at Ottawa and Toronto

The House at Ottawa listened last week to Hon. Mr Robb present his third Budget and the opinion of the country, with few exceptions, think it is the best one he has given. The salient points are: a 10 per cent Men's Oxfords. Black and Tan easement on the income tax, aboli tion of the sales tax, abolition of the graduated stamp tax on notes, checks etc. and arranging to have only a 2-Oxfords and Slippers cent stamp on all checks, etc, no matter what is the amount. As it has been \$50 or under 2 cts, and 20 or every succeeding \$50: \$101 would Men's, Ladies & Children's Hose cost 6c, \$1001 would cost 42c, etc. There were some other reductions and there is to be a reduction 26 or 30 millions of the National Deb! No mention of reduction of tariff is made and this fact is likely to bring a motion from the Progressives protesting this omission.

In the Ontario House, Treasure Monteith has presented his budget on and Pull-overs which there will be discussion. The deficit is getting smaller anyway, being now about \$800,000, and the proinise is made that next year there will be a "balance budget." This hope rests apparently on the increased revenue that is to come from Government Control, which it is estimated will be 31/4 million dollars! So it is up to Ontario to get a thirst on. To get this amount will require more drinking and more drinking which we fear will result in more drunkenness. We shall see.
