CANADIAN EXPORT TRADE INCREASING

COMMERCE BECOMING MORE AND MORE INTERNATIONAL

Greater Production Essential in Order That Margin of Supply May be Sufficiently Wide

An interesting review of the expansion of Canadian export trade...

The unprecedented expansion of Canadian export trade during the war years...

In connection with this it is interesting to note the following points...

One of the most striking features of Canada's export trade within recent years has been its increasing foreign ramifications...

At the same time it is significant to note that in the past year Great Britain became Canada's foremost customer...

Mr. Clarke points out that if Canadian exports to Empire countries are to be maintained and augmented...

In addition to the increases of exports to Empire countries in the past year some notable increments are apparent in the case of foreign countries...

Well Done. Grocer—"My boy, if you want a thing done well you must do it yourself."

How to Distinguish. "What is the difference between ammonia and pneumonia?"

Every perceptible change in a country's economy, even when that change is for the better...

In Dry Canada

WRIGLEYS

still quenches thirst, cools the parched throat and by its delightful flavor and refreshment restores the joy of life.

After Every Meal

A Magnificent Weed

Capt. Kingdon Ward, explorer and plant collector, has recently described in Conquest his most extraordinary find:

"In the harsh mountains of Tibet are sorrels which grow eight feet high. The tiny flowers are hidden beneath large, downwardly pointing, overlapping leaves of a bright sulphur yellow...

"The plant grows at an amazing rate. Occurring only at high altitudes, about fifteen thousand feet, it is buried under the snow till June...

leaves, and they make a not unpleasant salad."

The low and unobtrusive but all too readily common sorrel is popular in Europe as an ingredient of salads and soups...

Rain and the Moon. Near the equator the position of the young moon never makes an angle of more than 30 degrees with the horizon...

The Germans expect to complete their section of a new transatlantic cable between Emden and the Azores in a few weeks...

MOTHERS PRAISE BABY'S OWN TABLETS

Mrs. L. M. Brown, Walton, N.S., says: "I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones."

"The Tablets are a laxative—mild but thorough in action—which never fails to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy."

Making a Good End. The robin with his banjo is haunting the lanes. The dancing leaves that ask a tune call after him in vain.

The brook that through the summer Such jaunty banter had With wind and bee and forest maid Is now a sober lad.

The golden-rod far-shining Across the meadow's rim The spendthrift wind has tossed aside As useless coin to him.

The grave, tall pines in friendship A lonely hill-top share And tell old tales of sunny days When summer fields were fair.

And high hill echoes answer The pilgrims' farewell cry With greetings ray across the miles—"Good luck! good cheer! good-by!"—Arthur Wallace Peach in Christian Science Monitor.

Greenland, the largest island in the world (Australia being considered a continent), has an area of more than 750,000 square miles.

The homestead. When skies are growing warm and bright. And in the woodlawn bowers The springtime in her pale, faint robes is calling up the flowers.

When all the vases are filled with gold And all the air with song; When fields of yet unripened grain, And yet ungarnered stores Remind the thrifty husbandman Of ampler threshing-floors.

How pleasant from the din and dust Of the thoroughfare above, Stands the old-fashioned homestead, With steep and mossy roof!

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' Course of Training to young women...

World's Fastest Cable. The great strides now being made in wireless telegraphy, as well as the promise of transatlantic telephony...

At the present time Germany has no direct cable connection with America, her two cables having been confiscated in the war by Great Britain.

The Germans expect to complete their section of a new transatlantic cable between Emden and the Azores in a few weeks...

Britain's reply is the completion of the fastest cable in the world, connecting London with New York, through Penzance and Bay Roberts, Newfoundland...

This hitherto unheard-of speed is obtained by what is known as "loading" the cable, accomplished in this instance by wrapping the copper conductor of the cable with a thin tape of a metallic alloy of nickel and iron throughout its entire 3,000 miles.

The world's largest cable-shipping, the Dominion, is at present engaged in putting down the longest cable in the world in the Pacific. This cable will connect Bamfield, British Columbia, with Fanning Island, 3,600 miles away...

Locomotive's Breathing

The puffing of a railway engine is a common enough sound but few people know by what it is regulated. Actually the number of pulls made by a locomotive in the course of a journey depends on the circumference of its driving wheels...

Who would think that the cost of silk stockings, frocks, suits, and hundreds of other articles of everyday use would be raised because of the high price of tin?

Without a second industry that makes a heavy demand on tin. This metal is to be found in the head-phones, the loud-speaker, the actual set, and on the copper wire.

They All Do. Awakened from a good sleep, Mr. Smith grumbled: "What's the idea of those roosters crowing so early this morning?"

"I couldn't say," replied his wife, "but I remember you got up early one morning and you crowed about it for a week."

Due to the fact that all the Canadian National Parks are game sanctuaries, where no one without permission may carry a gun or kill any animal, or bird, wild life is increasing rapidly and is a source of great enjoyment to tourists.

Swans on the River Thames belong either to the King or to the Dyers or Vintners' Company. These two bodies are the only City Companies permitted to own swans on the Thames.

"I see by the papers that the chemical value of a human is only 67 cents." "Oh, I've felt like less than that many times."

The blaze of the autumn colors ran rapidly through all the tree tops as far as we could see from the hillside, scarlet on chestnuts, flaky orange on the apples, yellow on the birches.

Through a heavily wooded patch. Juncos and woodpeckers were busy in here also, and some other birds with a throaty, crooning note. We did not recognize them instantly as bluebirds; they seemed too unlike the same birds of the spring.

The lane now dipped downhill through a heavily wooded patch. Juncos and woodpeckers were busy in here also, and some other birds with a throaty, crooning note. We did not recognize them instantly as bluebirds; they seemed too unlike the same birds of the spring.

DOCTOR ADVISED OPERATION FOR MRS. PENN

She Escaped It by Taking Lydia E. Pinkham's Vegetable Compound

Windsor, Ont.—"After the birth of my first baby I was very much run-down in health and the doctor said I must have an operation as I was suffering from a displacement. A friend wanted me to try your medicine—Lydia E. Pinkham's Vegetable Compound—and I took it steadily for a year. During this time I was carrying my second baby and I felt real well all the time and did not have a hard confinement. I feel sure the Vegetable Compound did me a lot of good, and all my people do, too. One sister in Leamington, Ontario, takes it, and both sisters praise it as a good medicine. I am more than pleased with the result."—Mrs. W. Penn, Windsor, Ontario.

Mrs. Corbin Relieved from Pain. Stevesonke, N.S.—"I had pains across my back and in my side for two years after my first baby was born. My mother had taken Lydia E. Pinkham's Vegetable Compound and I read about it in the papers, so I tried it and the pains all left me. I have a family of three children now, and the medicine helped me during the months before they were born. I recommend it to my friends."—Mrs. CARY W. CORBIN, Main Street, Stevesonke, Nova Scotia.

Cuticura Shaving Stick A Luxury for Tender Faces This freely lathering Shaving Stick contains the smallest and medicinal properties of Cuticura, enabling tender-faced men to shave without the slightest irritation. It leaves the skin soft and refreshed and free from any traces, dry itching.
