---KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable-one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season "It was an awful night," he said, in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The message is written When the trickster displays the slates, he keeps the flap in place with his fingers. After marking on the slates and wiping the marks off. he places the prepared slate, flap side uppermost, on the table. On this the other slate is placed. When he picks the slates up. he turns them over. The flap falls on the slate which is now undermost, leaving the writing ready for the conclusion of the trick.
