OUR farm is as much a going concern as a factory, a dry goods store or a railroad system. Your farm is as dependent as any other business on a policy of sound, forward-looking financing designed to meet the various situations that occur in the life of a farmer.

> If you will regard your farm in this lightas a clean-cut business proposition—you will find it helpful to form a connection with the Bank of Montreal-a bank that has served the farmers of Canada for more than a century.

Each of our 600 branches has the strength and stability of the entire organization.
