Knox Church W. M. S. Meet

(Continued from page 1) one—was given. The President then called upon Rev. Mr. Peters who had kindly consented to speak to the Society. His subject was "The Hand of God in Missions," showing how things that apparently "happened," were really the guiding hand of God.

Mr. Peters gave many cases where this was seen and among others referred to a missionary who had left England in the year 1870 bound for Nova Scotia to engage in Mission work. Owing to storms, the vessel he sailed in drifted and finally landed on the island of Antigua. Here to his surprise he found a congregation of 1500 native converts. This work was the outcome of the visit of a planter and two native servants to England. While there they had heard John Wesley preach and on their return they began work with these amazing results.

Many other cases were mentioned, one being in the island of Madagascar, where missionaries landing there to work found many native Christians. Many years before this, mission work had apparently been destroyed. But many copies of the Scriptures had miraculously been preserved and so the spark of Christianity had been kept burning all the intervening years.

Needless to say, Mr. Peters' address was greatly enjoyed and seemed all too short. Mrs. A. H. Jackson then gave the story of Rev. Dr. Menzies who not long ago gave his life in defence of others.

The roll call was answered with a text on "Faith and Forgiveness" and the meeting closed with the Lord's Prayer in unison. Mrs. Brown served tea and a social time was spent.

Farm Management for hatching Eggs

There are a few things that are within ones method of handling a flock, that may be done which, with us, increase the hatching power of the fertile eggs.

In order for hens to lay well, they generally have to have some animal protein: that is, insects, worms, meat, beef, scrap, tankage or milk. Generally speaking, one feeds about one ounce of meat to each bird daily, or about 15 per cent of beet scrap or animal meat in a dry, wet mash, or both. One hundred hens should drink a pail of skim milk or buttermilk daily, if they are going to lay 50 per cent or better.

Our experiments show that of the above feeds that are available during the winter, milk in some form stands in a class by itself, as a feed to produce eggs for hatching.

We find that the addition of about one half teacup of Cod Liver Oil to the mash daily for 100 hens, also increases the hatching power of the eggs. With us, it is much better than milk than with other meat foods.

The feeding of clover meal, or the clover leaves that fall where the hay is thrown down for the other livestock, appears to help produce a better egg to hatch.

Then, perhaps the best and cheapest factor to help the hatch is direct to sunlight: that is, where the hen sits or stands or scratches in the sunlight, not behind glass, but in the direct rays. With us, we have several easy methods of getting this hen out of doors in the sunlight. If she exercises in the straw, etc., in the barnyard and in the sunlight, it may help your hatch of chicks as much as 15 or 20 per cent.

We are not so particular what grains or what mash you feed, as these do not appear to make much difference in hatching eggs as do the feeds mentioned above. Our rations are as follows:

Scratch Grain: 700 lbs corn chop, 500 lbs shorts, 300 lbs oat chop, 150 lbs Alfalfa meal, 7 lbs fine table salt, 3 gal. of cod liver oil. Mash: 100 lbs corn chop, 500 lbs shorts, 300 lbs oat chop, 150 lbs Alfalfa meal, 7 lbs fine table salt, 3 gal. of cod liver oil. The birds eat about 6 lbs of scratch grain to 4 lbs. of mash. The grain is fed in straw, night and morning, the dry mash is in hoppers or boxes before the birds at all times, and the oil in most cases is mixed in a moist mash and given at noon. Each 100 hens drink about a pailful of buttermilk daily.

Why not a Clearing House?

Some farmers have come to the office asking if anyone was wanting a sow, boar or bull. There are few in farmers' hands. Likewise some farmers would like to buy stock of various kinds. Why not then make your Agricultural Department act as a clearing house for you. The Department is at your service. Why not make use of it?

Farewell Sentiments by Egremont's Band

To Mr and Mrs John Rice: When we meet a friend in passing, Oft we shout "Hallo, good day!" And we clasp the hand in friendship, 'E'er our comrades go away: So we're meeting here this evening, Just to give a word of cheer, And to spend a while together, All because you're leaving here.

But we hope that in the summer When the early fruit is ripe, You'll come back to view the landscape And behold the glorious sight Of the red and luscious cherries, Glistening in the morning sun;—Picking currants and strawberries, Wouldn't it be the greatest fun.

When you hear the mower singing, You'll come back some sunny day, To inhale the scent of clover, And the fragrance of the hay; And you'll watch the wee lambs playing On the knolls beside the creek, And to see the cattle grazing When their hides are growing sleek, And you'll watch the young colt racing Just as every young colt should; But the old mare she'll be shying, When she sees the city dude, That's because she's truly rural And not used to city ways, She's been taught two things in summer,—

Just to hustle and to graze. Now we know you'll be contented In the town where many meet; Where the young and brave are speeding Daily on the busy street. And some day in quiet demeanor, Some of us you'll surely see; And we'll spin yarns in the parlor While the girls are making tea.

And we'll tell each other stories Of the days sometime gone by, When we used to nurse the baby, When the little thing would cry, How we used to rock the cradle, Not so many years ago; How we used to work so steady, How we watched the kiddies grow.

While we're chatting in the parlor, We may have an old-time treat, We may hear a wee voice calling And the sound of toddling feet. We may see a wee tot coming Straight across to you and me, And in baby talk he's saying "Lift me up on Grandpa's knee." So "good bye" we'll not be saying, We will only say "so long," For we trust for years a-coming, You will both be hale and strong, And we hope in spirits fashion, We may clasp a friendly hand; When we meet beyond the border In that bright and happy land.

—John A. Ferguson

DROMORE

The ladies of the Women's Institute held a very enjoyable "At Home" in Russell Hall on Monday evening. For the occasion the Hall was nicely decorated and there was quite a large gathering of friends present at the Institute.

The fore part of the evening was taken up by games of different kinds followed by a program. There was music by the Hooper orchestra, singing by Misses Gertie and Eva Lawrence.

This was followed by an interesting debate "Resolved that men spend more time and money on pleasures than do women." The speakers for the affirmative were Mrs John Hill and Mrs John McMurdo, while Messrs W. H. Hunter and Sam'l Patterson upheld the negative.

Both sides brought out many and varied arguments in favor of their respective contentions. The judges, Mrs A. R. Henderson, Miss Oliver and Mr Findlay Clark, decided that the ladies who supported the affirmative, had the best of the argument and were winners of the debate.

Mr Howard Bertram of Midhurst, who is visiting with Chas. Watson in the village, gave a short speech. A humorous sketch, "Paw being took" was given by Mrs Wm Milne, Miss A. Renwick, Messrs Arch. Clark and Alex. Milne.

After the program a beautiful lunch was served by the ladies. This was followed by an hour's dancing, before all left for home, after spending what one declared was a most enjoyable evening.

Mr Moore of Queen's University, Kingston, occupied the pulpit at Amos Church, Sunday and gave an excellent sermon.

SOUTH BEND

Mr Wesley Holliday has rented Mrs P. Kelly's farm, the latter removing to town. Master Harvey Cowan, Mt Forest, spent the week end with his grandparents here.

Mrs Ira Rawn is visiting her sister Mrs Legge, at Dorking, this week. We are sorry to hear that Mrs. Holliday, Sr. is not well but trust she will soon be better.

Mrs M. Wright is busy preparing for her sale next week. Sales are all right but we don't like them when they mean that a good neighbor is leaving.

Rev. Wm. Rice, Ridgeville, visited his sister-in-law, Mrs Orme Hunt recently. We think the measles epidemic is about over in this section as nearly every family has had them. We haven't heard of any serious results from after effects but it has been bad for school work—so many pupils away for a long time.

The roads are in splendid condition and the men are taking advantage of it by teaming all kinds of products to the mills and elsewhere. Sales are very numerous this winter and good prices are being realized.
