Saturday.

Yes, youngsters, half a holiday—I mind the maples blazed.

We clanked across the crisp fields, tired by tired gray—

Fresh garments lay upon the bed in our wee lofty room.

Yes, youngsters, half a holiday—the maple road at last.

Interesting Facts Regarding Fox Raising.

Some interesting facts regarding fox farming are forthcoming from the Veterinary Director General, Dr. Torrance.

She Took the Next Train.

Short cuts, if the road is too steep, may not prove short; and places that are near together may not be readily reached from one another.

"Yes, madam!" the floorwalker replied briskly. "That's the beauty of a department store—get anything you want, right under the one roof!"

Electricity in the Bathroom.

Speaking of deaths in bathtubs to which electrical appliances were attached, the British Medical Journal says:

No one with the most elementary knowledge of the danger of an electric current would immerse himself in the ordinary household bath and then proceed to administer treatment from any piece of apparatus connected with the ordinary lighting circuit; nor, indeed, would he allow anyone else to administer such treatment.

He Wanted a Full Trip.

The foreman had rebuked Cassidy for not taking a full load of bricks up the ladder every trip, and Cassidy had promised not to offend again.

"What do you want?" asked the man.

"Throw me down one brick," shouted Cassidy at the top of his voice, "to make good me load!"

Minard's Liniment Relieves Distemper

Surnames and Their Origin

HOMER.

Racial Origin—Anglo-Norman. Source—An occupation.

While the Normans spoke French they were really a Teutonic race. Indeed, a large part of the blood of modern France, particularly in the north, was originally Teutonic.

One of these words was that for "helmet," a modern word which has come down to us both through the Anglo-Saxon and the Norman-French tongues.

The "healers" or "healmers" of medieval England were the makers of helmets. The name was, of course, first applied as descriptive of this occupation, with this meaning being ultimately lost in that of mere personal designation.

A Strange Conversion.

How a woman was converted to Christianity by a Brahmin is told by a recent writer.

Cecelia Thaxter, a poetess, was an earnest student of strange and mystical teachings. At one time she was much dominated by the teachings of John Weiss, and she did not appreciate the beauty and power of the Bible.

Miss Parkman replied, "But did not Jesus teach that? Is it not all in the Sermon on the Mount?"

By and by Mohini himself happened to get hold of a copy of the New Testament, and was much surprised and impressed by the beauty of its contents.

"What!" he said. "You do not read your own religious books? I never heard anything more beautiful than this."

Mrs. Thaxter forthwith began to read the New Testament and became so much interested in it that she went about with a copy in her pocket; whenever she had a chance she would read it.

"To a very large degree, production is controlled by profits and the ease of marketing the products, but sometimes, as in the live stock industry, markets have to be created.

Perfect Hands.

A prominent British artist says that in the perfect hand of a woman the third finger is longer than the first, or index finger, while in a man the perfect proportions are a longer first finger than the third.

THE TREASURE OF GOOD HEALTH

Easily Maintained Through the Use of Dr. Williams' Pink Pills.

There is not a nook or corner in Canada, in the cities, the towns, in villages, on the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other they have brought back to health and strength.

The wonderful success of Dr. Williams' Pink Pills is due to the fact that they go right to the root of the disease in the blood, and by making the vital fluid rich and red strengthen every organ and every nerve.

The Mayflower's Flag.

During the preparations for celebrating the tercentenary of the sailing of the Pilgrims it has been discovered that the painting of the Mayflower in the House of Parliament depicts the ship flying the modern Union Jack.

In many ways the sailing of the Mayflower was an event in England's history, but how different that history would have been had the example of the Pilgrims been followed by certain other men who had made up their minds to join William Brewster and his companions!

It was this same Charles I. who, in 1634, issued another proclamation forbidding any but royal ships to fly the Union Jack—the old flag of the English and Scottish crosses.

Originally the name "Jack" was given to the small upright spar in the ship's bows from which the flag was flown when going into action.

The death rate for adults is at its lowest in June, under normal conditions.
