DURHAM, MARCH 5 1925

ROAD SUPERINTENDENT'S REMUNERATION

Our Welbeck correspondent this week finds fault with offering the Bentinck Road Supt. a salary of \$4 per day, claiming it higher than other wages. He also states they were led to believe no Supt. was to be appointed, but road foremen only. In the discussion of the question before the recent election, the Review always heard that a Township Road Supt. would be appointed, in fact in his nomination day address, reported in the Review and other local papers, Reeve McDonald made it plain that one is selected by the Council and paid by day, month or year, if Statute Labor was abolished.

THAT 44 BEER

The stage is being set in Toronto Legislature for improving the O. T. A. by permitting the sale of stronger beer! An estimate has been made of the support it is likely to get and that shows that the Conservative party is unanimous in its support, some three or four Liberals will favor, but not a single Progressive. Our own Dr. Jamieson, though representing a "dry" riding, made a speech justifying support because getting the stronger beer would tend to reduce the drinking of hard liquor! He and the 29 other Conservative members who represent dry ridings, will have hard work convincing their constituents that they are temperance crusaders. The whole thing is a farce. Ontario temperance workers did not want a plebiscite but had the Premier's promise if carried, that he would enforce and strengthen the O. T. A. They carried it and got more promises. Now the promises are like pie crust, and the wet minority seemingly will be able to impose on the majority, a condition of things that will win the applause of every drinker in Ontario, but will bring sorrow to many homes.

NO DOUBT OF THE 44 PER CENT BEER PASSING

Another stiff challenge was thrown at Ontario prohibitionists by the Ferguson Gov't in the Legislature last week, when Hon. J. R. Cooke, who is a Minister without portfolio, levelled the charge that the downfall of Sir William Hearst was due to their "black hearted treachery." Coming as it did on top of the declaration of Charles McKeown, told the dry riding of Durham, who told the country in stentorian tones that if the temperance forces decided to enter politics against the Gov-

Report of Agr' Enquiry Com.

More Co-operation the Keynote

Last week the report of Enquiry Committee, of which our own Dr. Jamieson is Chairman, was presented to the House. As is known, they have covered most of Ontario in the past nine months and the conclusions they have reached after many questionnaires, should be of value, and they are of value.

One of the main features of the Report is a recommendation that National Marketing Commission should be formed as found in New Zealand and as Great Britain is proposing the appointment of a purchasing Commission, it was up to Canada and the Provinces to see that they were kept informed of what we could supply them.

The Commission points out the needs of the north of the Province. Ontario does not know the vast natural resources to be found there and the committee recommend a new policy of compact settlement, that would encourage population and allow of the establishment of schools, churches and such co-operative enterprises as creameries, &c. not forgetting good roads.

More co-operation by farmers with Agricultural Representatives is recommended.

The matter of good seed is deemed of great importance and they urge that Provincial activities to secure this, should be in co-operation with the Federal Dept. of Agriculture and the Canadian Seed Growers' Association. They also recommend the establishment of community seed-cleaning plants which it seems Quebec has.

The quantity of cheese exported has not—they say—fallen off which is contrary to the general opinion. Co-operative cheese producers' organizations are recommended. They also advise the grading of cream on flavor and acidity as well as on butter fat basis.

They had received many complaints from fruit growers that local markets were glutted with foreign stuff when Ontario produce was not ready. They could make no recommendation as the subject was one for federal action.

They gave strong support to the proposal of the Federal Gov't to get control of ocean freight rates and break the combine that keeps them up. They also urge as benefit to Ontario the bringing in of western feeder cattle; community breeding of sheep with fewer breeds, and generally wide co-operation is needed in the buying and selling of live stock.

Should be truthfully informed. They have a good lot to say on immigration; that care should be taken that intending immigrants should be truthfully informed of conditions, a plan of guidance and supervision for the first year, that co-operation is applicable to the labor problem, but they want it made clear that any opportunities or advantages given to immigrants should be equally given to Canadian citizens.

The alarming fire loss in the rural parts of the province and the consequent unwillingness of insurance companies to take risks, came under their attention, and they make some constructive suggestions, one of which is a better plan of rural insurance against fire hazard.

The report lays stress on the importance of getting the result of investigation from the Agricultural College to the farmer, and one important matter is through the Agricultural Representative, through which they seem to claim there are too few. They are also of the opinion that "Continuation schools established in rural communities are best adapted to meet the requirements of a vocational school in the Agricultural sense."

The hard worked farm house wife is given consideration and relief is suggested by the extension of cheap electric power. The Commission was often told there was too great a difference between urban and rural rates. They advocate sound measures to advance rural life, though not at the expense of urban life. Give rural life a hitch up, so to speak, to bring it on a par with urban greatness!

On the whole the Report is a good one and if its recommendations are carried out it will have an uplifting influence, but whether it will stay "inland deputation" or not remains to be seen. We have no doubt a few hundred citizens could point out some better way to bring about in rural life a better "adjustment of population."

HAMPDEN. Miss Esther Petty and Mr David Whiteford attended the reception to Mr and Mrs Reuben Noble at the home of Mr and Mrs Albert Marshall at Knox last Wednesday night.

Quite a number of hogs were shipped from this locality last Friday morning under the charge of Mr R. Brunt of Hanover.

Mr Wilfrid and Miss Nellie Anderson, Miss Petty, Mr Andy Marshall, attended a crokinole party at the home of Miss E. Hughes of No. 7 on Monday evening.

A number of Hampdenites felt a rather strange sensation last Saturday night after nine o'clock when the rocking of chairs, tables and beds became noticeable. Later reports say it was an earthquake in the lower provinces or thereabouts.

TOWNSHIP OF BENTINCK. Applications for the position of Road Superintendent for the Township of Bentinck, will be received by the undersigned until noon, Saturday, March 7th. The remuneration of said official shall be at the rate of \$4.00 per day while performing the duties pertaining to said office. J. H. CHITTICK, Clerk R. R. 3, Hanover

Thuell, Teacher

ROCKY SAUGEN We have had a real stiff winter the past week, but we hope it will soon moderate. Miss Marjory Vessie is spending a few days with her aunt, Mrs Jack McKechnie, Glenora.

The U. F. O. will hold their monthly meeting in the school house Friday evening of this week. The young people expect to put on a short program at the close of the Senior Club's meeting.

Mr Jas Lawrence is in O. Sound this week on the jury. Mr Harold McKechnie has started out to make his official calls as assessor of Bentinck Township.

The U. F. W. O. will meet at the home of Mrs Arthur Edge, Friday, March 13th.

Besides the risk of the roads to rural ministers in winter, there is that of infection in visiting, from the prevailing flu. In the pursuit of his pastoral work at the other end of his parish, Rev. Mr Sillars became a victim. We are informed he ventured out too soon, with the usual result of a further retreat for a few days, but is expected to be in his pulpit at 'Rocky' on Sabbath.

WELBECK (Arrived too late for last week) The principal things around our burg at present, are cutting wood and teaming logs.

We are having mild weather these days and Goldsmith Bros. report seeing a groundhog in the swamp recently, while taking out school wood.

Mr and Mrs Guy Sherck of Detroit, spent the week end with Mr and Mrs Perouse Sherck.

Mr and Mrs James Lister and family, also Mr and Mrs Dan Sweeney spent the first of the week with Mr and Mrs Chas. Shewell and family.

The pupils are increasing at Welbeck school very rapidly and it was necessary for the trustees to call a meeting for the purpose of buying some new school seats.

Mr Fred Haug entertained a number of the boys to a cross-cut bee last week. Eric says buzzing wood is alright, but oh, you cross cut.

We notice that Bentinck Council have advertised for a road superintendent at a salary of \$4 per day. The ratepayers before the election were led to believe that the Council would not have to hire a superintendent, but would appoint a man, say for every three or four miles of road at road-wages. If there is anything fair in paying a man \$4 and setting a wage of \$3 per day for man and team breaking through snow drifts, we fail to see it. If abolishing Statute Labor is going to work out that way, I think there will be a big change at next year's municipal election.

(See comment in editorial column—E4.) EGGS FOR SETTING C 71 Rhode Island Red, \$2.00 for 15 eggs. Apply S. TRAFFORD, Durham.

FARM FOR SALE OR RENT Lot 7, con. 3, Normanby, containing 100 acres, good bank barn and log house, never falling creek. Apply on premises to JOHN MORICE, Varney

THE ROLL CALL

CECIL B. LEGATE

Saddening news of the sudden death of the above, a nephew of Mrs C. Ramage, Durham, was received by her on Tuesday. The following is taken from the "Drumheller Mail" Alberta, and contains the chief facts. Previous to going West some years ago, he was teller in Fisherton, Br. of Standard Bank.

"The death of Cecil C. Legate, one of Drumheller's well known young business men, occurred suddenly at his home, Feb. 17th. On Monday he was about town as usual and in the evening he worked at his books about 10.30. Early Tuesday morning he took convulsions and before a doctor arrived, had passed away."

Mr Legate came to Drumheller from Calgary some five years ago, held a position as accountant at the Atlas mine. Later he was with the Colliery and Scranton mines but owing to his health not being the best, he
