HENDERSON'S BAKERY

The god of war has been moved down from first to third place in the order of the months upon the calendar. The god of war deserves to be further lowered in public estimation. No month was named in honor of Peace, because in ancient days the god of war held first place. A change, however, is coming over the thinking of the Christian world. The ideal of Peace is supplanting that of war. Mars, the god of war, must make way for Christ, the Prince of Peace.

ON PARLIAMENT HILL Reducing Talk and Expense

An indication of the desire of Parliament to save the public money by eliminating needless talk and getting down to business speedily was furnished on Monday last week when the debate on the address in reply to the speech from the Throne terminated without an amendment being offered by the Opposition. The same evening the main estimates for the fiscal year ending March 31st, 1926, were tabled by Hon. Jas. Robb, Acting Minister of Finance. That debate established a record for brevity. That one week compares very favorably with three weeks consumed last year and with any session of this fourteenth Parliament. An amusing fact in this connection is that, while last year the Conservatives were scolding the Progressives for prolonging the discussion, the Opposition this year were scolding the Liberals and Progressives for not talking and charging that a 'conspiracy of silence' had been arranged between these two parties. It was also declared by Conservatives that the Liberals had refrained from talking so that the session could be shortened in order to hold a general election at an early date. The Liberals and Progressives both refrained from talk, after the leaders and a very few others had expressed themselves, but for another reason which was their desire to get down to business and to save the country avoidable expense.

ECONOMY IN PRACTICE

A reduction of almost \$7,000,000 was the outstanding feature of the main Estimates. Another notable fact is that, if the reductions in the main estimates of the last three fiscal years are added together, there is to the credit of the Dominion Government a total cut in estimated expenditure of nearly \$105,000,000 and this in the face of heavy uncontrollable outlays that cannot be cut.

WHAT OTHER PROV. MEMBERS THINK OF PREMIER'S VERDICT

Characterizing Attorney General Nicks' four hour oratorical effort in the Legislature last week as a Government device to soothe the consciences of the 50 Conservatives elected from dry ridings, Liberal members speaking in the debate in the Address almost treated the Attorney General's speech with contempt. The outstanding indication of the attitude of the Liberal opposition to that major attempt of the Gov't to put 4.4 per cent beer over on the Province was given by Harold Fisher, K. C., Liberal member for Ottawa, one of Ontario's outstanding temperance men, who summed up his whole answer to the Attorney General's argument with the, non intoxicating qualities of 4.4 beer in effect as follows: "After all the Attorney General has told the House and the Province about the Gov't's proposed 4.4 per cent beer, it is still 4.4 per cent beer and 2-1-2 per cent beer is still 2-1-2 per cent beer for which the people of Ontario voted." Indeed Mr. Fisher, and also Sam Clarke, Liberal member for Northumberland, were hardly inclined to treat the Attorney General seriously in his argument that a man drinking nine or ten bottles of beer would be no more intoxicated than if he had imbibed two cups of coffee. Mr. Fisher expressed the opinion that the Prime Minister had delegated the job of making that speech to Mr. Nicks because Mr. Ferguson had a sense of humor and could not have kept a straight face in the delivery of the argument.

Passing of Dr. W. A. Mearns

(The following article was inadvertently omitted in our last issue, and not noticed until the issue was half run off.—Ed.)

On Sunday last, Feb. 13th, there died in Toronto General Hospital, the well known Hanover physician, Dr. W. A. Mearns. For a number of years past he has been in poor health yet Hanover people and many in South Grey will regret his passing. He is survived by his wife and a son and daughter, both at home. Besides these are chief mourners, a brother, Mr. F. S. Mearns, Toronto, will also mourn.

Dr. Mearns was prominent in the ranks of Liberalism in S. Grey for many years. Several times a nomination was pressed upon him for the Legislature but though he never consented to stand, he spoke and worked for the party. He was a speaker of power in his palmy days, often eloquent, and few could shatter the arguments of an opponent better than he.

He has always bulked largely in his home town. Was in the Council for a long period, has been Mayor and Reeve frequently, and filled the Warden's chair at Co. Council for one year acceptably.

As a doctor he was highly spoken of, as a man and citizen esteemed. His name in the County will not soon be forgotten. The Hanover Post in a fine wrap-up of deceased says: "As a mark of respect, Mayor Ball requested business places closed yesterday afternoon for two hours while services were being held."

As Dr. Mearns was honored so often by the townspeople in life, so he was honored in death. A fitting memorial service was conducted at the Presbyterian church and his remains were borne to the tomb, attended by all civic honors. The Hanover Band led the cortege and members of the Town Council of this and other years and other public men of the town marched in the funeral procession.

Strong Position Reported by Standard Bank of Canada

TOTAL ASSETS AMOUNT TO \$83,520,820 — LIQUID ASSETS STAND AT OVER FORTY MILLIONS—ADDITION OF \$150,000 TO RESERVE FUND, BRINGING IT UP TO \$2,900,000.

A position of unusual strength and a condition that will enable it to handle its full share of the business requirements of the country are the outstanding features shown in the annual statement of the Standard Bank of Canada. The report, which is for the year ending January 31st, is the first issued by the Standard Bank since the Sterling Bank of Canada was amalgamated with it. On the balance sheet, there will be special interest in the figures submitted, and in the matter of great satisfaction to the public, as well as to the shareholders, that the combined resources have made for such marked strength and at the same time enable the Bank to offer more efficient services to a larger clientele.

The general statement of assets and liabilities shows that the total assets of the combined banks amount to \$83,520,820. Of this amount as much as \$40,000,000 is in liquid, or immediately available, assets, equal to over 53 per cent of liabilities to the public. In addition, these liquid assets include cash, as represented by current coin, Dominion notes and deposit in central gold reserves, of over \$10,000,000, being more than 25 per cent of liquid assets.

Holdings of High Grade Securities. The principal accounts included in liquid assets are a very large proportion of holding in high grade securities. Dominion and Provincial Government securities amount to \$14,832,293; Canadian Municipal and British, Foreign and Colonial Public securities, \$3,148,197; Railway and other bonds, \$450,475, and total call ward of \$151,110.

and short loans, \$5,769,330, making the total in this department \$24,750,296. Indicating the large amount of general business being handled are current loans and discounts entirely in Canada of \$36,977,030, and loans to cities, towns and municipalities, \$1,798,201.

The confidence enjoyed by the Bank among a large number of depositors is reflected by total deposits of \$63,432,377. These include deposits bearing interest of \$52,048,439 and deposits not bearing interest, \$11,383,938. The Bank's paid up capital now stands at \$4,823,400 and the Reserve Fund, to which has been added \$150,000, now totals \$2,900,000.

Earnings Well Maintained

The Profit and Loss statement shows that earnings, after providing for all charges and dividends, permitted of a liberal amount being added to the balance carried forward. The profit for the year, after deducting expenses, interest accrued on deposits and rebate on unremitted bills, Provincial taxes, and making provision for bad and doubtful debts, was \$888,682. This, added to the amount carried forward from the previous year, brought the total amount available for distribution up to \$904,344, which was appropriated as follows: Dividends, \$488,234; War taxes on Dominion Income Tax, \$50,000; contributed to Officers' Pension Fund, \$25,000; transferred to Reserve Fund, \$150,000; leaving a balance to be carried forward of \$151,110.

Give a dog a bad name and it sticks to him. February has had a bad name for many a year. But this has been an exceptionally fine month which also helps out Mr. Bowen's predictions. Today Mr. and Mrs. Jas. Young and family are moving away from this locality. Just 5 years ago they came here from Peel Co. in the vicinity of Brampton, and are again moving back to nearly the same place. They will be sadly missed here where they have made friends, being of a kind and helpful disposition. The sons and daughters, coming here boys and girls, are going away young men and women. The neighborhood turned out en masse last Friday evening.
