Vehicle Lights October 1st.
The new law requiring lights on all vehicles after dusk is not to become operative until October 1st next. The same applies to the proposed statute calling for special signs on the back of cars with four-wheel brakes. When Hon. Mr. Henry's amendments to the Highway Traffic Act were in committee the minister added a clause providing that these two sections should not go into effect until after the assent to the bill, but on the date mentioned. Thereafter "on a highway after dusk and before dawn every vehicle other than a motor vehicle or a bicycle or tricycle, shall carry in a conspicuous position on the left side thereof a lighted lamp showing white to the front and red to the rear. Any lamp so used shall be clearly visible at a distance of at least 200 feet."

Maple Lodge Farm, McGillivray Township, 200 acres, was sold recently for \$17,000.

The Improved Ford Sedan
YOUR first impression of the improved Ford Sedan will be the appealing gracefulness and engaging smartness achieved by redesigning the body to conform to the lines of the chassis with its lower road clearance. Exterior of body is finished in gray. The chassis is in black and a final dash of smartness is given by the nickle-plated radiator shell and lamp rims. Interior appointments, including the improved instrument board, provide a luxury to be expected only in more expensive cars, and reflect faultless good taste.

Mr John Sinclair, Denver, in a recent letter, when speaking about the Moffat tunnel, which is being put through the Rockies says: "It is six miles long, 25 ft x 16 ft, and is two miles beneath the surface at the Great Divide. Working from both ends, the workmen met without having to vary the direction of the bore an iota—so precise were the engineer's plans. It will be ready for passenger traffic in July, having taken 3 1/2 years to construct, costing \$14,000,000, besides sacrificing 19 lives so far.
The charge of dynamite that let daylight through was set off at Washington by President Coolidge and the Gov. of Colorado was able to shake hands with the Gov. of Utah. The east portal of the tunnel is about 60 miles from Denver. This project is the realization of a pioneer's (Wm. Moffat) dream. Mr Moffat spent his fortune of \$10,000,000 in building a road up through the scenic part of Colorado and through reverses had to stop. The road is now operated by the Rio Grand Western." He also says "We have had a snowfall of about 6 inches which will gladden the hearts of the farmers. It has been dry all along with the water wagon running and lawns sprinkled, making them quite green. This is the time for beet raising here which is one of the best cash crops. They realize over \$100 per acre year after year. Capitalists are coming from the East and buying ranches and tracts of 40-60 acres at good prices. The climate is a big factor with them and the water for irrigation which will be diverted from the tunnel to Denver to ensure an adequate supply for the city which will supply the farmers at the same time.

About 40 guests partook of this sumptuous repast and fifteen of them were relatives from Wingham.

Swinton Park correspondent thinks it's a problem that will puzzle the deepest thinkers how Ontario is going to drink itself rich when Gov't Control starts. **GOES TO FALL FAIRS
TO BE AMUSED**
Frank Lindsay, a Grey Co. farmer, has risen in rebellion. He writes the Agricultural Editor of the Toronto Globe in words that will be echoed, doubtless, far and wide:
"Lockie Wilson can talk as he likes, but after all the farmer wants to be entertained when he goes to the Fall Fair and not educated. As a matter of fact we are being educated to death. The mail man is continually bringing us leaflets and what is worse, long bulletins, written by earnest young men in the service of the Federal or Provincial Dept of Agriculture. Our farm papers are full of such educational articles, telling us we should do this or we should not do that. Even the radio has succumbed, and too often when we twist the dial around to a favorable station we find somebody at the other end anxious to educate us. Do those over-zealous people who are continually educating the farmer, spend their leisure time in going to heavy agricultural lectures? Of course not. Then why not reciprocate, and when we get through our work and take a holiday or want to listen to the radio or even read the paper, leave us alone in our ignorance."

MY IRISH ROSE
There will be a play entitled "MY IRISH ROSE" a comedy drama in three acts, in RUSSELL HALL, DROMORE, WEDNESDAY, APRIL 6th, by Onward Club, Artemesia. Admission 35c and 20c. Dance at the close.

**DITCHES TO BE ABOLISHED
ON ALL NEW HIGHWAYS**
Open ditches will be abolished on all Provincial roads constructed in future, the Department of Highways announces, owing to the large number of serious accidents that have been caused by this type of road. The deep ditch is to be replaced by a shallow gutter seven feet wide. The movement for safer highways was launched several months ago by Warden Rayercraft and the Middlesex County Council and the Department's decision was communicated to the Warden this week. It is believed that some thirty other councils have fallen in line with Middlesex in urging greater safety on the highways.

Golden Wedding in Egrem't

Mr. and Mrs. James Tucker, Egremont, celebrate 50 years of wedded life together.

On Tuesday afternoon and evening of this week the home of Mr and Mrs. Jas. Tucker, 2nd con, Egremont, was a centre of attraction for that day was celebrated the 50th anniversary of the marriage of this worthy couple. Mrs Tucker was Miss Brydges of Wingham and her brothers, sisters and friends of hers from that town, joined in the celebration as well as many friends and neighbors near by. A feature of the afternoon was the presentation to bride and groom of an arm chair and elegant tea set as an expression of the neighbors' good will and respect. Other gifts also accompanied many warm good wishes and congratulations on the auspicious occasion. In the evening the young people of the neighborhood brought appropriate congratulations and spent a pleasant evening.
The Review joins in the felicitations and hopes they may see the diamond anniversary.

After the ceremony the happy couple returned to the home of the bride where a dainty repast was partaken of, only immediate friends of bride and groom being present. A four story wedding cake graced the table and was the culinary work of the bride. ing in the schoolroom of the church. It consisted of choruses, dialogues, drills, instrumentals and recitations. Too much praise cannot be given Miss McGirr for the truths and training she instills into the children and parents should see that their children attend the meetings of the Band. Mrs. D. C. Town played all the accompaniments.
Recitations were given by Robert Milne, Betty Henderson, Gordon Grant: instrumentals by Dorothy McFarlane and James Henderson: Violet Clara Thompson sang "Curious Cradles" by 7 or 8 little girls, showing how the babies of different countries are nursed to song accompaniment was good. Five boys in "Who gives the grain" was an interesting number and a flower drill of eight girls with singing was well done. "How old are you little star" by several little girls was nicely sung.
A dialogue "If I were you in Japan" by several larger girls passed off well and a chorus by 6 girls, "The Lesson of the Lilies" was nicely rendered. "The mite box Convention" by 7 girls was well done in song and story, each mite box giving an account of its experiences in the new's Club. The Gleaners' class, "An Important Question" by 7 college girls choosing their life work. Chorus opened and closed the program and after a few remarks by the chairman, Rev. W. H. Smith, "God Save the King closed the meeting.
