The cemetery will be ploughed up, headstones straightened and shrubs and flowers planted.

So far the trustee board has centented itself with the absolutely necessary work about the place and while they have done well, they have a lot yet to do before the last resting place of many can be pronounced in the best of shape. To this end they will need more money and more help but as the cause is a good one, they do not anticipate much difficulty in raising the money required The board has supplied us with a list of the receipts and expenditure which are given below, and an appeal for more funds will, no doubt, meet with a ready and generous response. As work must commence at once if it is to bear fruit this summer, all who contemplate making further donations or who will supply men and teams are requested to get in touch with Mr Ed. Today the safety and security of steel vaults eliminate the danger of loss by fire or theft, and give peace of mind for the safety of valuable belongings.

Documents lying unprotected in your house or office demand the security of a Safety Deposit Box.
