Numerous and very urgent protests are being received by the local municipalities' authorities concerning some of the dances being held in the Town Hall at Midway, says the Gazette. Many dances are being held without proper police surveillance and the behavior of many of the young folks who attend is causing the public to hold up their hands in horror. If all or half of the reports are true, the Carrick council should take steps to ban many of these events, which are doing more than any other agency to corrupt the morals of the youth of County Bruce.

Canadian Teachers Tour Canada

1. Parliament Buildings, Victoria. 2. C.P.R. Great Lakes steamer locking through at Sault Ste. Marie. 3. Open air observation car during the journey through the Rockies. 4. View of the city of Calgary.

That a thorough personal knowledge of every section of the Dominion is a necessary part of the education of the Canadian teacher, is the opinion of a large party of teachers who will journey across Canada on the Canadian Pacific lines this summer, headed by Professor Sinclair Laird, Dean of the School for Teachers, Macdonald College.

Dear Laird's tours have become widely popular during the four years they have been conducted. In a statement issued by him in connection with the coming 21-day trip to the west, Dean Laird said: "With the 60th Anniversary of Confederation occurring in July, it seems very fitting that this event should be celebrated by as many Canadians as possible, visiting the country from east to west over the pioneer railway which has opened the west, and which itself was one of the public works undertaken to bring British Columbia into Confederation.

"The Canadian Pacific Railway has opened to settlement vast stretches of territory which previously had been practically unknown, unvisited and untravelled. Canadians will find additional inspiration in travelling over our pioneer transcontinental railway and visiting the western provinces that have been peopled and have become prosperous as a result of this railway. The progress made in the last sixty years will be a great revelation."

This tour will begin from Toronto July 25, leaving at noon, the first day's journey being through the beautiful lake regions of Muskoka and on to Sudbury. From here the journey continues through the big game areas of northern Ontario to the north shore of the Great Lakes. The north shore of Lake Superior offers something unique in Canadian scenery, and the schedule is so arranged that the journey through this rugged country is made during the day. After the great grain ports of Port William and Port Arthur are reached the special train speeds west to Winnipeg, the grain marketing centre of the prairies. Nearly a full day of interest is spent at Winnipeg;

a half a day at Regina and then on to Calgary, one of the finest cities in Canada, which lies within sight of the Rocky Mountains. The train then heads into the Rockies through the Gap and arrives in Banff July 29, where several days are spent. Motor rides to many of the beauty spots in the vicinity, especially along the Banff-Windermere highway, feature this part of the tour. Banff is the headquarters of the Rocky Mountain Park, a reserve of 2,751 square miles, where mountain game can be seen at close quarters on all sides. Banff's mountains, sulphur swimming pools, its golf course, are known to travellers from all parts of the world. The journey from Kootenay Landing to Nelson is made by steamer, where the train is boarded again for Vancouver. This, and its sister city, Victoria, are great shipping ports of the Pacific that afford hours of interest for the traveller.

The return through the Rockies is made over entirely new ground, one of the most important spots being Lake Louise, claimed by world travellers as the most beautiful bit of scenery in the whole world. The scenery from here to Banff is so perfect that to avoid missing any the train does not travel at night but continues its journey in the morning. Edmonton is the next city of outstanding interest and, from here the lake journey has been voted by others of former tours of Dean Laird's, as a wonderful conclusion to a glorious journey across the continent. Toronto is reached four hours after leaving Port McNicoll and the journey is over.

The all-expense arrangements of the tour is a popular feature for every bit of worry in connection with tickets, meals, motor rides and hotel accommodations is obviated, meaning nothing but comfort and enjoyment for everyone in the party.
