three fast cruisers the Vigilante, Eayfield and Bayhound, in commission within two weeks. The Bayfield, which has been out of service for some time, is being re-conditioned.

The Fight Against Bolshevism.

Paris Temps: Democratic countries are solld in the straggle against Bolskevism, the destroyer of all civilization. It is a question of life or death for the western world. Even the fact that the Soviets are taking part in the Economic Conference at Geneva, in conditions which uniquely reveal their preoccupation in finding credits which will permit them to continue their dangerous propaganda, could not create new and easy illusions in this respect. Having failed in China, Moseow is anxiously looking again towards Europe, in order to resume on a new tasis her revolutionary efforts.

NURSES

The Toronto Hospital for Incurables, In statieries with Bellevue and Allied Hospitale, New York City: offers a farce years' Course of Tosining to young homen, having the required education, and designes of becoming purses. This Hospital has adopted the eighthour cystom. The pupils receive uniforms of the School, a mantity attowance and traveling expenses to and from New York. Minard's Liniment is reliable.

----A colored agent was summoned be fore the insurance commissioner. "Don't you know," said the commissioner, "that you can't sell life insurance without a State license?" "Boss," said the colored man, "you suah said a mouthful, I knowed I couldn't sell it, but I didn't know the reason why."

There's only one advantage in putting off until to-morrow what should be done to-day, and that is you may be sacked to-morrow and wont have it to do.

Why Firestone Tires Are Better

One of the outstanding developments by Firestone Engineers is the Gum-Dipping process which impregnates and insulates every fibre of every cord with rubber-adding strength to the cords and reducing internal friction and heat so destructive to tire life.

The Firestone Dealer in your locality will gladly explain to you the extra value of Gum-Dipping. He is prepared to demonstrate how the cords of the carcass are saturated in a rubber which makes motoring more economical with added comfort and safety.
