

DURHAM HIGH SCHOOL

The School is thoroughly equipped to take up the following courses:

- 1. Junior Matriculation
2. Entrance to the Normal Schools

Each member of the staff is a University graduate and an experienced teacher.

Intending pupils should prepare to enter at the beginning of the fall term.

Information as to courses may be obtained from the Principal.

The School has a creditable record in the past which it hopes to maintain in the future.

Durham is an attractive and healthy town and good communication can be obtained at reasonable rates.

DURHAM, MARCH 19, 1925

LAST WORDS OF HON. G. HOWARD FERGUSON

(From the Toronto Globe) 'The Premier proved unable to stay the tide, and without a struggle went down for the third time in a sea of suds such as are supposed to have made Milwaukee famous.

were 'I cannot tell a lie. I did it to save the O.T.A.' Then the 'solemn promises' of G. Howard Ferguson sank beneath the raging eddies of an amber colored sea to rise no more.

HERE'S A SUGGESTION

Alliston Herald: If all the farmers of West Simcoe would get solidly together and announce that the political candidate who will support certain things which they might enumerate would get their undivided support, not only would they have the best of the matter but they would lead up to see them.

The Atlantic Combine

Canada and Great Britain Co-Operating. From the character of the debate already in the House of Commons, from the correspondence tabled in the House from day to day by different members of the Government, and from the warm attacks made by steamship concerns, both on this side and on the other side of the Atlantic, against the Federal Gov'ts plan for obtaining control of Atlantic freight rates, it has become evident that there has been uncovered one of the largest and most powerful combines now in existence.

More serious in its effect upon Canada

Britain is also investigating. This was disclosed in correspondence between the British and Canadian Governments during the past three weeks and tabled in the House of Commons last Friday by the Prime Minister.

Canadian Exports Only Will Benefit

This was made clear when General Clark, a conservative member for B. C., made a point of criticism that the ships that would be subsidized by the Can. Gov't would be carrying out of the port of Montreal U. States wheat, as well as Canadian wheat and that another nation would reap some of the benefit which is intended for Canadian shippers.

A Long-Simmering Explosion

In one of the cables sent a few days ago by the Prime Minister to the Secretary of State for the Colonies in London, it was made clear that the course of action now being pursued by the King Gov't was decided upon some time ago and was based upon the evidence and the recommendations of the special committee on Agricultural Conditions two sessions ago.

HENDERSON'S BAKERY

NORTH BENTINCK

Mr Jas Putherbough, also Mr Filleham, of London, spent last week with the former's parents, Mr and Mrs S. Putherbough.

Mr Brown returned last week after spending a couple of weeks with friends in Toronto.

Mr J. Putherbough spent a day last week with his sister, Mrs Donald Stewart.

Mrs L. Chapman and son Bert, of Glenelg, spent a couple of days this week with her sister, Mrs Fred Cuff. Glad to report Miss Ruby Heilitt is able to be out again after an attack of the mumps.

Mrs D. McQuarrie visited Friday afternoon at Mr D. McLean's.

Messrs. Jno. Grierson and Geo. Chapman attended Mr Thos Tucker's sale Wednesday and report fairly good prices.

Mr John Johnston of Lockwood, Sask., visited this week with Mr and Mrs F. Cuff.

A few of the ladies on this line attended the U. F. W. O. meeting at the home of Mrs Arthur Edge on Mar. 13th. The next meeting is to be held at the home of Mrs George Noble April 9th.

Mr Norman Thompson is engaged with Mr J. S. Davey at present.

Mr and Mrs Duncan McLean spent Sunday afternoon with Mr and Mrs. Dan McLean.

SOUTH EAST BENTINCK

(intended for last week.)

Miss Margaret Smith and her cousin, Miss Margaret Hamilton, Guelph, spent the week end at the former's home.

Mr and Mrs Wm Picken visited with friends near Allan Park Friday last.

Mr Fred Mountain and his aunt, Mrs Kay of Detroit, are spending a few days at the Mountain and Armstrong homes.

Mr Lorne Mountain intends to give a party for a number of young people Friday.

Mrs J. Caswell and little son are spending this week with Mr and Mrs. R. Alex. Knisley is engaged with Mr Wm. Mearns for a time.

DORNOCH

Mr Snel of Durham occupied with much acceptance the pulpit of Rocky Saugeen, Dornoch and Williamsford last Sabbath. The people are gratified to hear that Mr Silars expects to preach on the 22nd March.

Henry Ford has a new grandson

but there is this consolation for the general public that if anybody on earth can afford the luxury of another grandson, Henry is that man.

It would seem that in the Legislature when the members find they must make choice between caucus and conscience the latter has about a 4.4 per cent chance.

Wearing Red Tam Enrages Bull

Little Ruth Myles of Harrison had a narrow escape from an enraged bull Saturday which was being led to the market by three men. The little girl, who wore a red tam, was walking down Elora St. when the bull sighted the emblem of danger, and charged at the child. Men on the street called to her to run into the store which she did. She was not a moment too soon for the animal raced right to the store door.

A top-notch salesman at office-boy wages!

This salesman, who reaches the ear of the public quickest, and adds the largest number of new business prospects—costs you much less than the cheapest office-boy.

Add him to your sales force!

As an investment that can bring large returns, encourage your best salesmen to use Long Distance freely. Each year more than 50,000 new telephones are added in Ontario and Quebec to the list of those they can do business with.

—W. E. Raney, M.P.P., caused somewhat of a sensation in the Legislature by introducing an amendment asking the House to condemn transactions between the Treasury Department of the Government and the Home Bank, before the late government came into office and regretting the proper investigation had been made. Mr Finlayson, M.P.P., made a stinging reply but all the same the public would like to know of that \$40,000 that went astray before Hon. Peter Smith took office.

SPRAYING FRUIT TREES

PRACTICAL INSTRUCTIONS ABOUT A VERY NECESSARY WORK.

Have a Good Outfit—Spray as the Calendar Tells You—Spray Right Through the Trees—Keep Tank, Pump and Nozzles Clean.

(Contributed by Ontario Department of Agriculture, Toronto.)

1. Do not spray at all unless you are going to try to do it well. It will not pay.

2. You cannot make a success of apple growing without good spraying.

3. You cannot spray well without a good outfit which will give you plenty of pressure. So overhaul the old spray machine at once or if it is not satisfactory buy a new one with plenty of power.

4. Get a spray calendar from your Agricultural Representative, or from Mr. F. W. Hodgkiss, Director Fruit Branch, Toronto, or Prof. L. Caesar, O. A. College, Guelph. Tack it up in the spray shed where it will always be available.

5. Use only the spray materials recommended in the spray calendar.

6. Quit spraying when it happens to be convenient, but spray at the times the spray calendar says. The time of spraying is of vast importance and the times given in the spray calendar are based on years of study.

7. Quit one of the first three regular sprays, some years the first is the most important, some the second and some the third. Each spray helps to make the next more effective and each must be given to insure clean fruit.

8. McIntosh and Snow trees should always receive a fourth application. Read what the spray calendar recommends under 'Extra sprays and remarks' and be guided by it.

9. You will not control San Jose scale on large trees, twenty-five years old or more, unless you first prune them heavily and scrape the loose bark off with a hoe. Then see that every particle of the bark is wet with the liquid; a mere mist or a light spray will not kill them. Use lime sulphur 1 to 7 of water, preferable just as the buds are bursting.

10. For scab and codling moth cover both sides of every fruit and also cover every leaf. Scab attacks the leaves, too, and is often washed from them to the fruit. It will require from 7 to 13 gallons of such tree twenty-five years old or upwards, not just 2 or 3 gallons.

11. Be sure the spray reaches right through the trees. To insure this go in, if necessary, underneath the tree and spray the part beyond the trunk first, then step back to the outside and spray the remaining part. Do this from both sides. Remember that it is the centre or shaded part of the tree which is naturally the worst and poor sprayers nearly always miss this side though they often cover the sunny or outer side all right.

12. A tower, even with a spray gun, is a great help. Often it suffices to stand on the tank. A railing or support on it removes the danger of falling.

13. Do not use large openings in the discs of either nozzles or spray guns unless you have 75 pounds pressure or more. They are wasteful, make it difficult to maintain high pressure, and give too coarse a spray.

14. In many cases better work will be done with a rod and three angle disc nozzles than with a gun. In any case use some system in spraying so that you will make sure everything is being covered in a methodical way.

15. Have a handy place to fill the tank. Ten minutes should be long enough for any tank. If they are wasteful, make it difficult to maintain high pressure, and give too coarse a spray.

16. Do not stop spraying because rain threatens. Go right on until the rain has well begun. It is rain and moisture which cause scab outbreaks.

17. Do not stick to an eight or ten hour day when spraying, but make every effort to get it done as soon as possible without sacrificing thoroughness. If the second spray is not finished before the blossoms open, omit the poison and go on until it is finished.

18. Wash out the tank and pump clean water through the machine and nozzles at the close of each day.

19. Remember spraying gives healthy foliage and is a great factor in producing annual crops as well as giving clean fruit. Even trees that are not bearing should be sprayed to keep them healthy.

20. Get a new spray calendar each year.

21. When in difficulty consult your Agricultural Representative or write to Prof. L. Caesar, O. A. College, Guelph, or W. A. Ross, Vineland—L. Caesar, O. A. College, Guelph.

Farm Notes.

Improved breeding is urgently needed in dairy herds. Most dairymen feed and house their cattle in a manner that is worthy of much better cattle than they are keeping. Efficient cows, efficiently fed and housed, are the dairyman's economic salvation. The most successful dairymen are breeders and improvers of dairy cattle.

While silage is an excellent feed for dairy stock, it should be combined with some leguminous feed, such as clover, cowpeas, or alfalfa, owing to its insufficient productive quality. The leguminous material will tend to correct the deficiencies of the silage in dry matter, protein, and mineral constituents.

The dairyman's motto is: 'Production first'; and every cow, pure-bred or grade, must produce and keep on, because we can't afford to keep her. This is one reason why some pure-bred breeders shun cow testing associations. They are afraid of their records; afraid some of their cows are not paying for their feed or that some grade cow will step too fast for them.

HAMPDEN

In view of Hampden losing one of their most popular young ladies by marriage, the whole community gathered at the home of Mr and Mrs. Alex. McLean on Monday evening, March 16th, in surprise party style, to bid farewell to their eldest daughter, Agnes, ere she left for her new home in Alberta.

All had amused themselves in social intercourse and community singing for an hour or two, when Mrs. Michael Byrnes came forward with a suitable address and Miss Nellie Anderson presented a beautiful case of silverware, consisting of knives, and forks, teaspoons and sugar shell combined.

Dear Agnes: It gives us all a great deal of enjoyment and untold pleasure to gather here this evening. We have been your friends and neighbors for some time and have learned something of your friendship while you have been among us and this fellowship has been greatly appreciated.

We desire to say that you have been much respected in the community where you have resided and where you have many real friends, for your loyalty to home and church and community in general.

In the varied walks of neighborhood and social intercourse, you have contributed abundantly toward making life pleasant in the circle in which we moved. And as you are on the eve of taking your departure from our midst, we desire you to know that our best and truest wishes accompany you into your new sphere of life.

As a mark of our esteem we ask you to accept this cabinet of silverware, and when you have occasion to use it in your new home, may you there be fond memories of the times we have spent together. You will not forget us we hope and we shall not forget you.

May success crown your efforts in all is the wish of all present. Signed on behalf of the neighborhood.

Mrs Thos Derby, Mrs And. Fulton Although taken completely by surprise, Miss Agnes replied very fittingly and while a lull was caused in the amusement line for a short time, time passed on wings. Around the midnight hour a dainty lunch was served, then old and young dispersed to their various homes, thinking in line with Longfellow: 'O fortunate, O happy day, When a new household finds its place Among the myriad homes of earth, Like a new star just sprung to birth, And rolled on its harmonious way Into the boundless realms of space!' So said the guests in speech and song as in the chimney burning bright, We hung the iron crane to-night, And merry was the feast and long.

EBENEZER

The mumps are prevalent in this burg at present, but all affected are doing nicely.

Miss Annie Turnbull was a recent visitor with Mr and Mrs Geo. Turnbull.

Mr and Mrs Alymer Woods of Durham, spent Sunday the guests of Mr and Mrs Jas Langrill.

ROCKY SAUGEEN

Mr John Schnell, Durham, preached in the church here Sunday in the absence of Rev Mr Silars who has been on the sick list for the past month.

The U. F. W. O. held their monthly meeting at the home of Mrs Arthur Edge. There was a splendid attendance and an interesting time spent. Mrs Thos. Young gave an instructive paper on 'Ontario,' which required much time and study in preparation. Mrs J. W. McKechnie gave a well rendered recitation which was enjoyed by all present. The next meeting is to be held at the home of Mrs Geo. Noble.

Mr and Mrs Nell McLean spent Monday with Mr and Mrs Douzard McDonald of Crawford.

Mr and Mrs Geo Noble entertained a number of friends on Thursday night and all tell of a fine time.

Those taking part in the play which is to be given in the school on Friday, April 10th, are busy practicing at present.

DURHAM MARKETS

Corrected to date, March 19, 1925

Table with market prices for Live Hogs, Eggs, Peas, Oats, Wheat, Barley, Buckwheat, Mixed Grain, Potatoes, Chickens, Geese.

SOUND BONES

Let Nature try her best, she cannot very well build a sturdy body or sound bones or normal dentition, unless given the right kind of encouragement in the form of vitamin-activated nourishment.

Scott's Emulsion

has encouraged thousands by nourishing them into strength and vigor. It abounds in vitamins and is the food-tonic that encourages normal growth.

Scott's Emulsion helps Nature do her best to help you and your child keep strong and healthy.

Scott & Bowne, Toronto, Ont.
