BANKING

The Business of Agriculture

ARMING is more than an occacialized business which requires pation; it is a highly commercareful planning and thoughtful execution. Bountiful production is necessary but much effort is wasted unless the business of disposing of the year's output is properly managed. In conducting the business of the farm the Standard Bank can play a prominent and useful part. Consult the uanager and learn how true cooperation between banking and agriculture builds a more prosperous community.
