passions read
Which yet survive, stamped on these lifeless things,
The hand that mocked them and the heart that fed,
And on the pedestal these words appear:
"My name is Ozymandias, king of kings:
Look on my works, ye mighty, and despair!"
Nothing beside remains. Round the decay
Of that colossal wreck, boundless and bare,
The lone and level sands stretch far away."

RHEUMATIC PEOPLE CAN FIND RELIEF

By Enriching Their Blood With Dr. Williams' Pink Pills.

Rheumatism attacks people when the blood is clogged with impurities, thus setting up an inflammation of the muscles and joints. Cold or wet weather may start the tortures of rheumatism, but it is not the cause, as was once supposed. The cause is thin or impure blood. Rubbing with liniments or applying hot applications may give relief, but that is all; the pain is soon back again. You must treat the trouble through the blood to get rid of it.

The value of Dr. Williams' Pink Pills in cases of this kind is proved by the following statement. Miss Margaret M. Cullen, writing on behalf of her grandmother, Mrs. A. McEwen, Ormstown, Que., says: "My grandmother, now 85 years of age, was some years ago, a great sufferer from rheumatism. She tried many remedies, but found none that did her any good until she began using Dr. Williams' Pink Pills. These she used for some months until every trace of rheumatism disappeared. Since then she has taken the pills at intervals, and they have kept her in the best of health. It is marvellous how well and active my grandmother is. She cooked the dinner for the threshers last fall, and she gives the credit for her good health to Dr. Williams' Pink Pills. She is anxious that her experience with this splendid medicine be given for the benefit of others."

If you are suffering from any trouble due to poor or watery blood Dr. Williams' Pink Pills will help you. Sold by medicine dealers everywhere, or sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

No Man's Island.

A house, consisting of one room, which stands in two states, three counties, and four towns at one and the same time is the proud possession of a dance-hall proprietor in the U.S.A. This unique building stands on a tiny island on the borders of Vermont and New Hampshire.

Although the building was once used as a dwelling-house, it is now given up entirely to dancing. Standing in the middle of the dance floor, the visitor finds himself in nine different places at once. Beneath his feet is the meeting point of the boundaries of the two states, of the counties of Grafton, Caledonia and Orange, and of four towns, Rye, Vergennes, Bath, and Haverhill.

Locally the place is known as "No Man's Land," and is very popular as a summer dancing pavilion. But the river is slowly eating its way into the centre of the little island, and it seems likely that before long it will bore a way right through both inlet and house. Meantime, the proprietor thanks his lucky stars that only one of the towns, Haverhill, sends along the tax collector.

Small minds are captivated by trifles.

Every man's face is the ledger of his good and of his evil accounts.

HERE'S WHAT PEOPLE SAY ABOUT TANLAC

"If it had not been for Tanlac I would still be a sick, discouraged woman, for nothing else seemed to do me any good," says Mrs. Edward Gibbs.

All the advertising in the world and all the sales efforts combined could not have made the great success for TANLAC that has been attained, unless this reconstructive, tonic possessed merit of the greatest degree. Over 40 Million Bottles of Tanlac have been sold and the demand to-day is greater than ever before.

That TANLAC possesses merit and has brought relief to hundreds of thousands of persons is attested by the great number of testimonials that have been received by the company from people in every state of the Union and every province of Canada. There are over 100,000 such statements on file with the company, all ringing with sincere praise for TANLAC and what it has accomplished.

Here are excerpts from a few of the 100,000 statements on file:

Mrs. Edward Gibbs, Lancaster, Pa.—"For 2 years indigestion deprived me of nearly all the pleasure of living. It had not been for TANLAC I would still be a sick and discouraged woman, for nothing else seemed to do me any good."

Mrs. Mary A. Benson, Seattle, Wash.—"Following an operation my stomach and nerves seemed to give way and I became almost helpless. As a last resort I tried TANLAC. I began to im-

prove from the very first, gained 25 lbs., and to-day am feeling fine."

O. E. Moore, Kansas City, Mo.—"My stomach seemed to pain me constantly, food seemed to do me no good, I would bloat up with gas, lost my strength, and could not sleep or rest. I was on the down-grade all the time. Tanlac corrected my troubles and put me in excellent shape."

Thomas Lucas, Peterboro, Ontario: "Well, sir, buying TANLAC was the best investment I ever made, for it built up my health and strength to where I haven't a complaint in the world."

Mr. and Mrs. Joseph E. Kaske, Detroit, Mich.: "For more than a year our three children, age 2, 4 and 6, had been so peaked and lifeless that we were worried about them. Their stomachs were upset, appetites poor, the color had left their cheeks, their nights were restless and during the day they would just mope around, taking no interest in play or anything else. They began to improve with the first dose of TANLAC, and to-day there are no more healthy children in Detroit."

Tanlac is for sale by all good druggists. Over 40 million bottles sold. Accept no substitute.

SKINNER

Racial Origin—English. Source—An occupation.

There is a wealth of knowledge to be gained through a study of nomenclature of the industrial as well as of the social conditions in England during the Middle Ages.

Virtually every occupation of any importance in that period has been preserved to us in one or more family names, and if you find an occupation or profession which has not so been commemorated, it is only because the occupation did not exist at the period of family name formation, or because it is known to-day by a comparatively modern term. Thus we have no family names "Doctor" or "Physician," though we do have "Leech." We have no family name "Automanufacturer," though we have "Cartwright."

Tanning and leathermaking, however, were among the most important industries of Medieval England, like the various branches of the textile industry, particularly those handling woolen fabrics.

"Le Skynner" ("the skinner") was quite naturally the surname most often conferred by his neighbors on the man who made his living by stripping skins from the carcasses of animals.

Another man who remembered the sovereign in his will was Sir Ernest Cassel, who, on his death in 1921, left property to the value of thirty million dollars. His London residence, Brook House, Park Lane, may one day become a home of the Royal Family, for Sir Ernest directed that in the event of the death without issue of his daughter, the house and its contents should be offered as a gift to the then reigning sovereign.

Plumber's Harvest.

Teacher—"Now, Bobbie, tell us when is the harvest season?"

Bobbie—"From November to March."

Teacher—"Why, Bobbie, I am surprised that you should name such barren months. Who told you they were the harvest season?"

Bobbie—"Pa. He's a plumber."

Mirror Magic.

The primitive man looking at his own reflection in a still pool beheld a phenomenon he could not explain. He saw something which was not himself, but which must be so closely related to himself that there was no joke in it.

What is known as sympathetic magic always regarded a close connection as existing between a person and his "counterfeit presentment." We know better now, but who is there who can see a looking glass accidentally broken without experiencing a secret feeling of uneasiness?

The smashing of the mirror destroys the reflected image—his counterfeit self or a surface which has borne it, as it has also borne the images of other members of his family. Therefore he himself, or some member of his family, whispers the lingering voice of despair, forgotten, but inherited belief in sympathetic magic, is in danger. All of which accounts for the superstition that if you break a looking-glass there will be a death in the family within the year.

God's Little Things.

I love the little things of God—The loamy scent of fresh-turned sod, The fleecy white clouds in the sky, The passing of the south winds by, The darting flash of bluebird's wing, And all the sights and sounds of spring.

I love the days when summer fades, The scarlet tinge in forest glades, The wild grapes, purple on the vine, The crisp air, heady as old wine, The hint of snow in grayling sky, To warn us that old winter's nigh.

—Hazel Blair.

Mother! Give Sick Baby "California Fig Syrup"

Harmless Laxative to Clean Liver and Bowels of Baby or Child.

Even constipated, bilious, feverish, or sick, colic babies and children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

Youngsters to Match.

Misses—"Maggie, I think I'll take one of the children to church this morning."

Maggie—"Yes, ma'am."

Misses—"Which one do you think would go best with my dress?"

Infantile mortality has gone down from 150 per 1,000 at the beginning of the century to 80 per 1,000 to-day.

Elderly People Need More Iron in the Blood

To Give Added Strength, Vitality, and Greater Power of Resistance Against Disease.

IRON is constantly leaving the body, especially toward the period of middle age and you must make up for this iron deficiency if you want to escape disease and be strong and well. When the iron in your blood runs low, signs of old age creep into your system. If there is not enough iron circulating the blood-stream becomes thin, pale and watery, the body weak and run-down. In such cases ordinary iron-containing foods seldom supply a sufficient quantity of this important element to make up for the waste so that many physicians now prescribe a concentrated form of organic iron—Nuxated Iron—which contains iron like the iron in your blood.

Actual blood tests show that a tremendously large number of people who are weak and ill lack iron in their blood. If you are not sure of your own condition, get your doctor and have him take your blood count and see where you stand or see make the following test yourself: See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. By enriching the blood and creating new red blood cells Nuxated Iron strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and power into the whole system.

Unlike the older inorganic iron products, Nuxated Iron is easily assimilated, does not irritate the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.
