BUSINESS GOOD

Trade Volume Ahead of Last Year-Record Auto Output-Mines Active

Ottawa.-Business in Canada continues at a good pace. Manufacturing plants are unusually busy; merchandise distribution is being maintained at a high level; automobile production is setting new records, and the employment situation is highly encouraging.

While the acreage devoted to wheat in the Canadian West this season will be somewhat smaller than last year. owing to delay in seeding, the general crop situation is promising. The prospacts are splendid because of moisture, the cool weather tending to develop good roots and bring out a stronger stand. Oats and barley are coming along well.

The construction program is now well under way. Engineering works, a day-coach smoker a man underroad building and railway construct stands why some women dislike the tion form important items. There are smell of cigar smoke. a number of factories, warehouses, flour mills, elevators and other trad- Women have a smaller vocabulary up so quickly and so surely as Dr. ing facilities being built. At country than men, but it's more active. points and on farms greater activity appears to prevail in construction

Business generally throughout the country is in excess of last year. The dollar volume of business in the first four months of the current year has been 7.4 per cent. greater than in Don't expect to have anything girl suffering from impoverished the similar period ow 1926; 21..2 per given you free except kicks. cent. greater than in 1925, and 24..2 per cent. greater than in 1924,

No Setback in Sight.

There seems little possibility of any sotback in business, other than a mild recession, for some time to come. Manufacturing is keeping pace with you have a cold and listen to their ing up again, and I shall always find demand, and merchants are stocking suggestions. goods only for immediate require-

There is still a tendency among producers and dealers to avoid large sions. commitments until prices become more stabilized. For some months back the general level of wholesale prices has been downward, although the movement has not taken on the on having the last word. appearance of a slump.

During May, however, the Dominion Bureau of Statistics' index for 236 commodities rose 3.4, being 151.9 as compared with 148.5 in April. The increase in the general index was aldenials keep us young. most solely due to the much higher levels for grains, flour and potatoes. less than usual.

ing \$119.00 have been let in connection with the addition to the Burrard elevator at ancouver. Transmission been pushed open. machinery will be supplied by Canasteel by McLennan, McFeely & Co. Additions to three Port Arthur ele- serve. vators this season will cost \$670,000.

The Dominion Bureau of Statistics reports that production of iron and steel and their products in Canada during 1926 amounted in value to \$496,376,260, being an increase of 23 per cent, over the total for 1925 and a higher output value than in any other year since 1920.

The operating capital of the industry at \$592,134,860 was 4 per cent. higher than in the previous year; the number of employees was 101,414, compared with 90,125 in 1925.

Metal production in Northern Ontario is increasing rapidly. Output from the mines of Cobalt, South Lorrain and Gowganda silver district has finally reached a total of \$250,000,000. This is the second mining camp in northern Ontario to reach this figure.

The Wisdom of the Ancients La Presse (Ind.): (Maurice Hutton, Principal of University College, Toronto, considers that insufficient attention is paid nowadays to the study of the great ancient philosophers, such as Plato and Aristole). Professor Hutton's ideas are without doubt shared by the greater number of Ontario educationists. May they grow in strength from day to day and have a profound influence upon the popular mind. The entente between English-speaking and French-speaking Canadians will thus be made more easy. The wide and firm ground o fthe "humanities" is that on which we shall find the greatest facility in meeting and understanding one an-

Make Haste Slowly

Saskatoon Western Producer (Pr.) While a steady increase in the population is desirable and while Canad cannot hope to attain great progress in coming years without it, anxiety to obtain it too speedily may necessitate sacrifices which the people of Canada do not dare to make. There is room in Canada for settlers of the right type, but there should be an insistence on quality which is not now apparent.

The man who wants to rule or ruin may do both if given a chance.

WEAK, LISTLESS GIRLS

Need Such a Tonic as Dr. Williams' Pink Pills to Restore Health.

When a girl in her teens becomes pale and sallow, especially if at the same time she shows inclination to tire easily, a listlessness and inattention to her work or studies, she needs Dr. Williams' Pink Pills, a tonic which directly and specifically corrects the condition from which she is suffering. A chemical analysis of the blood of such a girl would show it to be deficient in just the elements Dr. Williams' Pink Pills can supply. But an analysis of the blood is not needed—the physical signs are plain. Among these signs are a pallor of the cheeks and lips, dark circles under the eyes, easily tired and breathless after slight exertion. Poor appetite, headaches, and sometimes fainting spells follow; often the patient is nervous and is startled at the least noise. In all run-down conditions there is no other tonic will build you Williams' Pink Pills. The statement of Miss Dorothy Lumblin, Bush Island, N.S., will bring hope to other weak girls. She says:-"I wish from my heart I-could persuade every person who is in a run-down condition to give Dr. Williams' Pink Pills a trial. About a year ago I was a weak blood and a run-down system, with many of the attendant symptoms. I The New York stage is reported to had often read of Dr. Williams' Pink be in a critical condition. Foul play Pills and decided to take them, and after using six boxes I feel as well and strong as ever. Dr. Williams' If you imagine that this is a cold, Pink Pills will be my standby in the unsympathetic world, tell people that future if ever my blood needs buildpleasure in recommending them to others."

Oxford Troubled by Sex

"Dons of ancient Oxford have attacked sex problems and coeducation as allied enemies to the scholastic advancement of the university's young men. By a margin of sixty-five they For Either the Newborn Babe or have voted to reduce the number of feminine students to a ratio of one woman for four men. Proponents of the new limitation declare the coeducation has been attended by an undesirable increase in freedom between the sexes to the detriment of ways do good. They are absolutely study. If this be true, the condition constitutes a challenge to coeducation. However, it strikes us that the contentions of Miss Marjorie Fry, Concerning the Tablets, Mrs. John principal of Sommerville College, who opposed reduction, more nearly approximate the actual truth. Leading the defense for her sex Miss Fry declared that manifestations of easy sex relations are not confined to Oxford, lets are the best medicine you can but have been clearly in evidence keep in any home where there are throughout the world since the war.
