are as follows: Placer Mining, grants '5; renewals, 5: relocations, 5.

Quartz Mining, grants, 121; renewals, 1,052; claims in good standing, 1.312. In connection with the claims in good standing it is interesting to note that as a full quartz claim is over 50 acres in extent these claims represent an area of approximately 65,000 acres, or over 100 square miles.
